Railroads as Agents of Civilization.

General Sherman has written a letter recommending the construction of a railroad from San Antonio, in Texas, to Laredo, on the Rio Grande. He says:

"Such a railroad would ultimately connedt the railroad system of the United States with that in Mexico. Railroads are modern civilizers, and are most useful for frontier defence, because they enable us to use our small detachments to better advantage. My judgment is that roads radiating from San Antonio west to Fort Clark and southwest to Laredo and south to Brazos, Santiago and Brownsville, would greatly facilitate the defence of the Rio Grande frontier against the thieving raids which have delayed the settlement of that quarter of Texas. I prefer not to express any decided opionion as to the best manner for the General Government to aid the construction of such railroads, as that does not properly pertain to my office."

Statement of the Public Debt of the United States, February 1, 1880.

Totals.....	$64,623,512 00	$322,117 56

Interest paid by United States, $45,651,185 94; interest repaid by transportation of mails, &c., $13,586,091 04; balance of interest paid by United States, $32,065,061 90.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ Hon. Mr. Ives and Superintendent McFee of the International and Lake Megantic Railroad met the Bangor City Government on the 9th inst. relative to the consolidation of the road with the Bangor and Piscataquis Railroad; thus forming a through line from Montreal to St. John. They say they will raise the funds necessary to build the connecting link—80 miles—providing satisfactory arrangements can be made with the city by which the road can be consolidated under one management. Quite a number of citizens present expressed themselves in favor of some arrangement being made to accomplish this purpose. The matter was left with a committee of the City Government, who will report at a future meeting.

☞ At the annual meeting of the stockholders of the New London Northern Railroad company, held on the 4th inst., it was voted to purchase the Brattleboro branch of the Vermont and Massachusetts Railroad, and for this purpose and to retire the present indebtedness of the road it was voted to issue a million and a half of bonds. The old officers and directors were re-elected. Chas. Osgood is President, and Robert Colt Secretary and Treasurer.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, February 12, 1880.

The markets have all been dull and generally declining throughout the week, both at the Stock and Commercial Exchanges. Wall Street was decidedly weak until the Government purchase of bonds when it became stronger. The tendency seems to be downward under a steady pressure of large holders to sell stocks, among which Keene is named in order to protect his wheat and lard deals on which he is said to be badly hurt. To stiffen prices a stock jobbing agreement apparently was kept pending and in mystery until the Government purchase furnished a stimulus to the market Wednesday before authority was given for stating that the contract or running arrangement between the Lake Shore and Erie roads was signed, How much more valuable stocks will consequently be is hard to see since no more business is secured. Against Canada Southern a special drive was made but the rally was quick. Report says that Mr. Vanderbilt marketed a good deal of stock between 80 and 78, then turned traffic to which the road was entitled over to the Lake Shore, which, with the art of bookkeeping, made possible the very unfavorable statement which the Company recently issued; and that when the frightened holders of the stock sell it Mr. Vanderbilt will take it back, throw business over the road instead of over the Lake Shore, and then show the property to be dividend-paying to the share proprietors.

The contract between the Lake Shore and Erie for a division of the New England traffic signed by Vanderbilt and Jewett, has yet to be ratified

by the directors of each corporation. The Statutes of New York forbid a combination between the New York Central and Erie, but Lake Shore runs through other States. Erie originally demanded 33⅓ per cent of the New England traffic, but this was reduced to 20 per cent while navigation is closed and 25 per cent. the rest of the year. There is a tacit understanding that the difference between those percentages and the amount asked by the Erie shall be made up by giving Erie a fair proportion of the overflow of through freight to New York brought to Buffalo by the Vanderbilt system of roads. Upon these two pivots hang the Vanderbilt and Gould stocks and the balance of the market follows, except the coals, which fell off still more on the report of the Delaware and Hudson Company and a break in Reading.

The turning point in stock speculation was on Wednesday in the Government's purchase of its own bonds and the consequent anticipation of a Treasury disbursement of over $11,000,000 cash. Until after mid-day the stock market was feverish and rather more inclined toward lower than higher prices. But when it was known that more than the full amount of $11,000,000 of bonds were offered at about market prices the temper changed, and prices generally not only recovered the early declines, but also further advanced, the market closing strong and excited with sales of 324,800 shares against 240,000 Tuesday and 230,000 Monday. It is a question, however, if this addition to the floating supply of money will be great enough to absorb the large quantities of stock known to have been awaiting an improvement in the market.

Notice is called to the change in the firm of Amerman & Burwell to J. W. Amerman & Co., as seen in their advertisement.

The incomes of the Columbus, Chicago and Indiana Central Road are down to 42 per cent. with the other securities of the road on the appeal of the Pennsylvania R. R. which may keep the suit in court three as four years more.

The Iron Mountain stock and bonds have been strong especially the incomes.

Investment demand for bonds of all classes has been moderate, and a fair speculative one including the purchase of $1,600,000 of Louisville and Nashville new bonds on private terms of Drexel, Morgan & Co.

Proposals for the sale to the Government of $11,000,000 of bonds for the sinking fund were opened Wednesday at the Sub Treasury. The bids amounted to $11,625,000, and over $11,000,000 were accepted. The largest offering was made by the First National Bank which offered to sell $300,000 6s of 1880 at 103.87, $2,000,000 6s of 1881 at 105.49, and $3,000,000 5s of 1881 at 103.37. I & S. Wormser offered $1,500,000 6s of 1881 at from 105.23 to 105.36; Fisk & Hatch, $1,400,000 6s of 1881 at from 105.20 to 105.35, and $600,000 5s of 1881 at 103.10 and 103.15. Secretary Sherman authorized the acceptance of all bids which did not exceed, for the 6s of 1880, 103¾; 6s of 1881, 105½, and for the 5s of 1881, 103½.

The effect upon Government bonds was seen as late as 4 P. M., when brokers were still running round to buy 4 per cents at 106¼, an advance of fully ⅛ over anything paid during bank hours.

State bonds have been quiet and without much interest manifested in them, Secretary Sherman's views as to refunding the 1881s were somewhat modified, in his testimony before the Finance Committee; so that he admitted that a bond at less than 4 per cent interest might sell at par.

Mr. Vanderbilt is said to have bought $5,000,000 4 per cent Governments, which advanced the price to 106 and over.

Sterling exchange has been quiet and barely steady at about $4 82¾@$4 83 for best 60-day bills, and firm at $4 85@$4 85½ for demand drafts; the nominal rates remaining $4 83½@$4 86.

Call loans were 5@6, principally 6 per cent, on stock collateral, and about 4 per cent on Governments.

The last bank statement was again unfavorable, showing $650,000 reduction in the surplus reserve, as the U. S. Treasury absorbed the currency returning from the West and South early in the week.

The elevated railroad stocks declined heavily on reports from Albany respecting a reduction in the fares to 5 cents per passenger at any time in the day. The Iron Mountain Incomes advanced on the report that the Executive Committee had decided to pay the back interest on each issue to December 31st, the payment to be made March 1st, but they declined to give any information until the subject had come before the full board.

The clearances of domestic produce from New York for the week ending Tuesday night amount to $5,725,000, which falls $2,000,000 below the corresponding week last February. The list embraces only 2,929 bales cotton, 623,000 bushels wheat, and 63,500 barrels flour.

A syndicate, embracing Drexel, Morgan & Co., J. & W. Seligman & Co., Hallgarten & Co. and Winslow, Lanier & Co., have taken $6,000,000 of the first mortgage bonds of the Metropolitan Elevated Railroad Company at a price believed to be 99.7. The issue is for the building of the Second Avenue Line, previously authorized for the extension of the road, plans for which were made at the time of the lease to the Manhattan Railway Company. The bonds are said to have belonged to the New York Loan and Improvement Company, which had the contract for building the line.

Mining stocks advanced quite sharply during the week, as a rule, but afterwards fell back on the Californias, while Moose has lost all friends and confidence, as it deserves, since the clique who have mismanaged it, have sold out. The Virginia City Chronicle states that for the month of January the total bullion shipment of the following mining companies were as follows: Consolidated Virginia, $194,424 10; California, $162,268 71; Ophir, $60,666 69; Union Consolidated, $115,717 62. The Union Consolidated Mine began crushing ore about the 1st of December, 1879. The yield in gold and silver for the two months up to January 1st was as follows: Gold, $144,965; silver, $132,318; total, $278,283. It will be four or five days before the January clean up for Sierra Nevada will be made.

The gross earnings of 34 railroads reported for January show $1,853,155 increase over same month 1879, equal to 30 per cent.

The Breadstuffs speculation has been upon a more legitimate basis the past week as shippers have taken quite freely of wheat at gradually advancing prices. Yet stocks are large, their being 6,500,000 bu. wheat in New York and about 30,000 000 "visible supply."

Ocean freights have been a little more active in consequence, but the supply of tonnage is over two hundred ocean vessels in this port and rates of freight have not improved.

Rail freights so far as known have been maintained from the West though the current speculation in produce keeps back freight.

Provisions have broken severely as Keene is said to have lost control of the market, unable to hold it longer.

Cotton has been dull though held steadily above an export basis.

☞ The Homestake Mining Company has declared its usual dividend, of thirty cents per share, for January, payable at Wells, Fargo & Co.'s on the 25th inst. Transfer books close on the 20th.

The British Iron Trade.

The exports of steel rails from Great Britain in 1879 were 100,000 tons greater than in 1878; and the output of Bessemer steel in 1879 not less than one million of tons. The number of works is being largely increased, and the greatest preparations have been made for an unprecedented production in 1880.

The magnitude and suddenness of the revival are seen in these figures. During August, September and October of 1879, exports of iron were 226,829 tons, against 37,988 tons in the same months of 1878, and 37,707 tons in 1877. As late as October, only 830 out of 2,158 puddling-furnaces in the Cleveland district were at work, but a large number in addition are preparing to resume operations.

Hematite iron, for steel-making, has advanced from $11 per ton to $24 50; Cleveland pig from $8 40 to $11 50; iron ship-plates from $27 50 to $42 50; steel rails from $25 to $40 per ton.

The manufacture of iron in Great Britain for the following years was:

	1874. Tons.	1876. Tons.	1878. Tons.	1879 Tons.
Rails.....	265,000	107,800	21,000	6,700
Plates.....	178,272	172,374	284,000	178,600
Bars.....	91,000	88,000	68,000	64,700
Angles	45,900	52,664	90,000	48,700
	580,172	420,838	413,000	293,700

Union Bank of England.

The London Daily Telegraph of Jan. 23, contains the prospectus of a new banking company, "The Union Bank of England and America (limited)," with a New York as well as a general board of direction. The proposed capital is £1,500,000 stg., in 75,000 shares of £20, of which half was to be first issued. The gentleman who brought the advertisement to our notice states that the subscription was closed yesterday, a perfect success. Mr. J. H. Sparks, formerly of the White Star line in this city, is one of the London directors. The New York names in the advertisement are Messrs. E. T. Bell (of W. J. Wilcox & Co.), General C. T. Christensen, E. W. Corlies, R. H. Headley, A. E. Orr (of David Dows & Co.), and B. B. Sherman, President of the Mechanics' National Bank, with Mr. H. J. Overmann as Secretary.

The Duty on Steel Rails.

Henry V. Poor, the railroad statistician, appeared before the Ways and Means Committee this morning in advocacy of the bill recently introduced by Mr. Covert of New York, which reduces the duty on steel rails from $28 to $10 per ton. Mr. Poor read an argument, bristling with tables of railroad statistics, to prove that the prosperity of the country and of the railroads were proceeding abreast. In 1869 the New York Central and Hudson River Railroad charged two and four-tenths cents per ton per mile. In 1879 the charge for the same service was eight-tenths of one cent. That is, the cost of transporting a ton of merchandise from Des Moines, Ia., to New York was the same as from Buffalo to New York in 1869. By this reduction new States and Territories have been opened up, populated, and the commerce of the country increased millions of dollars every year. The rate of increase in ten years was 289 per cent., while the per cent. of increase of compensation to roads was 28 per cent., or the service was increased tenfold more than the compensation to the roads. The most potent factor in the reduction of the rates of transportation is steel rails, and the great problem now is how to get them as cheaply as possible. The price of these Bessemer steel rails in England varied much from 1855, the date of their introduction, until 1874. Between that date and 1879 the price fell rapidly, and in the latter year extensive purchases were made in England for American roads at not exceeding twenty-two dollars a ton. At that price the ad valorem duty amounted to 127 per cent. of the cost price in this country, after the price fell to forty dollars a ton, only twelve dollars greater than the duty itself. Mr. Poor estimates that it will require this year a billion of steel rails for renewals. Mr. Poor said, in conclusion, that the difference in price between fifty dollars and eighty dollars the ton is a difference the present year in construction of two or three thousand miles of railroad.—[Boston Journal, Feb. 3.

Mining in New Jersey.

The mining interests in the vicinity of Bloomsburg, New Jersey, have brightened wonderfully within a few weeks. Every land owner is positive that there is iron ore on his premises, and is busy digging for it, and in many cases with marked success. Shafts have been sunk on a dozen farms very recently. On the Musconetcong side and in the upper part of Hunterdon county ore in paying quantity seems to be found almost anywhere. All the old shafts are being worked again. A company, with ex-Senator F. A. Potts as President, and Judge Lathrop, Receiver of the Central Railroad of New Jersey, as Vice President, has secured the Turkey Hill mines, the best so far worked. This company already employs over 100 men, and has opened half a dozen shafts. It loads about 10 cars a day with the ore. To facilitate the transportation, a branch road has been built from the station called West End to the mines, and the cars are thus sent by gravitation to the main track of the Easton and Amboy Railroad. Mr. Heft the Superintendent of the new company, has caused telephonic connection to be made from his office to the mines. So prosperous does every thing appear that the citizens of Bloomsburg propose erecting a furnace within the village limits.

Ohio and Mississippi Railway.

Some time ago Frederick P. Dimpfel, a stock and bond holder, brought suit in the United States District Court for the Southern District of Illinois, against the Ohio and Mississippi Railway Company, to have the purchase of and issue of bonds on the Springfield Division set aside as void, on the ground that neither had been authorized, but was the individual act of Daniel Torrance the former President of the company. The suit was contested, and recently a decision was given against Dimpfel on the questions of law raised. Subsequently the latter filed an amended complaint as to the issues of fact remaining untried, and the company have now handed in their answer, in which they not only admit all Dimpfel's allegations, but go further, and aver that the purchase and issue of bonds were never authorized by either the board of directors or the stockholders; that holders of only 116,282 shares of stock out of the 240,000 outstanding ratified the acts of President Torrance in these regards, whereas a two-thirds vote was necessary to make them legal, and that no resolution or order authorizing or ratifying either was ever recorded in the office of any recorder of deeds of any of the counties of Illinois through which the road runs, as was required by law. In conclusion they "offer to surrender and restore said railroad, the [Springfield Division] and other property to its proper owners in equity, as may be determined and directed by this court, and to account for the profits and earnings thereof, subject to the stating of an accounting of the same, and of the moneys expended upon or on account of said railroad and other property upon principles of equity, and to make good to such equitable owners all that this respondent obtained by the possession and occupancy aforesaid." The company further "prays the same relief as is asked for by the said complainant in his amended bill, and that in the event of the allowance of such relief an account may be taken and stated upon principles of equity before a master of this court, or otherwise, as the court may direct."

Philadelphia and Erie Railroad.

At the annual meeting of the Philadelphia and Erie Railroad Company, held in Philadelphia on the 9th inst., the report of the Board of Managers for the year ending December 31, 1879, was presented, showing the gross earnings during that time to have been $3,091,807 81, and the gross expenses $2,130,258 07 making the net earnings $961,549 74- an increase of $85,438 08 over 1878. Robert Thompson, Wistar Morris, John P. Wetherill, Christian Kneass, H. M. Phillips, J N. Dubarry, N. Parker Shortridge, Alexander Beddle, Samuel Gustine Thompson, and Henry D. Welsh were elected managers. Henry M. Phillips and Henry D. Welsh are new members of the Board, and take the places of John Noblit and J. Alexander Simpson. There was some discussion relative to the rumored proposed sale of the stock held by the city of Philadelphia, but it elicited no information on the subject, and no action was taken. As the net earnings are all absorbed by fixed charges, it was explained that there would be no dividend.

Cumberland, Moorefield and Petersburg Railroad.

At a meeting of the directors of the Cumberland, Moorefield and Petersburg Railroad Co., held at Cumberland, Md., on the 2d inst., J. H. Percy was elected president, John A. Robinson first vice-president, and John Johnson second vice-president. A resolution was adopted authorizing the business committee to have a preliminary survey and location of the road made at an early day; a call of twenty-five dollars for each share of stock was made, payable in sixty days, and stock ordered to be issued to shareholders. The committee who visited Moorefield last August reported, and certain donations to the company of real estate for rights of way, etc., were ordered to be recorded. This company was organized on a charter obtained over a year ago. The proposed road is from Cumberland to Moorefield.

Shenandoah Valley Railroad.

The contractors, Messrs. Best & Hoppock, with a large number of hands, began operations on the northern extension of the Shenandoah Valley railroad, on the farm of Col. H. Kyd Douglas, opposite Shepherdstown, on the 2d inst. Hon. A. R. Boteler, after congratulating the contractors and engineers, struck the first pick and shoveled the first shovel of this extension. Messrs Fitzpatrick & Co., contractors for the masonry work for the bridge over the Potomac, river, at Shepherdstown for the Shenandoah Valley railroad,

also began operations, on quite an extensive scale at the same time.

Seat on the New York Stock Exchange Assignable.

A decision was handed down by Judge Choate in the United States District Court, this city, on the 6th inst. in the matter of Franklin M. Ketchum, a bankrupt, which disposes of the question as to the right of an assignee to take possession of a bankrupt's right to a seat at the Board of the New York Stock Exchange. Application was made for an order requiring the bankrupt to make transfer of his seat to such person as the assignee may procure as a purchaser. The real question was whether the right or privilege which the bankrupt holds as a member of the Exchange is to be regarded as property which should pass to the assignee for the benefit of the creditors. The consent of a committee of the Stock Exchange is necessary to a transfer. Judge Choate says:

"The seat, however, has an actual pecuniary value which the rules of the society, as interpreted and applied in practice, permit the holder to realize by a sale and transfer. There is no practical difficulty in effecting a transfer of the right for a pecuniary consideration, subject to the condition that the debts of the present holder to members are first paid, and the right is to all intents and purposes a business privilege useful for business purposes only. I see nothing in the rules of the Exchange which renders it impossible for the seat to be disposed of by the assignee in bankruptcy, with the cooperation of the bankrupt's subject to the conditions above mentioned."

Blast Furnace Slag.

NEW YORK, Jan. 30, 1880.

EDITOR AMERICAN MANUFACTURER:—Your issue of the 2d inst. contains an article from the London Times, under the above heading, to which you added very correctly: We think this invention (meaning the manufacture of slag wool, silicate cotton or "mineral wool," as it is called here,) originated in this country. We saw it in operation several years ago at the Greenwood Iron Works, Orange county, N. Y.

If you consider it of sufficient importance to your readers—especially to the blast furnace owners—to devote a column or two to the reproduction of the essential subject matter, which is contained in the different patents taken out in this country and England for the invention referred to, I shall be pleased to furnish you a concise history thereof.

In the article referred to above it is stated that the make of slag wool at the Tees Iron Works is about three tons a week.

Though this quantity is turned out daily at the Greenwood Iron Works, it must be confessed that this new industry is yet in its very infancy.

The Times article says further. It follows that for producing these three tons (of slag wool) nearly two hundred tons of slag have to be operated upon.

Such a statement belittles the importance of the subject, and may discourage other English iron masters from the competition which Mr. Wood could not prevent by his own patent.

The mechanical conversion of slag into slag wool would of course yield nearly the full weight of the former in the shape of the latter, provided the slag were smelted and properly treated.

Even if the hot slag is to be utilized as it flows from the furnace, up to 20 per cent of it could by proper appliances be turned into wool; but as long as the demand is not more than can be supplied by converting only within ten per cent of the flowing slag—as at the Greenwood Iron Works—a more elaborate or costly arrangement is not called for.

Though large quantities of mineral wool are in use at many furnaces and mills—as at the Cambria Iron Company, Johnstown, the Merion at Conshohocken, the Glendon Iron Company, Sterling Railway and Iron Company, &c., &c—it may be asserted that the manufacture of this article has so far elicited very little interest from blast furnace owners. Probably the mention of the article as a "non-conductor of heat" carries with it the impression that it is merely boiler covering material, and as such neither quantitively nor financially a "big thing" for the furnace which has to digest a hundred tons of raw material a day. Rope makers do not naturally drift into a side speculation in Brussels lace. Granting that the quantity to be used for the covering of heated surfaces alone is not important from that point of view, (though several concerns have each used for this purpose near and over fifty thousand pounds within a year,) a few other applications may be named which—adapting themselves wonderfully to our system of building peculiar to a new country—are almost certain to create a demand, which eventually may require more slag than all the slag glass and slag brick making together.

The Pennsylvania Railroad Company has purchased within two years over one hundred thousand pounds of mineral wool merely for deadening in the floors of passenger cars. Aside from the deadening of sound, your readers will probably hit on a more important consideration for this application by remembering overheated cars in which, while the perspiration has to be wiped from the forehead, the feet feel amazingly cold. In a car line as described you can safely take off your boots in midwinter—the company permitting. The same kind of deadening is found to answer admirably for packing roofs and walls of dwellings and other structures, and these applications—which are now already thoroughly tested—will create an enormous demand for mineral wool as soon as most people know that there is such a thing. To make most people know this costs a great deal of money, and the necessary capital should come from the iron interest as the wool itself does. Then its manufacture will soon be localized in all the iron producing states; its cost to the consumer will be cheapened, and the resulting larger demand will be more profitable to the producer at lower selling prices than now obtaining.

In other words the importance of mineral wool can only be realized by investigating its merits as a building material.

Yours respectfully,
A. D. ELBERS.

Attack on Steel Rails.

The Iron Age says that the attack on steel rails is prompted by the railroad interest, and much that is said in support of their demands for cheaper rails is utterly insincere, and then adds:

Since the improvement in business last fall the railroad companies have advanced their charges on coal, ore, iron and steel, as well as on all other classes of freight. It is their policy and purpose to charge the highest freight and passenger rates which circumstances will permit, and a reduction in the cost of rails would not be reflected in cheaper freights, except where concessions to shippers are induced by competition; and not then if, by means of pools and combinations, such an apportionment of traffic can be effected and will enable them to maintain a fixed rate.

☞ The Pittsburg and Lake Erie Railroad Company's General Manager, after a fair trial of Riehle Bros. Self Adjusting Railroad Track Scales, writes them that "they are working to their entire satisfaction." The Cumberland Coal and Iron Co. of Frostburg, Md, have just ordered one of their Standard Track Scales. Riehle Bros. scales are being introduced all over the country, and taking the place of other well known makes, on account of their peculiar advantages in continued accuracy and durability. They have recently been introduced in some of the largest Railroad and Iron Companies in the United States.

Delaware and Hudson Canal.

The following is a synopsis of the forthcoming annual report of this company for the year 1879:

Receipts from coal, &c	$6,403,907 13
Receipts from railroad	3,152,839 07
Receipts from miscellaneous and interest	415,303 61
	$9,972,049 81
Expenses of all kinds	7,455,033 40
Net earnings	$2,517,016 41
Paid taxes, interest and rentals leased lines	3,147,659 69
Showing a deficit of	$630,643 28

Of this $316,059 76 was loss upon leased lines, including the New York and Canada Railroad, leaving as deficit on the company's own business $314,583 52.

	Coal, tons.
There were mined and sold for account of the company	3,054,390
Transported for other parties	357,673
Total	3,412,063

The entire cost of the damage to the canal caused by the unprecedented high water of December, 1878 is included in the expenses.

Pomeroy and State Line Railroad.

The Pennsylvania Railroad Company has again taken possession of the Pennsylvania and Delaware Railroad, and organized a new company to be called the "Pomeroy and State Line Railroad Company." The directors of the new company are: George B. Roberts, Edmund Smith, Dell Noblit, Terrance H. Clark, Wistar Morris and Hugh W. Catherwood. The officers are: President, Strickland Kneass; Secretary and Treasurer, James R. McClure. George W. Paxson is again the Superintendent. He also has charge of the West Chester branch of the Pennsylvania Railroad. The road is about 39 miles long, and runs from Pomeroy, on the Pennsylvania Railroad, near Coatesville, to Delaware City. The capital of the company is $500,000. Trains commenced running over that portion of the road between Landenberg and Pomeroy on the 2d inst. Two trips are made daily, connecting with the Delaware Western Railroad at Landenberg, running thence to Wilmington. It is said that trains will run between Landenberg and Newark as soon as the road bed is put in better condition.

☞ A map of a projected surface railroad was filed in the Register's office, Brooklyn, N. Y., on the 5th inst. The proposed route is on the south side of the Concourse from West Brighton to Brighton Beach, Coney Island, a distance of one mile. The incorporators of the company are Theodore Magnus, President, and E. C. Brown, James Hardie, John F. Lambert, M. E. Fennegan, Gotlieb Jochum, W. C. Herbert, Jr., and Benjamin Lewis, Directors.

☞ The receipts of the Ohio and Mississippi Railroad for the month of December, 1879, (including $330,018 07 on hand at the commencement of the month) were $888,865 94; and the disbursements $480,006 76—leaving cash on hand December 31, 1879, $408,859 18.

Central Pacific Stock Sold Ex-Dividend.

Immediately after the recent sale, on the Stock Exchange, of 50,000 shares of Central Pacific Railroad stock, some of the buyers claimed that they were entitled to the declared dividend of 8 per cent which was payable February 1. The stock of the Central Pacific Railroad Company bears dividend coupon-warrants, numbered consecutively, on which the dividends are paid when declared. The ninth dividend was payable on the 2d inst., but the coupon had been cut from the stock when delivered by the syndicate.

The claim to this dividend was referred to the Arbitration Committee of the Stock Exchange, which held a protracted meeting all of the members of the committee, of which Salem T. Russell, of S. T. Russell & Co., is the chairman, being present. The syndicate was represented by its Executive Committee, consisting of R. P. Flower, J. D. Prince and J. D. Probst. C. P. Huntington, Vice-President of the Central Pacific Railroad Company, through whom the stock was sold to the syndicate, appeared as a witness before the committee, and Isidor Wormser, W. B. Lockwood and Louis Marx were also witnesses. It was shown in behalf of the syndicate that it had bought the stock ex-dividend, and that the buyers of more than 40,000 shares of the stock sold on the Exchange were aware that the stock was then offered by the syndicate without the dividend coupon.

After a long discussion, in which J. D. Prince, of Prince & Whitely, made the closing argument on the part of the syndicate, the committee decided that the stock was sold properly ex dividend. The opinion, which is final, was unanimous. This is said to be the first case of the kind in this country, although stock with dividend coupons is said to be not uncommon.

Columbus, Chicago and Indiana Central Railway.

A final decree was made at Washington on the 6th inst., by Judge Harlan, sitting as Circuit Judge, in the long pending litigation between the Pennsylvania Railroad Co. and Pittsburgh, Cincinnati and St. Louis Railway Co. on the one side as lessees, and the Columbus, Chicago and Indiana Central Railway Company as lessors, and the receivers of that company on the other. The result of the decree entered upon the bill filed by the lessee to have the lease declared void or terminated, or, if that was refused, to compel the lessor specifically to perform its covenants by reducing the debt of the company to $15,821,000, and upon the cross bill filed by the receivers to recover the rental under the lease, may be stated as follows:

1st. The lease was declared valid and subsisting.

2nd. The lessor company was found to have been in default in reducing its debt, and the lessee is declared to have been justified in seeking cancellation of the lease unless that covenant was performed.

3d. The lessor was given until the first of January, 1880, to reduce the debt, and the manner in which that reduction was to be accomplished was defined in detail, any decree for rental being refused until that reduction was accomplished.

4th. The report of the master, appointed by the Court, to supervise the performance of the decree by the lessors was made on the 5th inst., and after argument on some points raised by counsel on the former decrees, and upon that report the Court decreed that the acts done amount to performance of the decrees and to a reduction of the debt to $15,821,000, except the amount required for the Pullan decree, involving a large amount, for which security was required and has been deposited for one million of dollars by the Columbus, Chicago and Indiana Central Railway Company.

5th. Upon the finding a decree was entered for the arrearages of rental up to January 1, 1880, amounting to about $2,600,000, subject to deduction for net earnings for November and December to be paid in, which will reduce it to $2,400,000

6th. An appeal from the whole of the decree was immediately asked for by the Pennsylvania Railroad Company and allowed, and the counsel for the Receivers have also given notice of their intention to appeal from some portion of the decree.

Upon the question of amount of rental due considerable differences existed. The lessees asked to set off various claims amounting to about $1,000,000, and of these about $600,000 were allowed. The lessees think too little was credited and the lessors say there was too much. The appeals will raise these questions as well as the numerous legal questions involving the original validity of the lease, its termination by subsequent legal proceedings, the sufficiency of the mode of reducing the debt and others. The litigation was commenced in February, 1875. Five years have elapsed before a final decree has been reached. The appeals in the present state of the United States Supreme Court docket will hardly be heard in less than four years, so that the large amount of money involved in the decree for rental cannot be applied to the interest upon the bonds of the lessor company, and in the meantime it is presumed the road will be operated as heretofore, by the lessees continuing in possession and paying the net earnings into Court.

Memoranda Concerning Government Bonds.

Messrs. Fisk & Hatch have issued the seventh edition of their "Memoranda Concerning Government Bonds." It contains the latest information to date, and will be found invaluable to those intending to invest in Government securities. It can be obtained on application at their office, No. 5 Nassau street. We make the following extract from the publication:

The continued firmness of the 4 per cents in the market and the advance in the premium which has taken place since the large amounts subscribed by the Syndicate were finally closed out, clearly indicate that the remaining 5 and 6 per cent bonds of the Government outstanding can be readily funded at not over 3½ per cent, and it is our belief that no bonds bearing any higher rate of interest should hereafter be issued.

The rapid absorption of the 4 per cent bonds at a considerable premium during a period of several months in which money has been continuously in demand for business and speculative purposes at 7 per cent and over, shows that the accumulated investment capital of the country which must have absolute security and will not encounter the hazards of business or speculation at any price, is rapidly increasing in this country, and has already become sufficient to float the entire Government debt at a low rate of interest, whatever may be the activity of business or the demand for and value of money for business purposes.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of January, were:

The figures given above represent the net gold value of the goods as invoiced, without the addition of freight or duty.

☞ The Helena and Iron Mountain Railroad has been completed to Marianna, Arkansas, a distance of about 25 miles from Helena.

Responsibility of Pilots.

In the United States Circuit Court, this city, on the 6th inst. Judge Choate handed down a decision which is important as defining the responsibility of pilots. Gideon Mapes, a licensed pilot, undertook to bring the Austrian bark Jenny from the Sandy Hook lightship to a berth on the North River in February, 1879. On the arrival of the bark opposite Thirty-fourth st., a considerable quantity of ice was found in the slip, and the docking of the vessel would have been attended with considerable difficulty. The pilot made representations to the master of the bark which deterred him from attempting to go into the slip, and represented that it would be safe for the vessel to remain in the stream all night. Thereupon the tug boat was dismissed, and the captain signed the pilot's card which certified that he had performed his duty, and dismissed him. During the night the vessel received injuries from floating ice, and it was for these injuries the libel was brought. Judge Choate, in his decision, says:

"It is clear that pilots are responsible to the owners of a vessel for their negligence or default in the performance of their duty. * * * On the merits of the case the libellants are entitled to a decree. The very reason for having pilots at all is that they know the peculiar perils of the port, which are presumed to be unknown to masters of vessels, especially of foreign vessels. The pilot claims he left the vessel in a place of safety and was discharged by the master. But if that discharge was procured by an untrue statement, though with no wrongful intent on the part of the pilot, the discharge cannot avail him. The presence of the pilot would have afforded some protection, and it is not shown that if he had given notice of the danger the vessel could not have escaped the damage. It was incumbent on the pilot to show that she could not. This he has not done. Decree for libellant with costs and reference to compute damages."

Atchison, Topeka and Santa Fe Railroad.

The following dispatch announces the completion of the Atchison, Topeka and Santa Fe Railroad to Santa Fe, New Mexico:

SANTA FE, N. M., Feb. 9, 1880.

Hon. Thos. Nickerson, President A., T. and S. F. R. R. Co., Boston:

New Mexico sends greeting to New England, and Santa Fe to Boston. An enterprise long credited to you and your associates as the dream of speculators, is to-day an accomplished fact. Atchison, Topeka and Santa Fe are united by an unbroken band of iron and a continuous path of commerce. The last rail has been laid and at eleven o'clock this morning the last spike driven by Gov. Wallace in the presence of the Territorial Legislature and officers; the military and entire populace, salvos of artillery, music of bands, locomotive whistles and the cheers of thousands of spectators welcomed the joyous event.

You have to-day, what you have so well earned, the gratitude of this people.

(Signed.) GEO. T. ANTHONY.

☞ The receipts of the Indianapolis, Cincinnati and Lafayette Railroad for the month of December, (including $46,879 57 on hand at its commencement) were $482,443 11, and the disbursements $411,686 31—leaving a balance on hand December 31, 1879, of $70,656 80.

☞ A company calling itself the Coney Island Silent Safety Elevated Railroad Company proposes to build a road eight feet above the surface, on the south side of the Concourse, from Brighton Beach to West Brighton.

Shamokin Val'ey...	68,064	44 309	23,755
Central New Jersey.	283,799	205,083	78,696
United Railroads of New Jersey.....	81,961	53,479	28,482
Pennsylvania Coal..	43,279	75,054	*31,775
Delaware & Hudson	303,810	218,155	85,655
Huntingdon & Broad Top Mt.....	31,846	18,358	13,488
Pennsylvania & New York.....	186,665	152,286	34,379
Clearfield, Penn.....	198,548	110,962	87,586

*Decrease.

The total tonnage of anthracite coal from all the regions for the week ending January 31st, as reported by the several carrying companies, amounted to 436,662 tons, against 105,866 tons in the corresponding week last year, an increase of 330,796 tons. The total amount of anthracite mined for the year is 1,721,028 tons, against 1,155 909 tons for the same period last year, an increase of 565,119 tons. The quantity of bituminous coal sent to market for the week amounted to 87,995 tons, against 50,042 tons in corresponding week last year, an increase of 37,958 tons. The total amount of bituminous mined for the year is 355,014 tons against 197,947 tons for the corresponding period last year, an increase of 157,067 tons. The total tonnage of all kinds of coal for the week is 524,657 tons, against 155,908 tons in corresponding week last year, an increase of 368,749 tons, and the total tonnage for the coal year is 2,245 685 tons, against 1,311 817 tons to same date last year, an increase of 933 868 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of January was 136 885 tons, of which 108,254 tons were coal and 28,631 tons coke. The total tonnage for the year thus far has been 396,105 tons, of which 307,595 tons were coal and 88,510 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending January 31st were 34,999 tons, and for the year to that date 143,485 tons—81,950 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 30,131 tons, for the year 129,774 tons, an increase of 76,067 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 4,897 tons, and for the year 11,127 tons, an increase of 330 tons as compared with 1879. There were no shipments by the Chesapeake and Ohio Canal last week. The shipments by that route so far this year have been 2,584 tons.—[Phil. Ledger, Feb. 9.

Uniformity in Railroad Returns.

The New Hampshire Board of Railroad Commissioners are taking great pains to secure if possible a complete uniformity in the returns of all railroad corporations in that State. The present custom does not insure that regularity in the returns which is greatly to be desired, not only for the good of the Commonwealth, but for the purposes of comparison not only in but out of the State. In view of bringing this resul about the Commissioners have prepared a double column printed blank, two feet in length, which they will furnish to railroad officers with the request that they be filled out according to the questions laid down and returned to the Board. The first section of the blank requires a general financial exhibit; the second asks for a close analysis of earnings and expenses; and the third provides for a full showing of assets and liabilities. The closing section includes quite a number of interrogatories, among them being the following:

What proportion of through business is done by the cars of your own line? Is it an item of profit to your line to hire cars to do your business? Have any accidents ever occurred on your line in consequence of color blindness of the employes? Do you have a physical inspection of the men in your employ before they commence work? How many and what accidents have occurred on your line since last report, and have you ever had an accident on your road caused directly or indirectly from overwork or physical exhaustion of the employes?

The Commissioners are sanguine that the new system which they will introduce will be productive of excellent results. Granville P. Conn, M. D., of Concord, Chairman of the Board, says that the best report in the United States is issued by the Lake Shore and Michigan Southern Railway Company.

Detroit, Lansing and Northern Railway.

It is announced that the directors of the Detroit, Lansing and Northern Railway have declared dividends of 3½ per cent upon its preferred stock from the earnings of the six months ending December 31. 1879, and of 3½ per cent upon the common stock from the earnings of the year ending December 31, 1879. Both dividends are payable at the Boston office on and after February 10 to stockholders of record at the close of business February 3, 1880. This makes dividends of 7 per cent on preferred and 3½ per cent on common stock for the year. The earnings for 1879 were $1,108 932 65; for 1878, $970,033 90—increase for the year, $138,998 75. This is an excellent showing for the road, and is largely due to the economical and judicious efforts of those who control its management. The road is a very important one to Detroit and the whole State, and its prosperity will please everyone interested in the section of the country through which it passes.—[Detroit Price Current.

OFFICE OF THE HOMESTAKE MINING COMPANY, No. 31 BROAD-ST., NEW YORK, Feb. 12, 1880.

DIVIDEND NO. 14.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for January, payable at the office of Wells, Fargo & Co. No. 65 Broadway, on the 25th inst. Transfer-books close on the 20th inst.

H. B. PARSONS, Assistant Secretary.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, Jan. 22, 1880.

A DIVIDEND OF THREE (3) PER CENT. has been declared by this company, payable on the 1st day of March next to the holders of its capital stock as registered at 2 p. m. on the 12th of February next, after which, and until the 4th of March, the transfer books will be closed.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, February 20, 1880.

The Darien Canal and the Monroe Doctrine.

The Senate has passed a resolution, similar to the one passed by the House of Representatives, requesting the President to transmit to the Senate copies of all correspondence since February, 1869, with foreign governments relative to an inter-oceanic canal, and copies of all treaties made or proposed by the State Department, if not incompatible with the public interests. This action is in answer to the growing demand that the Monroe doctrine shall be asserted by the United States before the canal scheme shall be allowed to progress further and assume definite shape under the quasi protection of a foreign government. The possibility that the ownership of the Panama Railroad has already passed into foreign hands, with the right of its owners to the protection of their Government, has possibly aroused public sentiment to the contingency of the canal when built passing in the same manner by ownership under the protection and influence of a foreign Government. In the event of complications hereafter between the United States and such Government, the ocean commerce of the United States between its own States on the Atlantic and Pacific Coasts, would be at the mercy of this foreign Government, and in case of open hostilities it would be driven from the seas. The South and Central American States would then be brought under European influence, if not control; and it might finally be the means of establishing a European protectorate over them, or a repetition of the Maximillian scheme which might not end in a manner so fortunate for the United States.

This is what we foresaw in the early discussion of this canal scheme, and the RAILROAD JOURNAL was the first to say, in its issue of November 21st, that "the United States Government should assume this great and needful undertaking." Also in our issue of December 12th, we said, "It would be most desirable that American capital and citizens should build this great work. * * It would, however, be a criminal blunder to commit the Government to any but the best route. * * The next most important consideration before the selection of the route shall be made, is the future status of the canal after its completion upon which the protection of its franchises and property must depend." In the same issue and article we showed that M. de Lesseps would probably do what he is now supposed to have done in the purchase of the Panama Railroad, the refusal price of which we then gave as well as the total cost to enable him to control it and its franchises which was $4,200,000 at the price of 120. That he should thus have stolen the march of us for so comparatively small a sum is not to our credit; and is an evidence of his sagacity; for we do not see how the United States can now prevent the French Government from assuming the same rights of protector and exercising the same influence we have if, as supposed, M. de Lesseps owns the Panama road, whose franchises as well as the concessions of Wyse cover the only Sea Level route said to be practicable by engineers. The survey adopted by M. de Lesseps is described in another column.

The Inter-State Commerce Bill Reported.

In our last issue, we commented on the purposes for which the Inter-State Commerce bill was proposed, and promised a review of the arguments upon the merits of the bill then under consideration, as well as a discussion of its merits. That was the Reagan bill which has been finally rejected by the committee, and Mr. Henderson's bill adopted in committee as a compromise which will be reported. Mr. Reagan will also submit to Congress in a minority report his original bill. The Henderson bill is given below, but as we have not had time to compare it thoroughly with the Reagan bill and to consider fully whether it will meet the purposes for which it was demanded, as explained in our last, we shall defer comment upon its merits in this issue.

The bill provides for the appointment of a "Board of Commissioners of Inter-State Commerce" as a bureau of the Interior Department. Commissioners are to hold office respectively for two, four and six years and are to receive salaries of $5,000 each and traveling expenses, and are to be provided with a secretary and an accountant at salaries of $2,500.

The board is to exercise supervision over that portion of the business of all railroads which may pass from one State or Territory into another or into any foreign country, but this supervision is limited to questions of commerce between the States, and the methods of operating railroads by railroad corporations as affecting that commerce, and does not, except within the limits of Territories or in the case of the crossing of navigable waters, extend to

any other portion of the business of those railroad companies, whether carried on by one railroad or by several running in connection with each other. The said board is to prescribe a railroad year and a system of reports to be rendered by such railroad companies, to examine their accounts affecting commerce between the States, to see that the United States laws are enforced, to furnish such information to the Government in regard to fares and freight tariffs as may be required or as they may deem expedient, to report annually to the Secretary of the Interior on November 1, and otherwise to procure the data necessary to the gradual enactment of an intelligent system of national legislation regulating inter-State railroad commerce.

The board is to investigate complaints of discriminations in charges, and if such complaints are approved by an incorporated board of trade or any State or city government, the investigation, if so desired, is to be made on the spot where its cause originated or wherever else is most convenient, and the results are to be reported in writing and included in the next annual report. Whenever it shall appear to the board that any railroad corporation has failed to perform its duties as a common carrier between the States it is to give notice in writing to the corporation with a statement of such changes as are adjudged to be proper, and if the corporation neglects to comply with the recommendations the board is to state the facts in the next annual report, with a statement of such legislation as the board recommends. Whenever it shall appear that any railroad corporation has violated any law of the United States it is to give notice thereof to the corporation; and if the violation is continued it is to present the facts to the Attorney General of the United States, who shall take such proceedings as may be necessary. The board in any investigation is to have power to summon witnesses and direct the production of books and papers relating to any subject matter of complaint for the alleged violation of this act, and in case any person shall fail to produce such papers, in so far as they relate to the question referred to by this act, he may be compelled by any United States Commissioners, as in civil cases in the United States courts, and such investigations are to be conducted in the general office of the corporation owning the papers.

No railroad company is to charge more than a fair and reasonable rate of toll for the transportation from one State or Territory to another, or to or from any foreign country, so far as the same shall relate to commerce between the States, or for the use and transportation of any railroad car, and for each violation of this provision the company is to be liable for extortion. No railroad corporation engaged in the transportation of property between the States by railroad, steamboat or canal boat, is allowed to charge to any person any greater of less rate than is charged to any other person for the same facilities under similar circumstances, and all railroad corporations are to furnish, as nearly as may reasonably be within their power, the same facilities to all persons for the carriage, storage and handling of all property of like character, and as near as reasonably may be with equal expedition. No break of bulk or interruption nor any understanding is to be made to prevent the carriage of any property from being treated as one continuous carriage in the meaning of this act, unless such interruption or contract was made in good faith for some necessary purpose. No person engaged in the transportation of property between the States is, directly or indirectly, to allow any rebate, drawback or other advantage which, under like conditions, is not allowed to all persons, and the penalties provided are to apply to the receiver of such advantage as well as to the party paying it.

This board is to inquire into that method of railroad management known as "pooling," and state the result in its first annual report, and what legislation is expedient in relation thereto. No persons engaged in the carriage, storage or handling of property are to enter into any combination to prevent by changes of schedule, carriage in different cars, breaking different car loads into less than car loads, or by other means, the carriage of such property from being continuous, whether it be on one or on several railroads. The act is to apply to the carriage and handling of property in one, actually or substantially, continuous interstate line, whether it be partly on several railroads or wholly or partly on lakes or canals.

Any corporation or person violating this act is to forfeit to the persons who may sustain damage thereby three times the amount of the damages, to be recovered in any United States court where the person or corporation can be found or may have an agent, and is to pay a penalty of not less than $1,000, to be recovered on information of the Commissioners or otherwise, one-half of which is to be paid to the party damaged and bringing action, but the action must be brought within one year after its cause. Nothing in the act is to apply to the carriage of property less than a car load, or wholly within one State, or property carried for the United States, or to the transportation of articles free or at reduced rates for State or municipal governments, or for charitable, educational or scientific purpose, or to or from public fairs. The last section appropriates $25,000 for carrying the bill into effect from the date of its enactment to June 30, 1881.

The action of the committee in agreeing upon this bill was with the view of compromising the controversy that has been going on in the Committee on Commerce for the greater part of the session. Mr. Reagan, however, obtained leave to report his bill to the House, as well as that of Mr. McLane, and all three will be printed and considered together. Neither Mr. Reagan nor Mr. McLane is satisfied with the Henderson compromise, and both will oppose it in the House and urge the adoption of their respective bills.

The de Lesseps Canal.

The World of 15th inst. published a special dispatch from Panama announcing that the commission of engineers appointed by M. de Lesseps to reexamine the route for an interoceanic canal proposed by Lieutenant Bonaparte-Wyse and M. E. Reclus had concluded its survey, and unanimously reported that the work is entirely practicable. Having now his report ready, M. de Lesseps was to leave the Isthmus on the 16th inst. for this city, where he will probably arrive on the 25th. The following description of the canal route he proposes to open is from The World of Monday:

M. de Lesseps's route is more or less that of the Panama Railroad. The proposed canal starts from Limon Bay at a depth of about 25 feet and a little north from the island of Manzanillo, by which it will be protected from the violent northeastern winds prevailing there principally during the dry season. A great dock and pier about 2,000 metres in length are to be built and will add to the safety of the port. On the Pacific side the canal debouches far in the bay of Panama at a proper depth. The total length of the canal will be 73.20 metres, or 45.5 miles, including the two extreme ends under the sea. The depth of water is fixed at 8.50 metres (27.88 feet). In hard rocks the width at the surface of water will be 22 metres and on the soft earth 56 metres. The slopes will be 1 to 2 to 1 vertical for soft rock, 2 to 1 vertical for earth and 0 on hard rock. While traversing hard rock the vertical sides of the canal will rise 2 metres above the water level. The minimum radius of the curves is fixed at 3,000 metres. The canal will admit only of the navigation of one vessel, not being wide enough for two alongside of each other. But at short distances it will have openings in which a vessel will wait for the passage of another.

The country through which the first few miles of the canal will cross, on the Atlantic side, is very low. Its formation is of debris of corals and shells. The canal, avoiding the small hills of Mindi and the railroad line, takes up the old bed of the Chagres, which it follows up to the Sierra de Mindi, and hence to the valley of the Gatun. Before it reaches the Loma del Tigre, on the seventh kilometre, the canal crosses the River Chagres twice and the deadly swamps of the River Trinidad, known as Miller's Swamps. Towards the twentieth kilometre the axis of the canal is pushed northwards in order that it may more easily cross the curve of Bubio Soldado through the lowest possible hills. Up to this place the ground is constituted of trachytic conglomerates. At Bubio Soldado the height above the sea level is thirty metres, but immediately after the region is again low. From Bubio Soldado the canal takes up the River Chagres itself and enters the valley of the Frijole and of Tabernilla. It then uses the River Chagres for nearly a quarter of a mile, and after leaving the Chagres it cuts the railroad line at Serro Taylor (about 120 feet high above the average sea level), and then returns to the valley of the Chagres, with whose bed it again confounds itself, and so continues more or less up to Matachin.

At Matachin, 43 kilometres from the Atlantic terminus of the canal, the height above the average level of the sea is but 14 metres. There the region rises quite sharply to a height of 87 metres at Culebra. As this dividing ridge is but seven miles from Matachin it will be seen that the region there rises from 71 feet up to 286. From Culebra to Rio Pedro Miguel, on the Pacific slope, the distance at the basis of the triangle there formed by the Andes is but 4 miles, and yet the descent is from 286 feet to 33 feet, a grade of 253 feet in rather less than 4 miles. From Pedro Miguel down to the Pacific the region again is quite low, very seldom rising more than 20 feet above the sea level.

As M. de Lesseps is bound to have a sea level canal it will be seen that either a tunnel or a great cut will have to be made through the mountain. His idea now is to make a deep cut. The rock in the mountain is doleritic, but it is said by late experiments not to be too hard.

One of the greatest difficulties in the construction of this canal will be the handling of the River Chagres, which, by its sudden rising, sometimes reaching forty-three feet in twenty-four hours, would certainly injure the canal if not held back or diverted in some way. M. de Lesseps's engineers propose to retain the River Cruces, near Matachin, by building a great dam between Cerro Pelado and Cerro de Matachin, two conic hills, and then let the water of the vast artificial lake thus formed above be thrown out slowly by means of sluices. At the same time a new channel is

to be constructed out of the present river north of the canal line, and it is believed that this channel and the dam will afford ample means of egress to the freshets in the upper Chagres.

Infringement upon Letters Patent for Improvements in Street Cars.

At a Stated Term of the Circuit Court of the United States of America, for the Southern District of New York, in the Second Circuit, held at the United States Court Rooms, in the City of New York, on Monday, the 26th day of January, in the year of our Lord one thousand eight hundred and eighty.

Present—The Honorable Hoyt H. Wheeler, Judge.

John Stephenson vs. The Second Avenue Railroad Co. } In Equity.

This cause having heretofore been brought to a hearing on the pleadings and proofs therein, and having been argued by George Gifford for complainant and by Horace M. Ruggles for defendant, and due deliberation had thereon,—

It is, on motion of George Gifford for said complainant ordered, adjudged and decreed as follows:

That the Letters Patent for improvements in Street Cars granted to the complainant, dated respectively June 14, 1864, December 13, 1864, March 16, 1869, May 14, 1872, and October 11, 1875, and numbered respectively 1959, 45442, 87800, 126757 and 6697 are and that each of them is good and valid.

That the said complainant was the first and original inventor and discoverer of the improvements in street cars as described and claimed in the said letters patent respectively, and that the said complainant is the exclusive owner of said letters patent.

That the defendant herein, the Second Avenue Railroad Company, has infringed upon the said letters patent and each of them and upon the exclusive rights of the complainant under the same.

And it is further ordered, adjudged and decreed, That the complainant does recover of the defendant the profits, gains and advantages which the said defendant has received or made or which have arisen or accrued to it from the said infringement since the said dates of said letters patent respectively, and also that the complainant recover from the defendant the damages sustained by him by reason of said infringement.

And it is further ordered, adjudged and decreed, That the said complainant do recover of the defendant his costs and charges and disbursements in this suit to be taxed.

And it is further ordered, adjudged and decreed, That it be referred to Kenneth G. White, Esq., one of the Masters of this Court, residing in the City of New York, to ascertain, and take, and state, and report to the Court an account of the said profits, gains and advantages, and also the amount of damages sustained by said complainant from said infringement.

And it is further ordered, adjudged and decreed, That the complainant, on such accounting, have the right to cause an examination of the officers of said defendant, *ore tenus,* or otherwise; and, also, the production of the books, vouchers and documents of said defendant, and that the said officers attend for such purpose before said Master from time to time as said Master shall direct.

And it is also further ordered, adjudged and decreed, That a perpetual injunction be issued in this suit against the said defendant restraining it, its officers, agents, clerks, servants, and all claiming or holding under or through it from making, or selling, or using, or in any manner disposing of any of the inventions or improvements claimed in the said letters patent numbers 45442, 87800, 126757 and 6697, and from making, selling or using, or in any manner disposing of any street car containing any of the inventions or improvements claimed in said last mentioned letters patent pursuant to the prayer of the bill of complaint.

HOYT A. WHEELER.

Illinois Central Railroad Improvements.

In a recent issue we noted the improvements being made by the above company on its New Orleans division. It is apparently carrying out a similar policy along its entire line, except at its depot in Chicago where it is refused the necessary room by the city by which it is hemmed in on one side and Lake Michigan on the other. Its facilities for suburban travel could be imitated by our New York companies to their own profit, and public advantage.

The Railway Age says the Illinois Central Railroad is making extensive improvements which will give it facilities for suburban travel probably unequalled by any other surface road in the country, and in respect to economy of construction, convenience of reaching and leaving trains, and attractiveness of route, it will be superior to the enormously expensive elevated railways of New York. Its rates of fare are quite low. Ten ride "punch" tickets, good for any number of persons, are sold at the rate of six cents per trip for the first four miles, seven cents as far as the city limits, 5 miles, and so on to 13 cents to Parkside, 8.74 miles out, where most of the regular suburban travel ends, though these trains also run some miles further.

To still better accommodate the increasing business, and to enable trains to be run as often as may be desired without interruption by the through traffic which now crowds the double tracks, the company has been engaged for some months in widening its road bed and laying down two additional tracks as far as Parkside station. This work is being done in the most substantial manner. The total cost of these improvements will not fall much short of $200,000.

The company is now building six cars similar to those used on the New York elevated roads, in order to facilitate ingress and egress. These cars will seat 40 persons—only two less than the ordinary coach—weigh only fourteen tons when empty, and when loaded weigh no more than those now in use weigh when vacant. As an experiment an engine of the "double-ender" type, is being built at the Rogers Locomotive Works. It will have two pairs of 48 in. drivers, weight 31 tons empty. As this engine will not have to be turned, considerable time will be saved. At present all engines after arriving at the Lake street depot have to run back to the turntable at Sixteenth street, a mile and a half.

Canadian Pacific Railway.

The second session of the fourth Parliament of the Dominion of Canada opened on the 12th inst. with the usual ceremonies. His Excellency the Governor-General delivered the speech from the throne, in which he said:

Every effort has been made by the authorities to hasten the construction of the Canadian Pacific Railway from Lake Superior to the Red River, and no doubt is entertained that the railway will be opened for traffic between those important points within the time specified in the contracts. Under authority given by Parliament last session, nearly 100 miles from the river to the western boundary of Manitoba has been placed under contract, and tenders are about being asked for the construction of another hundred miles from the boundary westward. The completion of these two sections will at an early day afford railway facilities through 200 miles of the most fertile land in the Northwest. After an exploratory survey of the line from Port Simpson to Pine River Pass and through the Peace River country, it has been decided to adopt the location of the line to Burrard Inlet, and contracts have been awarded for 127 miles of railway between Emory's Bar, on Fraser River, and Savonas Ferry. This work will be vigorously proceeded with as spring opens. Its construction will complete the most difficult portion of the Canadian Pacific Railway and secure the connection by steam of the fertile district of Kamloops with the capital of British Columbia.

Bergen County Branch.

The Bergen County Branch Railroad, long contemplated by the New York, Lake Erie and Western Railroad Company, is to be constructed this year, the work to be begun early in the Spring. The route which was surveyed several years ago, is from the main line just above Rutherford Park, through Bergen County to a point a short distance below the Ridgewood depot. The branch would form a loop about 10 or 12 miles long, The object is to get an easy grade, and to avoid the annoyance and inconvenience incident to running all the heavy freight trains through the City of Paterson. The fastest express trains and the through freight trains both ways would be run over this branch, thus affording a needed relief to the main line, which since the narrow-ganging has been almost continually gluted with freight. This improvement is also part of the scheme to have four tracks on the road to a point west of Paterson. There are now four tracks from the tunnel to the Hackensack River, and they are to be extended to Rutherford Park as soon as convenient, and will ultimately connect with the branch above described. This would add immensely to the capacity of the road east of Paterson, and would enable the company to run faster passenger trains between Paterson and New York.

☞ The number of freight cars destroyed during the riots, as furnished to the Allegheny County Commissioners by the Pennsylvania Railroad Company, is as follows: box cars, 919; gondola, 367; stock, 33; flat, 5; coke, 76; dump, 9; unknown, 158—total, 1,599.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

(CORRECTED TO [illegible]) The column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

Dom Pedro II. Railroad.

The Dom Pedro II, Railroad is the largest and, with perhaps one exception, the most important in Brazil. The total length of the main line is 365 miles, and extensions are made almost every year. The road was commenced under the management of an incorporated company, interest of 7 per cent on the capital stock being guaranteed by the Government. But in building the first portion of the road it was necessary to cross the mountains near Rio, and by the time 100 miles were completed the capital was entirely exhausted. In 1865 the Government bought the road of the stockholders, and it has since been built and run as a branch of the imperial service. On the invested capital of rather more than $40,000,000 the Government realizes an average income of 5⅛ per cent yearly.

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,586,094 04; balance of interest paid by United States, $32,065,061 90.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The Coney Island Railroad Company filed a supplementary map in the Register's office, Brooklyn, on the 12th inst., altering the proposed route of the road. It will run north of the route originally proposed.

☞ The earnings of the Chesapeake and Ohio Railroad for the month of January, 1880, were $202,335 09; January, 1879, $38,667 21 — increase, $113,667 88.

☞ It is officially announced that the first regular freight train through to Chattanooga on the Cincinnati Southern Railroad will start on the 22d inst.

☞ The Chicago, Burlington and Quincy Railroad has declared out of the earnings of the current three months a dividend of $2 per share, payable March 15.

☞ The receipts of the Pennsylvania Canal Co. for the year 1879, were $282,767 49 the expenses, $174,843 31, and the net earnings, $107,924 18.

☞ The Standard Oil Company is building a pipe line from the oil regions to Cleveland, Ohio, with a capacity of 10,000 barrels a day.

Philadelphia Stock Exchange.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, February 19, 1880.

Our last review closed with the purchase by the Government of $11,000,000 of the 1890-'81 bonds and an easy money market, followed by an active demand for stocks and bonds of almost all classes, both for investment and speculation, at advancing prices, in order to reinvest the money thus let loose and to secure the advance expected to follow such an increase in the available supply of money in the Street, upon which a renewal of the long promised "boom" was anticipated, and afterwards realized, as will be seen below. On Friday came news from Washington confirming the prospects of a 3½ per cent Government refunding loan, which gave additional impetus to the upward movement in anticipation of a similar effect to that produced last fall on the stock market by the refunding of the national debt. The bonds proposed are a 20-40 year 3½ per cent, equal to the 5s and 6s maturing before 1881, except $200,000,000 which amount is likely to be bought for the Sinking Fund under the arrangement of the Treasury for the weekly purchase of bonds to an amount equal to the overplus from receipts of customs, which amount is now fixed at $1,000,000 per week, the first of which were bought on Wednesday at 103.95@103.97½ for 1880s, and 103.56@103.75 for 6s of 1881, and 103.50@103.67 for 5s of 1881. A 3 per cent loan is also now being seriously talked of in Committee at Washington. Upon these movements in Government bonds the price of the 4s advanced sharply, accompanied by large purchases, to 107¼, and District of Col bias to 97¼, while money has

ruled easy from the same cause at 5@6 early in each day to close generally 3@4 per cent on call loans. Sterling Exchange opened stronger by ½c. on a continued scarcity of commercial bills and afterwards advanced ½c. more on a better demand, but the supply increased slightly at the close and about half the advance was lost at $4 83½@$4 83¾ for 60 day bills and $4 85¾@$4 86¼ for demand. In State bonds there was little doing and no new feature to affect the market. On Saturday the feature was a better bank statement which showed an increase of $1,319,000 in the legal reserve, making it $4,650,000, after which the stock speculation grew stronger and more active, commencing with Erie, Lake Shore, Iron Mountain, Missouri, Kansas and Texas, Wabash, St. Louis and Pacific, Louisville and Nashville and the coal shares, the latter being affected strongly enough by a partial suspension of mining, which, however, is expected to be made good by the advance in coal, in consequence of which the price has been worked up. Iron Mountain advanced on rumored new connections with Gould's system. Houston and Texas Central on reported purchases in the interest of Gould, Scott and the Texas Pacific. Pacific Mail also advanced on improved business and the improved prospects of the Lesseps canal scheme. Erie was affected by the agreement alluded to in our last with the Lake Shore and since that by a reported advance agreed upon in petroleum freights from 35 cents to $1 per barrel, in which Jersey Central is interested and hence advanced. Lake Shore and Western Union have led the Vanderbilt stocks, the latter on a favorable decision of a suit on one of their patents in general use by telegraph companies, by which the Western Union gets exclusive use, although the case will no doubt be appealed. Ohio and Mississippi also rose sharply on a reported desire of Gould to get control, as well as better business and reports of a compromise with the Springfield Division bondholders, which, however, was denied. London orders are also said to be in the market. Erie consols have also sold freely and in large blocks, $1,000,000 of the firsts having been taken by an insurance company at about 119 and now held at 122. Lehigh and Wilkesbarre Coal Co. consolidated bonds are to pay a coupon on March 1st, and hence have advanced also. Chesapeake and Ohio issues have also been active on greatly improved traffic and condition of the road. The New York, Ontario and Western securities have also been active in view of the near expiration of the time in which holders of old Oswego Midlands can come into the reorganization scheme. Iron Mountain Incomes have again advanced. The Chicago, Burlington and Quincy road pays a quarterly dividend of $2 per share on March 15. New Albany and Chicago stock suddenly jumped from 85 to par on Wednesday, in sympathy with the Louisville and Nashville speculation which bobs around 5 to 10 points in a day on the will of the clique who manipulate it without actual transactions of any volume, it is said. The City of Louisville is contemplating a sale of its stock in this road at these prices.

There has been very little change in the wheat deal the past week although the outlook for exports is better at the close. Provisions have dragged along at about former prices after recovering the break in part of last week. There has been only one export outlet worth note and that is for refined lard for the Continent, of which the Wilcox Co. have sold over 25,000 tierces in the last 20 days. Cotton has been rather depressed and dull as there is not much actual trade doing. Iron has been quite active, but there are signs of speculation having been carried too far. Copper and tin are in much the same overdone speculative situation. We are informed on good authority that some 12,000,000 lbs. of American copper have lately been reimported from Europe, much of which was in the original packages and hence has not appeared in imports as it paid no duty. Hence stocks are this much more here than would appear from our exports in which these 12,000,000 lbs. appear. Tin is also held by the large operators who bought the enormous stock of the old Cornwall manufacturers who failed last year from heavy overproduction. Hence the talk of light stocks is not credited, and a reaction in these two articles is looked for more especially as there was no such short supply as in the case of iron when the boom began last summer and fall. Our imports of merchandise continue large, except of specie which are nominal. Exports still are below last year same time by about $1,000,000 per week or only a little over $6,000,000 owing to the speculation in export products.

The mining stock exchange has shown little animation and the stocks dealt in on the stock exchange as a rule have been depressed and dull, as the "boom" steadily refuses to help mining shares, although nearly everybody is interested in mines. The trouble no doubt is that the managements of the mining companies are away from here and less responsible to stockholders, who take a few shares as a flyer and never trouble themselves to look after their property. In this connection we are informed by the moving parties that an effort to get a transfer office for Consolidated Virginia and California in this city, is to be made as the dividends on a majority of the stock of the former are paid in New York and Boston and two fifths of the latter, while the San Francisco management do not own one fifth of the stock of either, but do own the mills and assay offices through which the ore is run. Eventually a new company organized in the East is contemplated under an Eastern management. Meantime proxies of Eastern holders are to be used hereafter to elect Eastern representatives in these boards of direction in which the majority now have no voice.

L., 117½ ; St. Louis City 6s, 1881, 101 ; Cook Co. Ills., 7s, 1880, 100 ; Atlas Mining Co., 1½ ; Allouez, 23¼ ; Atlantic, 27 ; Brunswick Antimony, 14 ; Blue Hill, 7¾ ; Copper Falls, 131½ ; Catalpa, 3½ ; Central, 47 ; Copper Harbor, 1 ; Dana, 1 ; Duncan Silver, 4¼ ; Douglass, 5½ ; Franklin, 48 ; Gt. Western, 1⅜ ; Huron, 13½ ; Hungarian, 87½c. ; Humboldt, 1½ ; Hanover, 87½c. ; International, 55c. ; Mesnard, 4½ ; Manhattan, 1 ; Madison, 8½ ; Minnesota, 7 ; National, 6⅜ ; Osceola, 47 ; Pontiac, 1⅜ ; Pewabic, 65 ; Phœnix, 14½ ; Ridge, 9¼ ; Rockland, 1¼ ; Sullivan, 14¼ ; Star, 8¾ ; Superior, 58c. ; South Hite, 2⅜ ; Silver Islet, 21½ ; Union Land and Copper, 5⅞ ; Winthrop, 1¼ ; Washington, 1⅛ ; West Minnesota, 1.

☞ Meetings were held in Philadelphia on the 16th inst. of the stockholders of the Buffalo, Chautauqua Lake and Pittsburg and the Pittsburg, Titusville and Buffalo Railroad Companies for the purpose of taking action upon the articles of consolidation of those corporations. The terms of the contract were read at both meetings, and adopted. The officers of the Pittsburg, Titusville and Buffalo Company will act for the consolidated company until the next election. The statement is made by stockholders of both companies that the proposition has been made to lease the consolidated roads to the Lake Shore and Michigan Southern Railway Co.

☞ The Little Chief Mining Co. has declared its first monthly dividend of one per cent on $10,000,000 capital stock, amounting to $100,000, or 50 cents per share, payable at the Central Trust Co. on the 25th inst. This is the second company brought out under the same auspices as the Chrysolite, which has paid large dividend 30 days after commencing work on the mine.

☞ The Climax Mining Company, of Leadville, Col., has declared its 3d dividend, $20,000, or ten cents per share of $10, payable Feb. 28 at the National Bank of the State of New York ; transfers close on the 16th, and reopen on the 24th.

☞ The Green Mountain Mining Company has declared its regular dividend for the month of January of 5 cents per share, payable February 25. Transfers to close February 18, and to reopen on the 27th.

Why the Tay Bridge Fell.

At the general meeting of the twenty-third session of the Institution of Engineers and Shipbuilders in Scotland last night Mr. St. John V. Day, C. E., F. R. S. E., read a paper on "The proposed bridges for carrying the North British Railway across the Firth of Forth, with some remarks on the structure and cause of the fall of the Tay Bridge." On the latter subject he rejected the theory that the fall of the bridge was due to the pressure of the train upon it when the gale had reached a point of high intensity. Nor could he give any credit to Sir T. Bouch's theory that the over-balanced train tore down the eastern girders. It seemed to him that the cause was in the pillars. The structure of these columns was singularly at fault. They had to carry the permanent "dead load" of the bridge and its transient "live load." In the case of the higher piers each of the sets of legs or struts forming the boundaries of the elongated hexagon was straight throughout its entire length, the outer leg or strut having a batter of 1 to 41, or two feet in the eighty-two feet columns. Then these legs or struts carried at their top a triangular box girder, and the main girder rested midway between them. It would therefore be seen that the single outer column of the three at each side of the hexagon had the same load to carry as the two inner legs carried together. One half therefore of the "dead" and "live" loads of that part of the bridge was carried by the two outer endward columns of the hexagonal towers, while the other half had double the number of columns—these, furthermore, being vertical—to carry it.

A more erroneous disposition of the load it would be difficult to produce, for the two outer raking columns had twice the work of carrying the girder to do of each of the four inner ones. It was true that the outer columns were eighteen inches in diameter as compared to the inner ones, which were sixteen inches, but not being perpendicular were in a less favorable position to resist the downward stress of the load. Had the load been placed on the four intermediate columns, and the two outer ones been used for shoring-up the structure against lateral wind pressure, the bridge would have had a much higher moment of stability; but the original design having been departed from it became impossible, with the floorage over which the braced columns were ultimately erected, to provide a proper distribution of the load, for in constructing them no other form than a hexagon could produce sufficient width of pier-head for carrying the highest girders when founded on the ashlar caps of the dimensions with which the submerged portions of the piers were finished.

It is not to be forgotten, either, that the triangular box-girders on which the main girders rested were not tied together, and that if they had been connected with other cross girders so as to form a continuous box-girder hexagonal top to the columns, the stability of the bridge would have been enhanced. He noticed in examining the columns that provision had been made for the introduction of three ties of deep iron girders at about equal intervals in the height of the columns, which would have added to the stability of the structure. These girders were shown in situ in a model in the Dundee Museum, and they might well ask why they were omitted in the actual structure. With regard to those piers which carried the girders on either side of the highest portion, there also was a glaring oversight in the use of materials to the best purpose. The six columns or struts were all vertical, excepting the upper ten-feet lengths of the two outer columns, which were inclined inwards until their heads came in line with the heads of the two other columns, and a straight box girder rested upon the whole. It would be evident that nothing could be worse than this arrangement of these outer struts to resist the pressure of the wind, that being further aggravated by the absence of any direct cross-ties at the angle, the weakest portion of these columns. The bracing of the columns was defective, and the holes in the flanges of the columns were much too large for the bolts.

Another source of weakness was the insufficient length of the holding-down bolts by which the iron columns were attached to the pier heads, as they only extended through the first two courses of ashlar. They were told that these cast iron tubular legs were filled with concrete, and it was next to impossible that such a cast-iron tube with a hard concrete core would resist the stress of contraction to which it would be exposed. It appeared to him, from an examination of the concrete placed in some of these tubes, that there could hardly be a doubt but that a number of these tubes were burst. If so, then during the last twelve months the iron superstructure of the bridge must have been in a rickety condition, ready to break off and topple over as soon as a gale occurred. The filling of such columns with concrete for the avowed purpose of protecting them from rust without the use of paint had been a fatal mistake. Then care did not seem to have been taken to insure uniformity in the thickness of the metal of which the legs of the piers were formed, while it was clear that they had been cast on their sides in place of on their ends under the pressure of a high column of fluid metal to insure their solidity, so that it was not even probable, therefore, that all the columns were sound.

He was inclined to the opinion that it was the northern end of the bridge which first gave way. They must not forget that these 245-feet girders were jointed together in sets of fours, that at the middle joint they were bolted down to a pier head, and that the northern end simply rested without an attachment on a box girder at the end of the northern section of the structure. With a strong wind blowing he had observed the floor of suspension bridges lifted, and in view of that with a gale acting on the western side of the girders, as well as beneath them, with a leverage from the fixed middle joint of 490 feet, it was reasonable to suppose that the lifting effect thereof on the underside of the floor of the girder would so reduce the insulent weight thereof on its resting points that the friction by which it resisted lateral movement was thereby much reduced, and facility afforded for turning it off the north end resting surface.—[Edinburg Scotsman, Jan. 28.

☞ The Walnut Street Bridge Company, 122 Walnut Street, Philadelphia, Penn., will receive separate tenders up to the 25th inst. at noon for the superstructure and the substructure of a stone and iron bridge over the Schuylkill River, from Twenty-third to Thirty-second streets. Plans and specifications can be seen, from 12 to 2 o'clock, at the company's office. The company do not bind themselves to accept any tender unless satisfactory. Security for the due performance of the contract will be required.

☞ C. N. Jordan, President of the New York, Ontario and Western Railroad Company, announces that there will be no extension of the time from February 21 allowed to holders of junior securities in the old company to exchange into new stock by paying $20 per share in cash, notwithstanding reports to the contrary.

☞ All negotiations between the Boston and Albany and Boston and Providence Railroad Companies, having in view the consolidation of the two roads, have been discontinued.

☞ The Pembina beanch of the Canada Pacific Railroad was taken possession of by Superintendent Lynkey, on behalf of the Dominion Government, on the 12th inst.

☞ The construction of the easterly extension of the Minneapolis and St. Louis Railway from White Bear, Minn., to Taylor's Falls, a distance of 30 miles, is to be proceeded with at once. This is a portion of the Sault Ste. Marie route.

Commerce of New York.

The foreign imports at New York for the month of January, 1880, are officially stated as follows:

	1879.	1880.
Entered for consump'n.	$11,325,813	$20,094,865
Do. for warehousing....	4,868,171	7,288,876
Free goods	8,488,055	12,643,875
Specie and bullion....	975,507	875,038
Total entered at port..	$25,657,546	$40,897,154
Withdrawn fr.wareh'use	5,211,807	7,087,326

The foreign imports at New York for seven months ending January 31, were:

	1879.	1880.
Entered for consump'n	$81,105,493	$111,345,914
Do. for warehousing..	35,621,232	42,581,638
Free goods.....	50,634 320	73,579,994
Specie and bullion	7,080,775	79,618,209
Total entered at port..	$174,441,820	$307,125,755
Withdrawn fr. wareh'se	40,987,987	43,457,614

The duties received at New York for seven months ending with January, were:

	1879.	1880.
July	$8,103,513 74	$9,329,895 17
August	10,149,191 69	10,662,138 82
September	9,080,936 88	11,790,902 26
October	8,349,904 94	10,952 554 48
November	6,713,339 94	3,460,050 08
December....	6,175,359 43	8,175,540 13
January	7,655,552 67	11,960,677 78
Total	$56,227,799 29	$71,231,758 72

The exports from New York to foreign ports in the month of January, were:

	1879.	1880.
Domestic produce.	$22,082,124	$24,668,691
Foreign free goods.....	266,486	370,357
Do. dutiable....	210,946	377,518
Specie and bullion.....	1,133,867	819,919
Total exports	$23,693,423	$26,236,485
Do. exclusive of specie..	22,559,556	25,416,566

The exports from New York to foreign ports for seven months ending January 31, were:

	1879.	1880.
Domestic produce....	$195,325,017	$219,454,103
Foreign free goods...	1,702,472	1,088,434
Do. dutiable.	3,088,125	2,639,615
Specie and bullion....	4,944,462	4,152,985
Total exports....	$205,060,076	$227,330,137
Do. exclusive of specie	200,115,614	223,177,152

Interoceanic Canal.

In the House of Representatives at Washington on the 16th inst., Mr. Francis Morris, of New York, appeared before the select committee on the interoceanic ship canal, and urged the claims of the American, Atlantic and Pacific Canal Company to the exclusive right of constructing a ship canal by way of Lake Nicaragua. This right originated in a contract made in 1849 between the Nicaraguan Government and this company, which was supplemented by an additional contract made in 1857. By the latter the obligation on the part of the company to construct the canal was dispensed with, and a new method of effecting transit by the then existing transit company was provided. It is claimed, however, on the part of the Atlantic and Pacific Canal Company that this contract of 1857 did not abrogate the right of the company to construct the canal, but only dispensed with the obligation to do so—leaving the company still free to claim or forego its right.

This view is sustained in a legal opinion given by Mr. John K. Porter, of New York. As attempts had already been made to abrogate this contract, he desired such aid from the United States Government, by diplomacy or otherwise, as might secure from the Nicaraguan Government the rights conferred upon the Atlantic and Pacific Canal Company by the contract.

Securities Admitted to Dealings at the Stock Exchange.

The following securities were admitted to dealings at the New York Stock Exchange on the 11th inst.:

Ohio Central Railroad—$3,000,000 first mortgage 6 per cent bonds due in 1920; $3,000,000 income bonds at such a rate of interest, not exceeding 7 per cent per annum as shall be earned in any one year over all expenses and interest on the first mortgages; $4,000,000 capital stock, divided into shares of $100 each. At present the road of the company extends from Corning, in the coal fields of the Sunday Creek Valley, Ohio, to Newark, 44 miles, with a branch to Columbus, 26 miles; total, 70 miles. But the above capitalization includes a line from Newark to Toledo 130 miles, which is in process of construction under contract that the entire line shall be completed by July 1, 1880. The earnings of the seventy miles now operated are reported to be sufficient to pay the interest upon the entire amount of the first mortgage bonds. The directors of the company are: George J. Seney, New York; E. H. R. Lyman, New York; Charles Foster, Fostoria, Ohio; D. W. Caldwell, Columbus, Ohio; Walston H. Brown, New York; John T. Martin, New York; C. R. Cummings, Chicago; Calvin S. Brice, Lima, Ohio; George F. Stone, New York; Daniel P. Eels, Cleveland, Ohio; Samuel Thomas, Columbus, Ohio.

Peoria, Decatur and Evansville Railroad—$1,287,000, first mortgage 6 per cent bonds due in 1920; $858,000 income bonds due in 1920 at such a rate of interest not exceeding 7 per cent per annum as may be declared earned over all expenses and the interest on the first mortgage bonds; $2,000,000 capital stock divided into shares of $100 each. The company's road is 110 miles in length, from Pekin to Mattoon, Ill., and is a consolidation of the Pekin, Lincoln and Decatur and Decatur, Mattoon and Southern Railroad companies. The directors of the company are: John T. Martin, New York; C. R. Cummings, Chicago, Ill.; George J. Seney, New York; John B. Cohrs, Peoria, Ill.; Eli Wiley, Charleston, Ill.; E. H. R. Lyman, New York; Edward Richards, Pekin, Ill.

Kansas Pacific Railroad—First consolidated mortgage 6 per cent bonds, due May 1, 1919, $30,000,000; issued to retire the old bonds of the company.

Union Pacific—Collateral and Trust 6 per cent bonds, to be issued at 80 per cent on $6,856,000 of the bonds of the Omaha and Republican Valley Railroad ($850,000), Colorado Central ($2,526,000) and Utah Northern ($3,480,000); consolidated capital stock $50,762,300, divided into shares of $100 each, issued to retire the old stocks of Union Pacific, Kansas Pacific and Denver Pacific Companies.

Minneapolis and St. Louis Railroad—$1,100,000, Iowa Extension, first mortgage gold 7 per cent bonds.

New York, Ontario and Western Railway—$2,000,000 preferred stock issued to the holders of Receiver's debt of the New York and Oswego Midland; $48,000,000 common stock, of which $18,000,000 is to be issued to the first mortgage bondholders of the New York and Oswego Midland Railroad and the balance, $35,000,000, is to be issued to the junior securities of the old company upon payment of 20 per cent on the par and for 30 per cent of the new interest bearing convertible bonds due in 1892, and for common stock of the old company.

International and Great Northern—First mortgage 6 per cent gold bonds, $5,624,000; second mortgage income bonds, interest not exceeding 8 per cent per annum; capital stock issued, $5,500,000.

Montauk Gas Coal Company—Organized for the purpose of purchasing oil lands, rights, etc., in Taylor County, W. Va., and the mining of coal thereon, etc. Incorporated September 20, 1879, under the laws of the State of New York, passed February 17, 1848; capital stock, $2,500,000, divided into shares of $100 each.

New York Central and Hudson River R. R.

The following is an official statement of the New York Central and Hudson River Railroad for the first four months of the fiscal years 1878-9 and 1879-80.

The following are the figures for 1878-9:

Month.	Passengers.	Freight.	Miscellaneous
Oct...	$653,664 61	$1,723,515 60	$394 023 10
Nov..	531,618 59	1,681,631 34	354,068 54
Dec ..	475,173 14	1,381,913 20	380,178 96
Jan ..	419,471 70	1,292,349 28	312,991 01
Total	$2,079,928 34	$6,079,409 42	$1,441,261 61

And the following the figures for 1879-80:

Month.	Passengers.	Freight.	Miscellaneous.
Oct...	$646,983 77	$1,974,113 10	$277,689 32
Nov..	570,163 68	1,940 336 94	291,334 42
Dec ..	469,066 87	1,883,897 33	493,252 17
Jan ..	471,728 90	1,822,015 81	299,868 04
Total	$2,157,743 22	$7,620,363 18	$1,362,143 95

And the following is a comparison of the total earnings:

	1878-9.	1879-80.
October	$2,771,203 61	$2,898,886 19
November.....	2,567,318 47	2,801,835 04
December	2 237 265 80	2,846,216 37
January	2,024,811 99	2,593,612 75
Total four months.	$9,600,599 37	$11,140,250 35

Interesting to Receivers.

Motion was made in the Supreme Court, Kings County, N. Y., on the 16th inst., before Justice Pratt, in the matter of the suit of M. Nast, who was injured in a collision on the Long Island Railroad two years ago, to compel Mr. Sharp, Receiver of the railroad, to pay judgment or give security on appeal. The plaintiff recently obtained a verdict in the Queens County Circuit Court for $7,000 damages against the railroad. The judgment, which was affirmed by the General Term, is now on the way to the Court of Appeals. Justice Pratt, who denied the motion, held that while the Receiver was the officer of the Court the appeal was the appeal of the Court, and the application ought not to be granted. The Judge said he has invariably denied motions of this kind.

☞ A combination has been formed between the Louisville and Nashville Railroad Company, and the Central Railroad Company of Georgia, to last for five years, whereby the Louisville and Nashville Railroad Company obtains control of every port on the South Atlantic coast, except Brunswick, Georgia. At Savannah the railroad will connect with large lines of steamers to New York and Liverpool, and it is their calculation to carry freight from St. Louis and the other Western cities to New York cheaper and as quickly as over the Northern trunk lines. The immense cotton and tobacco crops that are produced in the South will by this line reach the European market without being detained in New York, and one bill of lading will be issued for freight from St. Louis or Chicago to Liverpool. Extensive preparations are reported to be in operation for putting the new enterprise into full operation.

West Jersey Railroad.

At the annual meeting of the stockholders of the West Jersey Railroad Company, held in Camden, N. J., on the 10th inst., the following gentlemen were elected directors for the ensuing year: George B. Roberts, Thomas Jones Yorke, Lewis Mulford, Colemen F. Leaming, Charles F. Elmer, John M. Moore, Josiah Bacon, Strickland Kneass, Thomas H. Dudley, George Wood, J. N. DuBarry, N. Parker Shortridge and Thomas H. Whitney. The reports presented indicate the road to be in a prosperous condition. The freight business is largely on the increase, and the passenger travel is highly gratifying. During the past year many important improvements have been made along the entire track of the road, while the work of laying the branch road from Newfield to Atlantic City is progressing rapidly. About forty new cars and six engines have been contracted for, to be used on the new road, and will be delivered in time for the opening of the season at Atlantic City. The entire length of the track will be laid with steel rails, making a continuous steel line from Camden to the seashore.

☞ The sale of the Indianapolis, Cincinnati and Lafayette Railroad was confirmed by Judge Baxter in the United States Circuit Court at Cincinnati on the 13th inst. The Judge's action dismisses all cross bills in the proceedings for the sale, and terminates the Receivership, and the road passes officially into the hands of the new owners.

☞ The directors of the Sixth Avenue, New York, Railroad Company, recently elected, are: Richard Mortimer, G. W. Burnham, Frederic de Peyster, Jonathan Thorne, T. R. Butler, Abram R. Van Nest, Henry Demarest, William Bryce, William G. Mortimer, Albert W. Green, Theo. E. Macy, Abijah Curtiss and Charles G. Landon.

☞ The auditor's office and the other clerical force of the Kansas Division of the Union Pacific Railroad has been removed from Kansas City, Mo., to Omaha, Neb. Only the offices of the general superintendent and assistant-general passenger agent remain at Kansas City, without material change.

☞ The Missouri Pacific Railroad Company have leased of the Hannibal and St. Joseph Railroad Company that part of its line between St. Joseph and Atchison, and the Missouri Pacific trains will commence running into St. Joseph on the 22d inst. The lease is for 25 years.

☞ At a meeting of the directors of the Little Miami Railroad Company recently held in Cincinnati, the following officers were re-elected: Hon. H. J. Jewett, President; Henry Hanna, Vice President; Julius Dexter, Secretary; S. E. Wright, Treasurer.

☞ The St. Joseph and Albany Narrow Gauge Railroad, extending to Mount Ayr, Iowa, 50 miles, has been bought by the Chicago, Burlington and Quincy Railroad Co. The road will be made standard gauge and extended.

Exports of Petroleum and Petroleum Products.

Mr. Joseph Nimmo, Jr., Chief of the Bureau of Statistics, has submitted to the Secretary of the Treasury an advance statement in regard to the exports of petroleum and petroleum products from the United States, in which is shewn the following totals of crude, naphtha, illuminating, lubricating and residuum from the undermentioned custom districts during the month of December, 1879, and the six months ended the same, as compared with similar exports during the corresponding periods of 1878 :

	Gallons.	Values
Boston	440,416	$57,067
New York	32 885,624	2 868,862
Philadelphia	9 364,312	796,667
Baltimore	1,931,387	178,202
San Francisco	39 290	8,653
Richmond	371 043	25,500
All other districts	35,878	4,496
Total December, 1879.	45,067,950	$3,939,447
Total December, 1878.	27,072,761	2,786,847
Total six months ended December 31, 1879	275,407,615	22,486,089
Total six months ended December 31, 1878	228,655,838	25,555,871

Our Foreign Commerce.

The forthcoming annual report of the Chamber of Commerce gives a synopsis of the foreign commerce of the port of New York, and of the United States, for the fiscal year 1879, which shows some interesting facts. Of our foreign imports, the heaviest importations were of sugar and molasses, aggregating something over $79,000 000 in value; next came coffee, $47,000,000 ; next woolen and silk manufactures, each over $24,000,000 ; gold and silver, $20,000,000 ; our imports of cotton manufactures followed, at $19,000,000 ; hides and skins, other than furs, $15,000,000 ; flax manufactures, about $14,500,000. The total of our foreign imports for the period named reached $466 073,775. Of this vast amount, there was imported into the port of New York $314,115,362 ; leaving for all the other ports of the country together only $151,958,413. This disproportion is very great in the matter of some of the leading articles of import, as the following table shows :

	Port of New York.	All other ports of the U. S.
Sugar and molasses	$49,719,708	$29,561,861
Coffee	32 739,331	14,617,488
Silk manufactures	23,196,860	816,538
Woolen manufactures	19,667,135	4,666,565
Cotton manufactures.	17,618,454	2,309,656
Flax manufactures	12,332,617	2,861,220
Tea	9,819,720	4,757,898
Leather and leather manufactures	6,622,821	934,233
Tobacco and tobacco manufactures	5,194,054	618,371
Precious stones	3,624,893	217,114

Our total domestic exports for the fiscal year 1879 aggregated in value $717,093 777. Of this amount there was exported in value from the port of New York $338,817,546, or less than one-half the total. The value of our leading articles of exports was as follows : Breadstuffs, $210,555,528 ; cotton, $162,304,250 ; provisions, $116,858,650 ; mineral oils, $39,439,055 ; leaf tobacco, $28,215,240 ; gold and silver, $17,555,035 ; cotton manufactures, $10,853,950. Our excess of domestic exports for the year over foreign imports was $251,020,002. As compared with the fiscal year 1878, there was a decrease for the year 1879 of our total foreign commerce of nearly $8,000,000 in value ; but of the proportion of this commerce falling to the share of this port there was an increase of about $350,000 compared with the previous year.

Tho following statement exhibits the value of merchandise imported into and exported from the port of New York by American and foreign vessels for the fiscal year ending June 30, 1879, compared with all ports of the United States for the same period :

PORT OF NEW YORK.

	American Vessels.	Foreign Vessels.
Imports brought in	$77,962,251	$236,149,594
Domestic exports shipped in	49,103,441	289,714,105
Re-exports shipped in	2,090,542	9,354,265
Total value, 1878-9	$129,156,234	$535 217,964

ALL OTHER PORTS OF THE UNITED STATES.

	American Vessels.	Foreign Vessels.
Imports brought in	$148,590,353	$310,499,599
Domestic exports shipped in	122,589 538	588,773,718
Re-exports shipped in	5,835,801	11,995,915
Total value, 1878-9	$272,015,692	$911,269,232

Deviation of Line in Constructing a Land Grant Railroad.

The Attorney General of the United States has rendered an opinion touching the right of a land grant railroad to deviate in constructing its road from the line of route adopted. The question arose in connection with the grant to the State of Iowa to aid in the construction of a railroad from McGregor westerly. The portion of the road between Algona and Sheldon was built by the Chicago, Milwaukee and St. Paul Company, and deviated from the line as surveyed and adopted by the McGregor and Missouri River Company about five miles at one point. The Attorney General holds that in order to entitle the State to the land, it is necessary that the road should be constructed according to the line adopted. If a different road is built, it cannot entitle the State to the benefit of the lands. The question whether the road constructed is, or is not, the road, is one for the Interior Department to determine. Some deflections must, in many cases, be expected, but there must be substantial compliance with the line of location. He also holds that while the State had a right to fix the points at which the road should be constructed, it could not thereby affect the rights of the United States.

☞ The directors of the Scioto Valley Railroad Company, recently elected, are : George M. Pullman, Horace Porter, Edward L. Winslow, Wm. Adams, Jr., Henry K. M. Harg, Edward D. Adams, New York ; Henry L. Morrill, Joseph Robinson, John G. Mitchell, George D. Chapman, Columbus ; Harford Toland, London ; Marcus Boggs, Chillicothe ; Geo. Davis, Portsmouth. The officers are : President and General Manager, George D. Chapman ; Vice President, Henry L. Morrill ; Treasurer, Joseph Robinson ; Secretary, James P. Curry.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Bellefontaine, Troy and Indiana Railroad Company, termini Bellefontaine and the State line in Butler county, at College Corner, passing through the counties of Logan, Champaign, Miami, Montgomery, Preble and Butler, capital $10,000 in shares of $50 each, by John O. Sweet and others.

United Pipe Lines.

Following is a statement of the United Pipe Lines, showing their condition January 31, 1880 :

	Barrels.
Crude petroleum in tanks and pipes January 31, 1880	7,785,259.38
Sediment and surplus	295,519.60
Net stocks	7,489,739.78
Outstanding acceptances, bbls.	4,436 788.55
Credit balances, bbls	3,002,951.23
Total liabilities	7,439,739.78
Crude petroleum received in December	1,832,963.04
Crude petroleum delivered in December	1,455,194.98

Northern Pacific Railroad.

The General Manager of the Northern Pacific Railroad has been recently interviewed on the progress of some of the recent enterprises of the company. He states that a large amount of work has been done on the Dakota division west of the Missouri river during the present winter, and preparations are being made to push the construction as soon as the severe weather is over. He expects to have completed and open for business about 150 miles of road west of the Missouri river early in the summer, and that the whole 205 miles from Bismarck to Yellowstone will be opened by September next. The work for the Yellowstone division it is proposed to put under contract as soon as the engineers now making a survey of the line have completed their work and located the road. This part of the line will traverse a large portion of fine pasture lands in Montana, and the general manager says that its completion will give the line an enormous business in the way of bringing cattle to the Atlantic seaboard. Contracts have already been made to bring out a large number the current year. In point of quality it is claimed that the Montana cattle are not inferior to the best grain fed stock raised in the States. Work on the Pacific end of the road is also being pushed forward. The rails for the 200 miles of track now under contract, it is said, are on hand at the present eastern terminus of the division.

☞ The Pennsylvania Railroad Company insists that merchants whose goods were destroyed on their road at Pittsburg during the riots shall pay the freight the same as if the goods had gone through to their destination. The amount of freight will be added by many of the claimants to their damages against the county.

☞ Houston & Co., contractors of the Cincinnati Southern Railroad, on the 13th inst. turned the road over to the operating company. The company expect to run regular passenger and freight trains through to Chattanooga this week. Somerset has been the southern terminus up to the present time.

☞ It is generally believed that that portion of the Lewisburg, Center and Spruce Creek (now Lewisburg and Tyrone) Railroad from Pennsylvania Furnace to Tyrone will be ironed and put in running order during the coming summer.

Northern Central Railway.

The ways and means committee of the House of Representatives at Annapolis, Md., has reported the bill to settle the differences between the State and the Northern Central Railway Company on the same basis of the Baltimore and Ohio adjustment in 1878. The charter originally exempted the Baltimore and Susquehanna railroad from taxation; but in 1854 it was consolidated with other lines under its present name, and in 1876 was subjected to taxation, from which it claimed exemption. The State claimed, having received a new charter by the consolidation act of 1854, the road was liable to taxation under the constitution of 1851. The Court of Appeals sustained the position of the State, and the case was carried to the Supreme Court of the United States, where it is now pending. In the meanwhile a compromise has been effected between representatives of the State and the railway company to pay $30,000 and be released from claims of back taxes, the road in the future to pay one-half of one per cent on gross receipts. This basis of settlement is subject to ratification of the stockholders in annual meeting, which will be held on the 26th instant.

☞ The Pennsylvania Railroad Co. has laid rails to connect the Southwest Railroad with the Scottdale branch. This branch taps the "Junebug" Railroad which was connected with the Mt. Pleasant and Bradford Railroad, and all were under the control of the Baltimore and Ohio Railroad Company. The "June-bug" Road was owned by Mr. C. P. Markle, of West Newton, who sold it some time ago to the Pennsylvania Railroad Company and its connection with the Baltimore and Ohio has now ceased. This movement opens up an extensive coke and coal field, the business of which will be enjoyed by the Pennsylvania Railroad.

☞ A company was organized in Boston on the 9th inst., under a charter from the State of Massachusetts, dated February 6, 1880, for the purpose of constructing and operating a railroad from Cairo, Egypt, through Port Said and Damascus, to connect with the Euphrates Valley Railroad, about to be built by an English company. Branch roads are also provided for by the charter. The Turkish Government has been applied to for concession of the necessary right of way.

☞ The stockholders of the Framingham and Lowell Railroad Co. have voted, 3578 to 17, to lease their road to the Boston, Clinton, Fitchburg and New Bedford Railroad Co. for 998 years and 4 months, from October 1, 1879. It is understood the property will be leased to the Old Colony Railroad Corporation at once.

☞ The Monticello Branch of the Little Rock, Mississippi River and Texas Railroad has been completed, and the first train reached Monticello on the 10th inst.

☞ The directors of the Levis and Kennebec Railway intend to proceed immediately with the extension of the line through St. George to the Maine frontier.

☞ The Indianapolis, Decatur and Springfield Railroad was opened for business on the 9th inst.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending February 7, as reported by the several carrying companies, amounted to 306,970 tons, against 390,663 tons in the corresponding week last year, a decrease of 83,693 tons. The total amount of anthracite mined for the year is 2,029,043 tons, against 1,855,003 tons for the same period last year, an increase of 174,040 tons. The quantity of bituminous coal sent to market for the week amounted to 43,746 tons, against 41,562 tons in corresponding week last year, an increase of 2,184 tons. The total amount of bituminous mined for the year is 310,765 tons against 183,467 tons for the corresponding period last year, an increase of 127,298 tons. The total tonnage of all kinds of coal for the week is 350,716 tons, against 432,225 tons in corresponding week last year, a decrease of 81,509 tons, and the total tonnage for the coal year is 2,339,808 tons, against 2,038,560 tons to same date last year, an increase of 301,248 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of January was 168 836 tons, of which 117,186 tons were coal and 51,650 tons coke. The total tonnage for the year thus far has been 564,941 tons, of which 424,781 tons were coal and 140,160 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending February 7th were 29,720 tons, and for the year to that date 173,204 tons—93,210 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 25,616 tons, for the year 155,390 tons, an increase of 85,791 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 4,104 tons, and for the year 15,231 tons, an increase of 4 836 tons as compared with 1879. The shipments by the Chesapeake and Ohio Canal so far this year have been 2,584 tons.—[Phil. Ledger, Feb. 16.

☞ An order was entered in the U. S. Circuit Court at Springfield, Ills., on the 13th inst., confirming the sale of the Cairo and Vincennes Railroad. This road was sold by an order of the court on Jan 5, for $2,000,000, to Joseph W. Drexel and Charles E. Tracey, Trustees for the English bondholders.

☞ The Secretary of War has transmitted to the Senate a copy of the report of Col. John Newton of the examinations and surveys for a ship canal across Bergen Neck, N. J., to connect Newark Bay with the waters in the upper bay in New York. The total estimate of the cost is $3,333,422 88.

☞ On the 6th inst., the Commissioners of Allegheny county, Pa., caused to be paid to the Solicitor of the Pennsylvania Railroad Company $1,600,000, the amount of their claim for riot losses. The evening before $33,232 82 was paid to the Baltimore and Ohio Company.

☞ The railroad from Battle Mountain Station, on the Central Pacific Railroad, to Austin, Nevada, has been completed. This road opens the mining and grazing district in the centre of the State.

☞ The railroad to be built by England from Teheran, the capital of Persia, southward to the Persian Gulf will be wholly on Persian Territory, and will open communication to within seventy miles of the Caspian Sea.

☞ The bill incorporating the Baltimore, Cincinnati and Western railroad was ordered to engrossment in the Virginia Senate on the 16th inst.

Great Western Railway of Canada.

The revenue statement of this company for the month of December (excluding leased lines) is as follows:

	1878.	1879.
Gross earnings.....	$274,105	$396,600
Working expenses.....	194,522	219,300
Net	$79,678	$177,300

—showing an increase in earnings of $122,405, in expenses of $24,778, and in net earnings of $97,627. In the working expenses are included transfers to reserve funds. The figures of 1878 have been corrected for the purpose of comparison. They include the Galt and Guelph working and the proportion of transfers to reserve funds on the new basis as revised for the half year in January, 1879.

LITTLE CHIEF MINING COMPANY.

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874, says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

HARLAN A. PIERCE, Editor.

New York, Friday, February 27, 1880.

The New Anglo-American Bank.

We are informed upon inquiry of Mr E. T. Bell, of Messrs. W. J. Wilcox & Co., who has accepted a directorship in the new Union Bank of England and America, whose organization we noted in a recent issue, that subscriptions to the stock of the above bank, as per private cable, have already amounted to a large proportion of the first issue of the capital stock of $7,500,000, which will be placed in Great Britain except what is taken by the New York directors, as their allotment. The purpose of the bank is to increase the export and import banking facilities between this country and Europe, which have remained the same for some years, notwithstanding the commerce of New York with Great Britain has grown to the enormous sum of $750,000,000 annually. It is for this purpose that the New York directors were selected largely from prominent mercantile houses interested in the import and export trade. Agencies will be established in the South and West as well as in other seaboard cities and in Canada under the control of the New York Branch. The head office will be in London with a branch also in Liverpool where a similar bank was projected, whose originators have joined the Union English and American Banking Association. In addition to affording special advantages to shippers and importers in bills of exchange and commercial credits this bank will also issue travelers' credits and do a general banking and trust business. The New York directors are a thoroughly representatives class of business men whose houses are at the head of their different departments of commerce and finance, whose business capacity and experience as well as financial resources and influence must bring custom to the new enterprise from its start, out of their respective circles. Mr. E. T. Bell, of the Wilcox Lard Refining Co., which is probably more widely known in Europe than any Provision house, from its famous brand of lard represents the Provision trade. Mr. A. E. Orr, of David Dows & Co., whose house is without doubt one of the most widely and favorably known in commercial and railroad circles in this country, represents the Breadstuffs trade. Mr. B. B. Sherman, President of the Mechanics' National Bank, is as well known in banking and Wall street circles and represents that interest. General Christeusen is an equally representative man in his line of business, as well as Messrs. Corlies and Hoadley; while Mr. Sparks, formerly of the White Star line of steamers, represents in London the shipping interests which will all thus be drawn more closely together by the bonds of mutual benefit. The Produce Exchange, the Cotton Exchange, and other commercial interests cannot but be benefitted by these additional facilities thus to be afforded them especially, and as this bank will fill a want in these trades its success cannot be problematical under the management of the men who have put their money into it and will manage its business.

Infringement upon Letters Patent for Improvements in Street Cars.

At a Stated Term of the Circuit Court of the United States of America, for the Southern District of New York, in the Second Circuit, held at the United States Court Rooms, in the City of New York, on Monday, the 26th day of January, in the year of our Lord one thousand eight hundred and eighty.

Present—The Honorable Hoyt H. Wheeler, Judge.

John Stephenson vs. The Second Avenue Railroad Co. } In Equity.

This cause having heretofore been brought to a hearing on the pleadings and proofs therein, and having been argued by George Gifford for complainant and by Horace M. Ruggles for defendant, and due deliberation had thereon,—

It is, on motion of George Gifford for said complainant ordered, adjudged and decreed as follows:

That the Letters Patent for improvements in Street Cars granted to the complainant, dated respectively June 14, 1864, December 13, 1864, March 16, 1869, May 14, 1872, and October 11, 1875, and numbered respectively 1959, 45442, 87800, 126757 and 6697 are and that each of them is good and valid.

That the said complainant was the first and original inventor and discoverer of the improvement in street cars as described and claimed in the said letters patent respectively, and that the said complainant is the exclusive owner of said letters patent.

That the defendant herein, the Second Avenue Railroad Company, has infringed upon the said letters patent and each of them and upon the exclusive rights of the complainant under the same.

And it is further ordered, adjudged and decreed, That the complainant does recover of the defendant the profits, gains and advantages

which the said defendant has received or made or which have arisen or accrued to it from the said infringement since the said dates of said letters patent respectively, and also that the complainant recover from the defendant the damages sustained by him by reason of said infringement.

And it is further ordered, adjudged and decreed, That the said complainant do recover of the defendant his costs and charges and disbursements in this suit to be taxed.

And it is further ordered, adjudged and decreed, That it be referred to Kenneth G. White, Esq., one of the Masters of this Court, residing in the City of New York, to ascertain, and take, and state, and report to the Court an account of the said profits, gains and advantages, and also the amount of damages sustained by said complainant from said infringement.

And it is further ordered, adjudged and decreed, That the complainant, on such accounting, have the right to cause an examination of the officers of said defendant, *ore tenus*, or otherwise; and, also, the production of the books, vouchers and documents of said defendant, and that the said officers attend for such purpose before said Master from time to time as said Master shall direct.

And it is also further ordered, adjudged and decreed, That a perpetual injunction be issued in this suit against the said defendant restraining it, its officers, agents, clerks, servants, and all claiming or holding under or through it from making, or selling, or using, or in any manner disposing of any of the inventions or improvements claimed in the said letters patent numbers 45442, 87800, 126757 and 6697, and from making, selling or using, or in any manner disposing of any street car containing any of the inventions or improvements claimed in said last mentioned letters patent pursuant to the prayer of the bill of complaint.

HOYT A. WHEELER.

Are we Building too many Railroads?

The *Public* of the 12th February, advances rather of a novel view of the effects of railroad building upon the people and business of the country. It says.

They have encouraged to the utmost that roving, wandering, unsettled spirit, which is the bane of all our industries. Agriculture, for example, has missed more than half of the profits which it would have realized, if the landholders had from the first been taught to cultivate each farm as if that and no other was to be the support of the family for generations. Instead, both North and South, the surface has been scratched, the land wasted, and then the farmer has migrated to new fields.

Will the editor say that this would not have been true without railroads in a new country so rich in soil by nature and so cheap?

Building new railroads induces people to migrate. It gives them a chance to get fresh and cheap land, within easy reach of new railroad stations.

Is not this one of the benefits of railroads which increase the national wealth?

Out of this continual shifting it comes to pass that the farm lands in the older States gain but little, or gradually diminish in value, and farming in those States becomes less favored as an occupation, and the population gravitates steadily toward the towns, while the distance from which food is brought to the inhabitants of those towns, and the cost of transporting it, each year increased.

This is true the world over as communities grow older and the farmer is compelled to seek thinly populated country in order to keep down the cost of production by tilling cheap lands.

The panics of 1857 and 1873 are more directly due to excessive building of railroads than to any other cause. Three times in our history we have suddenly stimulated to excess the migratory and speculative spirit, each time with disastrous results.

We would ask the editor of the *Public* if emigration is so disastrous to this country how it is that our greatest depression has been when there was the least of it, and our greatest prosperity when it has been the greatest? This a new doctrine that needs demonstration before acceptance. That the panics of 1857 and 1873 were due to building railroads farther than emigration had gone, and ahead of it, by about a decade, is no doubt true; and not because it had unduly stimulated emigration. Anything that tends to develop the resources of the country is a national benefit, and if some older sections less favored by nature and transportation than the new, suffer, that is their misfortune and not the evil of railroad building. To show the fallacy of the *Public's* argument, it should be carried out to its logical conclusion, which would be that all transportation facilities are an evil because they "induce people to migrate."

That panics are due to the railroad, because they enable people to get cheaper and richer lands and produce and get to market food supplies at reduced cost, is too contradictory to need answer. This instead is just what cheapened the cost of living in the older States whose natural advantages for manufacturing over the Western States induced them to quit farming for more profitable occupations, and hence large manufacturing centres grew up on the lines of railroads and commercial centres to accommodate them, and caused "the population to gravitate towards the towns." The *Public* reminds us of the Jersey farmers who opposed the building of the Central Railroad of New Jersey, because it deprived them of the hauling of their products to market by team, beside damaging their farms by running too near them. Railroads may be built in advance of emigration and hence too fast, and produce panics; but not when emigration goes ahead, or keeps up with them.

Are we then building too many railroads? Not if emigration is going with them and development keeping pace. The increased earnings of our railroads for 1880 compared with the previous five years show whether this has been done or not and so long as this ratio of increase is kept up it is idle to talk of too much railroad building, especially when the new roads into the new West and Southwest show the largest increase in earnings of any.

Expired Railroad Land Grants.

Extracts from the report to the Senate of the railroad land grants which have expired, are found in another column. The list contains two classes of grants: those which were allowed to lapse intentionally, and those which lapsed by reason of the panic and depression which rendered their compliance with the terms of the grant an utter impossibility. The former have no claim in justice to their renewal, but the latter have a very strong one, and it would be the height of injustice to refuse to renew those under which work in good faith has been done, begun or now to be begun because of financial assistance which could not have sooner been obtained. This class should include all which have lapsed since the panic whose original grants should be restored without abridgement.

Illinois Central Railroad Company.

REPORT OF THE DIRECTORS TO THE SHAREHOLDERS.

The directors refer the shareholders to the General Balance Sheet of 31st ultimo, with annexed abstracts. Comparing the net traffic with that of 1878, the increase is $181,691 66. The net amount yielded in 1879 by the traffic was $3,196,920 85 and the net receipts from land, above all expenses, amounted to $102,572 97. In addition the company received $102,321 84 interest on its investment in bonds secured by the first mortgage of the Chicago, St. Louis and New Orleans Railroad Company. Thus the aggregate net income was $3,401,815 66. From this fund the company has paid the interest on its bonds, and two dividends on its shares. Its business has required additional equipment: 260 freight cars have been built, and three heavy engines are in course of building in the company's shops. The outlays for equipment, together with the cost of considerable additional side track and important purchases of real estate, as well as cost of additional double track laid between Chicago and Hyde Park, with new station buildings, etc., have also been taken out of the income account, these construction charges aggregating $386,016 15. After all these deductions there is still a balance of income for the year of $617,204 50, which, added to $1,455,635 30 at credit of "Income" at the close of previous year, makes $2,072,839 80 now carried forward to the credit of that account.

The Branch Line mentioned in the last report, running southwest from Otte, has been extended 18.83 miles, and another branch running westerly from the first towards our main line, is nearly graded, and 12 miles of the track have been laid with iron rails. 7891 tons of new steel, and 1384 tons new iron rails, were laid on the road and branches last year, exclusive of the iron rails used in the extension of the new branch lines. 50 miles of track have been ballasted with stone and gravel. Of the 365 miles from Chicago to Cairo, 315 miles are laid with steel; it is proposed to complete the whole distance in steel, at an early day. We now have 543 miles of steel rail north of the Ohio.

The extraordinary demand for the grain and provisions of the Northwest at higher prices than of late years has strengthened the resources of the farmers. This is particularly evidenced in the largely increased volume of the Chicago lumber traffic, the receipts last year at that point reaching the astonishing amount of fourteen hundred and eighty-one million feet. It is probable that the population of Illinois has never enjoyed so large a prosperity as during the past season.

The shareholders will note that the later investment in the Southern line, made since 1877, is $1,600,009 of first mortgage bonds, brought forward at par. The opportunity of selling these bonds at a premium has been refused.

The extension of the Southern line to East Cairo has materially diminished the time occupied by trains in crossing the Ohio. The time between New Orleans and East Cairo has been shortened five hours, and trains are running with regularity and safety. For the Southern line 10,000 tons more of steel rails have been purchased, and it is proposed to reduce its grades at the northern end, this tending to increase its capacity for business, and reduce its expenses. Sixty miles more have been ballasted, and additional machine shops and other buildings erected. Various projects are mooted to secure a share of the export business through the Southern ports. It is intended to have this, the shortest through line, put in perfect order as rapidly as it can be done consistently with reasonable economy. From the superiority of its condition, and the fact that it is from 100 to 150 miles more direct than any competing system of roads, it is believed that it will practically control the traffic between the Northwest and the Gulf.

The annual meeting of shareholders will take place at Chicago, on the last Wednesday of May.

By order of the Board,

L. A. CATLIN, Secretary.

New York, 21st January, 1880.

New York, West Shore and Buffalo R. R.

A certificate of incorporation has been filed in the office of the Secretary of State at Albany of the New York, West Shore and Buffalo Railroad Company. The capital stock is fixed at $30,000,000. The road is to run "from a point on or near the west shore of the Hudson River, and on the division line between the States of New York and New Jersey, along or near the said west shore, via Piermont, Nyack, Haverstraw, West Point, Newburg, Rondout, Catskill, Athens, Coxsackie, Schenectady, and thence along or near the south shore of the Mohawk River to Utica, and thence by way of Syracuse to Buffalo, with loop lines or branches to the cities of Albany and Rochester, and also by a connecting line or connecting lines from one or more points upon the Hudson River to a point upon the Hudson River opposite to the city of New York." The total length is estimated at 560 miles, 425 of which are main line. The original company, which was known as the New York, West Shore and Chicago Railroad Company, was organized in 1870. A portion of the line was graded and about two and one-half miles were laid with rails. The property was sold February 7, 1879, under process of foreclosure, to a purchasing committee of the bondholders. The directors of the new company are: Joseph Pool, President; James B. Johnson, H. J. Cullen, Henry Morgan, Hiram Post, Henry L. Bennett and George S. Studwell, of New York; ex-Governor John B. Page, Rutland, Vt.; Daniel D. Warren and Willis Phelps, Springfield, Mass.; Theodore J. Little, Morrisania, H. C. Gleason, Shrewsbury, Vt., and Wallace E. Andrews, Cleveland, Ohio.

Northern Central Railway.

The annual report of the President and Directors of the Northern Central Railway Company shows that the revenue for the year ended December 31, 1879, was $4,107,948 82, of which $627,926 88 was from passengers and $3,272,301 56 from freight, and that the operating expenses were $2,861,941 97, leaving as net earnings $1,246,606 85. In comparison with the year 1878 there was an increase in gross earnings of $384,491 92, equal to 10.33 per cent, and an increase in expenses of $254,444 76, showing an increase in net earnings of $127,047 16, or 11.35 per cent. The balance of net income for 1879, carried to credit of profit and loss account, after paying interest charges, operating expenses, &c., was $168,994 65. The total tonnage for the year was 7,920,866 tons, an increase over the year 1878 of 2,117,495 tons. While the tonnage mileage increased 43 3-10 per cent, the gross receipts, owing to the low rates prevalent during the year, only increased 15 3-10 per cent; but as a result of the wise expenditures of the past few years and the thorough efficiency of the service of the company, this largely increased tonnage was moved without a corresponding increase of expenses. During 1879 there were moved over the road to Baltimore 25,812,279 bushels of grain, an increase over 1878 of 14,812,066 bushels. The system of voluntary inspection of tobacc has worked very satisfactorily, and, owing to the rapid increase of this class of traffic, the warehouse at Canton will have to be enlarged. There are now on the track of the various roads 32,795 tons of steel rails, leaving but 4,799 tons of iron rails remaining, which will be replaced by steel during the present year. The property is said to be in excellent condition, its road bed, equipment and other facilities never having been so complete as at present. The report closes by saying that, in the judgment of the board, the reviving business of the country will justify an increase in the compensation of officers and employes of the road not later than the 1st of April next.

☞ A contract was let on the 19th inst. for the construction of another 50 miles of the Texas and Pacific Railway extension west of Weatherfield, Texas. The iron and other material, and a complete outfit for a telegraph line, from Ft. Worth to Weatherford, is on hand, and trains will be running to the latter place by the first of April.

☞ The next annual meeting of the Pennsylvania Railroad Company will be held in Musical Fund Hall, Philadelphia, on Tuesday, the 9th of March. The annual report of the company will, in compliance with a resolution adopted by the stockholders, be distributed from the general offices on the 2d of March.

☞ The annual report of the Chicago and Alton Railroad for the year 1879 shows that the gross earnings were $5,755,677, of which $4,242,-791 was from freight, $1,311,708 from passengers, and the rest from express, mails, etc.; increase in gross earnings over 1878, $1,083,158. The operating expenses were $3,049,520, against $2,515,-134 for 1878. The net earnings were $2,706,156; increase $549,771. The earnings, after deducting operating expenses, taxes and assessments, interest on bonds, rent, losses, etc., equal 9.42 per cent on both common and preferred stock.

☞ The new Branch Railroad, feeding the Southwestern (Penn.) Railroad from West Newton, and opening a new route to the Connellsville coke regions, was opened with the usual ceremonies on the 21st of February.

Statement of the Public Debt of the United States, February 1, 1880.

Central Branch Union Pacific bonds, 1862-64.....	1,600,000 00	8,000 00
Western Pacific bonds, 1862-4	1,970,560 00	9,852 80
Sioux City and Pacific bonds, 1862-64.....	1,623,320 00	8,141 60
Totals.....	$64,623,512 00	$323,117 56

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,586,094 04; balance of interest paid by United States, $32,065,061 90.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ At the annual meeting of the Lehigh Coal and Navigation Co., held in Philadelphia on the 25th inst., the report of the Board of Managers was read and accepted. An election for officers was held, with the following result: President, E. W. Clark; Managers, Francis R. Cope, Francis C. Yarnall, Fisher Hazard, Charles Parrish, Charles Wheeler, George Whitney, John Leisenring, James M. Wilcox, Edward Lewis, T. Charlton Henry and Samuel Dickson.

☞ Contracts have been let for the construction of the entire line of the Lexington and Big Sandy Railroad. Warner, Tabler & Co. have contracted to build 36 miles east of Mt. Sterling, and C. R. Mason & Co., 31 miles west of Straight Creek. Work is to be commenced by March 1, and pushed through so rapidly that the road-bed will be ready for the ties by December 31.

☞ The General Passenger Agent of the Pennsylvania Railroad has issued an order to the conductors to honor passes issued by United States Fish Commissioner, Spencer F. Baird, to carry messengers and cans of fish to all parts of the State.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, February 26, 1880.

Our last review closed with a buoyant stock market and Friday witnessed a continuation of the activity and advance with increased interest which, at times, approached the excitement of last Fall's market. The market was led by Western Union Telegraph, ostensibly on the decision alluded to in our last, giving it the exclusive use of the Paige patent, in use by and essential to all telegraph companies. But had this been a final decision, as it is by no means, it would scarcely have accounted for a rise in the stock from 105 to 115, and the leased lines of Western Union in proportion. Lake Shore and New York Central were also active at a further advance, and plenty of stock to be had, notwithstanding the "large investment demand" reported, and the late subscription to the syndicate stock which was supposed to have passed out of the street into "strong boxes" for "keeps." This all looks very much like forcing up Western Union, of which Gould is supposed to be largely short, in order to sell the other Vanderbilt shares, and we hear that there are rumors why Vanderbilt should be a seller of his own stocks whenever the market favors. This, it will be remembered, was the policy fore shadowed by us last fall when the New York Central Syndicate undertook to make a market for his immense holdings which he could not otherwise have reduced without breaking the market completely from under himself, upon it being known that he was secretely selling out his 8 per cent stocks and reinvesting in 4 per cent bonds. The inference is none the less clear when he did this open-

ly it befogs the street and investors, by making them believe that a number of shrewd bankers were ready to buy his stock upon its merits, when it was no doubt upon their belief in their ability to make the investing public believe this, and then unload upon it at a handsome commission. If the public will therefore keep this policy of Vanderbilt in mind, and let his stocks alone at prices higher than they ever sold before, on an average, they may avoid a reaction, which is morally certain to come when he gets his surplus holdings unloaded. For no man would sell safe paying 8 per cent securities, which he controls absolutely himself, and put the proceeds in 4 per cents, if he could see his way clear to keep up his 8 per cent dividends, upon a continuance of which the prices at which his stocks are selling are based. In this connection it will be noted as significant that the Vanderbilt stocks, with few exceptions, are the only ones that have been "boomed" up so sharply of late. These exceptions are the Nashville and Chattanooga stock, New Orleans and Chicago C. C. C. & I., and the coal shares, upon the squeezing of a short interest therein, while all the Gould and Keene stocks have gone back and with them Ohio and Mississippi, Iron Mountain, Pacific Mail and the Grangers. This has been accounted for on the street, however, by the assiduously circulated and published reports that Gould was depressing stocks to cover shorts, and to this end, has openly bid up the rate of money which has ruled stronger at 5@6 until the purchase of $2,000,000 of bonds by the Treasury on Wednesday, instead of the advertised $1,000,000, after which, the rate eased to 4@5 on call.

As it is not Gould's usual custom to take Wall Street into his confidence it strikes us as much more probable that these reports have been given out to cover his real purpose and for selling off his own stocks and the whole of the list which is admitted on all hands to be too high; and the talk of his being short of the Vanderbilt shares may be a cunningly devised scheme between these two operators to unload their stocks on the public. This will tell in a lower market if this be true and if the reports alluded to are true then we may expect higher or at least no lower prices than now. The alleged threat of Gould to put up foreign exchange to a gold exporting point may also be regarded, we think, in the same light, and the public had better let Wall Street alone for the present, until the policy and interests of these great cliques are more evident. Government and railroad bonds have been active and followed the general market, with States dull and steady.

Foreign Exchange has ruled very dull but firmer until the close when a freer movement in wheat and also in cotton by this week's European steamers gave a better supply of commercial bills. The bank statement showed, as expected, a further large increase in the surplus reserve of over $2,000,000, which also helped the bull speculation, until Tuesday afternoon and Wednesday, when there was a general reaction on the whole list, though at the close of Wednesday heavy buying for unknown parties steadied up prices. Keene's stocks have suffered the past week, Erie being notably weak, and there are rumors that he is getting the "pile" he brought from California severely reduced, to about one-fifth its original amount. If this be true the halting and waning in the wheat and lard speculations, at the Produce Exchange, as well as in cotton, may be reasonably accounted for, in the lack of his usual bold and aggressive support so strangely noticeable there of late as to raise doubts of his ability to control those markets any longer. The statement of the Erie's earnings in another column shows a gratifying increase in both gross and net. The Ohio and Mississippi statement shows that there is no longer any need of a receiver as it is earning its fixed charges, including the Springfield Division, in dispute, and it is time the shareholders' rights were respected, and the road taken out of the antagonistic management of the Baltimore and Ohio road in whose interest and not that of the stockholders, the receiver was originally appointed and is kept in possession.

The Mining Exchange has presented nothing to encourage holders of these securities (?) the California stocks being weaker while the Eastern mines are also getting color under such shameless management as that of the Moose is now shown to be, and as we predicted several months ago, which the stockholders are now calling to account, when it is too late, unless they can hold the officers criminally for circulating alleged false statements of the condition of the mine on which they induced their friends to buy and on which they sold out themselves as it is now commonly admitted.

We are informed by Mr. A. E. Orr, of David Dows & Co., that there is a hitch in the organization of the Anglo-American bank noted in our editorial columns, in consequence of the substitution of London directors, identified with the rival Liverpool organization absorbed by this, in the place of those originally submitted to the New York directors with whom they agreed to serve. This change having been made, without consulting the latter, Messrs. Orr, Corlies and Sherman have refused to serve, though they have been cabled to reconsider. Thus the matter is left in statu quo for the present.

Pennsylvania Railroad.

The statement of the business of all the lines of the Pennsylvania Railroad Company east of Pittsburg and Erie, for January, 1880, as compared with the same month in 1879, shows

An increase in gross earnings of.....	$540,127
An increase in expenses of.....	193,360
An increase in net earnings of.....	$346,767

All lines west of Pittsburg and Erie for the month of January, 1880, show a surplus over liabilities of $305,304, being a gain over the same month in 1879 of $143,577.

☞ The La Plata Smelting and Mining Co., of Leadville, Col., have declared a dividend of 7½ cents per share (par value $10) on the capital stock (200,000 shares)—also an extra dividend of 5 cents per share to holders of date of February 25, the day the books close—payable at the office of the company, 58 Broadway, N. Y., on the 1st of March. A statement of the financial condition of the company (which cannot be considered otherwise than highly favorable) will be found in our advertising columns.

☞ We invite attention to the dividend notice of the Chrysolite Silver Mining Co., of Leadville, Col., in another column; this, as will be seen, is the 4th regular monthly dividend, making an aggregate of $800,000 paid in dividends to the shareholders out of the net earnings of four working months, beside paying for the costly machinery, etc, necessary for commencing work on the mines.

☞ We take pleasure in calling the attention of our patrons to the advertisement of Messrs. Wm. A. Guest & Co., 17 Nassau St., New York. This firm is one of the oldest in this city who are and have been dealers in English Iron and Steel Rails, and who enjoy every advantage in manufacturing or supplying railroad companies with almost every requisite. They also negotiate loans for railroad companies.

☞ The contract for the extension of the Southwest (Penn.) Railroad from Oliphant's to Fairchance furnace has been let, and work will be commenced at once.

The Lapsed Railroad Land Grants.

The report of the Acting Commissioner of the General Land Office concerning land grants to railroad companies that have not performed the conditions of their grants was submitted to the Senate on the 19th inst. Since the submission of his report for 1879 evidence has been filed of the completion of three roads, leaving only sixteen grants incomplete. The Gulf and Ship Island, Coosa and Tennessee, Mobile and Girard, Coosa and Chattanooga, Pensacola and Georgia, Florida, Atlantic and Gulf Central, North Louisiana and Texas, and the New Orleans, Baton Rouge and Vicksburg companies have manifested no interest in the matter, and, so far as the Land Office is informed, do not intend to prosecute work upon their roads. In fact, it is understood that a few of the corporations named do not now exist. The grants to the Northern Pacific, Atlantic and Pacific and Southern Pacific (main line) are anomalous and, though lapsed so far as a failure to perform the acts required by the charters is concerned, are not considered as subject to forfeiture. The following table shows the States in which these 16 land grant railroads are located, the date of the expiration of their grants, and the quantity of land granted to each;

	Acres.
Gulf and Ship Island, Mississippi, Aug. 11, 1866	652,800
Coosa and Tennessee, Alabama, June 3, 1866	134,480
Mobile and Girard, Alabama, June 3, 1866	840,880
Coosa and Chattanooga, Alabama, June 3, 1866	150,000
Pensacola and Georgia, Florida, May 17, 1866	1,568,729
Florida, Atlantic and Gulf Central, Florida, May 17, 1866	188,153
No. Louisiana and Texas, Louisiana, June 3, 1866	610,880
New Orleans, Baton Rouge and Vicksburg, Louisiana, Mch. 3, 1876	1,600,000
St. Louis and Iron Mountain, Missouri, July 1, 1871	100,000
Houghton and Ontonagon, Michigan, Dec. 31, 1872	552,515
North Wisconsin, Wisconsin, May 5, 1869	1,408,455
Wisconsin Central, Wisconsin, Dec. 31, 1876	1,800,000
Oregon Central, Oregon, May 4, 1876	1.200,000
Northern Pacific, Various, July 4, 1876	43,000,000
Atlantic and Pacific, Various, July 4, 1878	40,000,000
Southern Pacific, Cal., July 4, 1878	5,500,000
Total acres	99,301,892

In some grants provision was made that, in case the roads were not completed within specified times, the lands unsold should revert to the United States. But no such provision is incorporated in the acts granting lands to the Northern Pacific and Atlantic Pacific main line roads. In those grants certain conditions are required, and it is provided that in case the companies make any breach thereof and allow the same to continue for upwards of one year the United States may do anything necessary to insure a speedy completion of the roads. The time for the completion of the Atlantic and Pacific expired on July 4, 1878. It had then completed 125 miles, 33 of them in the Indian Territory. Nothing further has been done towards completing the road. The time for the completion of the Southern Pacific expired at the same time. It had then constructed 282 miles between San Jose and Tres Pinos in San Benito County, and between Huron in Tulare County, and Mojare in Kern County, leaving an intervening section of about ninety miles to be constructed in order to make a continuous line from San Jose to Mojare. It has also failed to construct its road from Mojare to the State line, about 200 miles. The department decided last June that the time for the completion of the Northern Pacific did not expire until July 4, 1879, and that no proceedings can be taken until one year thereafter. The road is prosecuting the work begun in 1871, and there is reason to believe that it will be completed as soon as possible.

Lehigh Coal and Navigation Co.

The Board of Managers respectfully submit their report for the year 1879, as follows, viz:

Revenue from Railroads and Nesquehoning Tunnel		$828,817 29
Revenue from Lehigh Coal		51,930 24
Revenue from Water Powers Lehigh Canal		19,880 72
Revenue from Delaware Division Canal		47,589 87
Net profit on Lehigh Coal		190,622 83
Royalty on coal mined by Lessees		1,961 75
Revenue from rents		33,943 22
Profit realized from sales of Real Estate		5,760 00
Miscellaneous receipts		8,893 01
Total		$1,188,848 93
Disbursements:		
General and legal expenses	$51,383 38	
Rent and taxes Nesquehoning Valley R. R.	138,000 00	
Rent and taxes Delaware Division Canal	118,867 52	
Taxes chargeable to canals	1,730 25	
Taxes chargeable to coal and coal lands	49,179 89	
Taxes on capital stock	14,131 57	
Taxes on landed property and improvements	12,411 03	
Interest account	923,958 66	
		1,309,612 80
Deficit		$125,763 37

The coal tonnage on the Lehigh and Susquehanna Railroad and Lehigh Canal compared with that for 1878, was as follows, viz:

	1878. Tons.	1879. Tons.
From the Wyoming region	1,048,098	2,002,907
From the Upper Lehigh region, Nescopec Branch	280,606	420,108
From the Hazleton region, via L. V. R. R.	92,976	58,496
From the Black Creek region, via Drifton Branch	315,286	889,473
From the Beaver Meadow region, via Nesq. V. R. R.	284,966	495,500
From the Beaver Meadow region, via L. V. R. R.	10,123	6,794
From the Mahanoy region, via L. V. R. R.	4,175	7,176
From the Lehigh region, L. C. and N. Co.'s lands	425,194	698,131
From Hazard	5,295	.....
From sundry shippers	37,042	79,449
Total	2,503,781	4,158,034
Distributed as follows:		
Delivered east of Mauch Chunk by rail	1,977,022	3,510,061
Delivered east of Mauch Chunk by canal	414,208	456,031
Consumed along the line above Mauch Chunk	59,085	99,170
Delivered to connecting lines above Mauch Chunk	49,016	90,870
Delivered to Lehigh Valley R. R. at Packerton	4,800	1,902
Delivered to Hazard	100	.....
Total	2,503,781	4,158,034
Increase		1,654,303

Of the foregoing tonnage there was shipped by the receivers of the Lehigh and Wilkesbarre Coal Company 2,147,168 tons. The total production of that company was:

	1878. Tons.	1879. Tons.
Of their mines in Wyoming region	948,569	1,763,401
Of their mines in Beaver Meadow region	272,617	416,395
Total	1,221,126	2,179,796

The gross receipts of the company's railroads during 1879 as compared with 1878 were as follows:

	1878.	1879.	Increase.
Passengers & mails	$101,964 12	$118,658 78	$16,691 61
Freight & express	256,542 13	341,771 02	85 228 89
Coal	1,515,546 45	1,953,332 14	437,785 69
	$1,874,052 70	$2,413 761 89	539,709 19
L. C. and N. Co's proportion	$624,684 24	$804,537 27	179,903 03

The large gain in revenue from our railroads is due mainly to the increase of 1,698 299 tons in coal transported, but there was also a gratifying increase in miscellaneous freight and passenger receipts. But for the very low rates of transportation on coal—the lowest in the history of the company—the gain in revenue would have been much larger. The contest among producers to obtain as large a share as possible of a free market after the termination of the agreement of 1878 to restrict production, forced down prices, and transporters were compelled to move the coal at proportionately low rates to continue the mines in operation.

The deficit for the year 1878 was $355,860 60, and for the past year $125,763 37, thus showing a net gain in the business for 1879 over 1878 of $230,097 23. Had the prices of coal averaged for 1879 as high as during either of the ten previous years (not excepting 1877), our revenue would have materially exceeded our fixed charges.

Our canals were opened April 1st, and continued in uninterrupted operation until December 18th. There was an increase of 41,822.16 tons of coal transported. The miscellaneous freight aggregated 207,776 tons, and the tons collected thereon amounted to $35,275 57. During the last three months of navigation the coal tonnage offered exceeded the capacity of the boats running on the canals to transport. Anticipating that there would be full use this year for additional equipment, the Board has contracted for the delivery of 65 new boats, and we are repairing and rebuilding many of our old boats. We expect to have full use this year for all of these boats at remunerative rates.

The production of coal from our Lehigh property was larger during 1879 than in any previous year. We operated five collieries in 1878, and started No. 11 May 5th and No. 5 on September 16th, making in all seven collieries in operation, and No. 4 idle.

The quantity shipped was 700,761 tons. The cost of mining was materially reduced from any previous year, owing to the careful supervision of our Superintendent and Engineer Mr. J. S. Harris, and to improvements in mining and preparing introduced by him.

The very low prices at which we were compelled by competition to sell our product, did not leave much margin for profit, and we derived only $190,622 83 net revenue from our large output.

Our working mines are in excellent condition, and we propose to start No. 4 during the present year, and the eight collieries will have a productive capacity of over 100,000 tons per month.

The amount expended for improvements was

$39,391 81, and for additional equipment, $17,-456 11.

For the purpose of reducing our floating debt, and of providing means to meet other maturing liabilities, the Board made sales during the year of $793,000 of the company's consolidated 7 per cent bonds, at an average of 88 per cent. The improved credit of the company, and the advance in the market price of its securities, enabled the Board to avail of a provision in the lease of the Nesquehoning Valley Railroad, and to reduce the dividends guaranteed by us on the stock of that company. The right was reserved to us in the lease to retire the stock at par at any time after ten years, which expired in November, 1878. We notified the company in July of our desire to avail of this right, and the result of the negotiations that followed was the reduction for five years of the dividends from 10 per cent to 7 per cent per annum from September 1st, 1879, without cost to this company. The rent is thus reduced to $97,-000 per annum—a saving of $11,000 from the amount paid last year.

Reference has been made in several annual reports to 18,900 shares of the company's stock which is part of the capital stock as it appears in the present and in previous balance sheets. The improved condition of the coal trade and the belief that if the company were free from floating debt its revenue would be sufficient in the future to meet all fixed charges and to insure dividends to the stockholders, induced a number of capitalists in this city and New York to open negotiations with us in November last for the purchase of this stock, with a stipulation that enough bonds should be sold to pay the remainder of the floating debt. After mature deliberation your Board came to the conclusion that it was not to the interest of the company to part with the stock, believing that it would increase in value in the future.

The floating debt was at the close of the year one million of dollars, and there remain in the hands of the company $1,108,050 consol. 7 per cent bonds in addition to the 18,900 shares of stock.

The first installment of the debenture loan extended in 1877 matured and was paid on 10th December.

The unexpectedly large demand for coal during the last few months of 1879, which taxed the utmost capacity of producers to supply, and which raised the output for the year to over twenty-six millions of tons, affords good grounds for the belief that consumption has at last overtaken production, and that we may expect a full demand and remunerative prices during 1880 and thereafter. With the present capacity of our railroads and canals to transport, and our colliers to mine, it requires, with steady and full business, only fairly remunerative prices to yield satisfactory returns to our stockholders.

By order of the Board of Managers.

E. W. CLARK, President.

Foreign Trade of Philadelphia.

The imports at the port of Philadelphia for the year 1879, according to the figures supplied by the Collector, amounted to $27,218,952; and the exports to $50,585,838—a total of $77,904,790 In 1878 the imports amounted to $21,048,197; and the exports to $48,862,116—a total of $69,-410,313; showing an increase in imports of $6,-170,775; and in exports of $2,323,722—a total increase of $8,494,477. The customs receipts in 1879 were $10,453,069; in 1878, $7,803,337—increase, $2,649,732. The number of vessels arrived from foreign ports in 1879, was 1,911, and the tonnage 1,444,455; do. coastwise, 6,144, and the tonnage 2,149,996. The arrivals from foreign ports at the Delaware Breakwater in 1879 were: 251 steamers, 272 ships, 1,122 barks, 265 brigs and 312 schooners—a total of 2,222. The total amount of grain exported from the port of Philadelphia during the year 1879, as stated by Mr. A. J. Cassatt, Third Vice President of the Pennsylvania Railroad Company, was 31,887,851 bushels, and the total amount of oil exported during the same period was 1,726,118 barrels.

Central Iowa Railway.

The Boston Transcript says that the reorganization scheme, agreed upon about four years since, is progressing favorably, and a new corporation is formed called the "Central Iowa Railway Company," and then adds:

The first mortgage bondholders continue in possession of their bonds, and receive first preferred stock for three years' arrears of interest up to Jan. 14, 1876; afterward, and for the period of five years, until Jan. 15, 1881, the bondholders take the net income of the road in lieu of interest. These bonds amount to $3,700,000, and the interest, which goes into the first prefered stock, to $907,000. The net income of the road since 1876 has not yet been determined. It is said that it may amount at the maximum to half a million dollars, which may be paid in an income bond. The old second mortgage bonds, amounting to $925,000, go into a second preferred stock, together with three years' interest (5 years' interest to Jan. 15, 1881, is wiped out), making $1,167,800 of second preferred stock. This is a total of $5,-774,800 of first-mortgage bonds and preferred stocks bearing 7 per cent. The floating debt has been paid off, and the old common stock is to be reduced from $4,920,000 to $1,600,000, one share of new stock being given for three of old. The stock selling at 12½ is the old common, worth one-third of the new, which sells at just 36. The time for the exchange of stock expired last week, and the new stock has just begun to be quoted. The second-mortgage bonds now sell at 61. For each $1,000 bond $1,210 in second preferred stock will be given a few weeks hence, thus making the cost of this stock but 50, as compared with the common at 36. The first-mortgage bonds (with the three years' interest coupons, to go into first preferred stock, attached), sell at 115. There is also attaching to this security, the net earnings of the road up to 1881, which, if they amount to $500,000, will be 13 per cent more on these bonds. The net earnings of the road in January were $35,000, and net earnings of $30,000 per month might be the average for the year. It will take $259,000 to pay the interest on the first-mortgage, $68,490 to pay the interest on the first preferred stock, thus leaving $36,510 or about three per cent on the new second preferred stock. The road-bed and track are in good condition, one-third of the latter being steel, but more and better rolling stock is needed.

☞ The holders of certificates of stock in the Union Pacific Railroad Company are reminded that if they intend to participate in the meeting of the Union Pacific Railway Company on the 10th of March they should by exchange provide themselves with certificates in the new company. The transfer books close on the 28th of February.

☞ A Uniontown (Penn.) paper says that several immense coal and coke companies have purchased coal lands in Fayette county recently and the time is not far distant when a railroad will run up every ravine. It is estimated that Fayette county is worth four million dollars more than she was six months ago.

☞ On the 10th of February the track of the Southern Pacific Railroad was 23 miles east of Casa Grande, and about 40 west of Tucson. The company hopes to have the road completed to Tucson about the 4th of March.

☞ The Philadelphia Record says that the Pennsylvania Railroad Company will build the ten-mile extension of the Swedesboro' Railroad to Woodstown, Salem county, N. J., and furnish the rolling stock, if those interested will secure the right of way.

☞ The Quebec Government has appointed Walter Shanley cammissioner, Mr. Seneeal general manager, and Mr. Light engineer, of the North Shore Railway.

Partner Wanted.

WITH A CAPITAL OF $10,000, IN A HIGH-TONED business; must be a gentleman of education, good address and unquestionable integrity. Address UNIQUE OPPORTUNITY, at the office of the AMERICAN RAILROAD JOURNAL, 31 Park Row, New York.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, Feb. 19, 1880.

DIVIDEND NO. 6.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Monday, March 1, prox., at the office of the company. Transfer books will close on Wednesday, Feb. 25th inst., and reopen Tuesday, March 2, 1880.

Also an extra dividend of five cents per share to shareholders of date of February 25th inst.

Statement of the financial condition of the company:

	Cash capital	$100,000 00
Dec. 31, 1879.—Balance surplus account. Cash and construction		45,389 16
Jan. 31, 1880.—Net receipts for month of January		25,154 59
		$170,543 75
Dividend of 7½ cents per Share, 200,000 Shares	$15,000 00	
Extra dividend of 5 cents per Share, 200,000 Shares	10,000 00	
		25,000 00
Balance cash and construction		$145,543 75

W. B. ALLEN, Assistant Secretary.

CHRYSOLITE SILVER MINING CO.

ROOMS NOS. 51 TO 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK.

THE BOARD OF TRUSTEES HAVE DECLARED a regular monthly DIVIDEND (No. 4) of TWO PER CENT on the $10,000,000 capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000), or ONE DOLLAR PER SHARE out of the fourth month's net earnings, payable at the Central Trust Company, on the 25th February.

Transfer-books will close February 22, and reopen February 27. DRAKE DE KAY, Secretary.

LITTLE CHIEF MINING COMPANY.

ROOMS NOS. 51 TO 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK, Feb. 14, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 1) of ONE Per Cent. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to ONE HUNDRED THOUSAND DOLLARS ($100,000,) or Fifty Cents per Share, out of the net earnings, payable at the Central Trust Company, on the 25th inst.

Transfer-books will close February 21st, and re-open February 26th. DRAKE DE KAY, Secretary.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, Jan. 22, 1880.

A DIVIDEND OF THREE (3) PER CENT. has been declared by this company, payable on the 1st day of March next to the holders of its capital stock as registered at 2 p. m. on the 12th of February next, after which, and until the 4th of March, the transfer books will be closed.

L. V. F. RANDOLPH Treasurer

Northern Railway of Canada.

At the annual meeting of the shareholders of the Northern Railway Company of Canada held at Toronto on the 18th inst., the report of the Canadian directors for the year ending December 31, 1879, was presented. From this we learn that an arrangement, which had been previously entered into between the directors of the respective companies for the working by this company of the Hamilton and Northwestern Railway for a term of years, was ratified by both companies at special general meetings held on the 10 h of June.

That arrangement took effect July 1, 1879, when under its provisions a Joint Executive Committee, composed of four representatives from the board of each company (with the managing director of the Northern as chairman, ex officio,) took office, and the combined undertakings have since been worked under that authority.

The valuers appointed under the powers of the agreement for that purpose valued the movable and consumable property of the Northern Railway Company at that time at $631,912 21 ; and of the Hamilton and Northwestern Railway Company at $203,424 03—a total of $335,336 24.

As the control of all receipts and expenditures passed to the Joint Executive Committee on the 1st of July, the report for the year is divided into two periods, one terminating on the 30th of June and the other on the 31st of December.

The gross earnings for the first half year, ending June 30th, amounted to $290,418 91, the working expenses to $206,116 80, and the net revenue to $84,302 02, which was duly appropriated to account of interest dividends on the debenture debt.

For the second half year, ending December 31, the gross earnings of the combined system amounted to $603,831 37, the working expenses (being at the rate of 57.66 per cent) to $347,888 73, and the net revenue to $255,442 64. Against this sum is to be charged the special expenditure incident to the agreement for joint working, and to such works and supplies as were necessary to put the same in operation, and to provide for the efficient interchange and transfer of traffic between the two systems. These expenses, which have now ceased, amounted to $15,420 53, of which 25 per cent $3,855 13 has been charged against this half-year, a similar half-yearly charge having been authorized until the whole shall have been covered. The balance of net revenue available for appropriation to dividend has been $251,587 51, (£51,696 1s. 6d. sterling), and as, according to the agreement of the 6th of June, 1879, no final decision of net revenue can be made until 30th June, 1880, this sum has been carried over to the next half year, interim advances to the two companies having been made on account to the extent of their respective dividend liabilities upon all classes of their debentures, together amounting to the sum of £46,569, and therefore showing a surplus balance of £5,127 1s. 6d. sterling to the credit of 1880.

The issue of the company's five per cent first mortgage bonds has been completed, the proceeds of which and of the six per cent preference stock has enabled the company to extinguish its floating debt on capital account, created by the amalgamation of the Muskoka and North Grey Railways, by the redemption of the lien of the Government of the Dominion upon the properties of the company, and by extensive additions to the rolling stock and other equipments of the lines ; and the directors regard with satisfaction the relief which these measures will secure to the operations and revenues of the undertaking.

The report says that the operation of the North Simcoe branch under lease has been satisfactory, and a heavy and remunerative lumber traffic has been assured. The development of the line would, however, be greatly promoted by its acquisition by this company, under the option and favourable terms still open.

After the adoption of the report, a resolution was passed authorizing the directors to assent to an issue of debentures not exceeding $10,000 a mile, exclusive of sidings, on the main line of the North Simcoe Railway ; not more than $6,000 per mile to be made till the conditions of the issue shall have been confirmed at a general meeting of the Northern Company.

The following gentlemen were elected directors : from Toronto—Frank Smith, Wm. Thomson, Noah Barnhart, J. L. Blaikie, George Greig and F. W. Cumberland. To represent English stockholders—Sir Henry M. Jackson, Bart., Right Hon. W. H. Smith, and Wm. Ford of London, England. John Fisken was declared elected to represent the shareholders. At a subsequent meeting of the directors Hon. Frank Smith was re-elected President, and Sir Henry M. Jackson, Vice President. Fred. Cumberland is General Manager and Walter Townsend Secretary of the company.

New York, Lake Erie and Western R. R.

The gross earnings, working expenses and net earnings of the New York, Lake Erie and Western Railroad for the month of December, 1878 and 1879, was as follows :

	1878.	1879.
Gross earnings	$1,206,755 02	$1,398,244 55
Working expenses	900,029 16	1,048,476 65
Net earnings	$305,725 86	$349,767 90

—showing an increase in gross earnings of $192,489 53, in working expenses of $148,447 49, and in net earnings of $44,042 04.

From October 1 to December 31, 1879, the earnings, expenses, etc., were :

	1878.	1879.
Gross earnings	$4,060,678 71	$4,627,777 06
Working expenses	2,617,384 28	3,004,089 82
Net earnings	$1,443,294 43	$1,623,687 74

—showing an increase in earnings of $567,098 35, in expenses of $386,705 04, and in net earnings of $180,393 31.

American Watches.

The American Watch Co., of Waltham, Mass., recently received an order from the British Government for 372 watches intended for the use of conductors, engineers, station masters, and other employes of the State railroads of India. Referring to this order the London Jeweller and Metal Worker, in its issue of 15th January, says ;

This is the third time Messrs. Robbins and Appleton have received this distinction, which is not a barren one, for it must be evident to the most prejudiced individuals that the time keepers supplied on the previous occasions must have given satisfaction, and answered the tests required of them. This is a mortifying fact for Englishmen, especially for those who believe that were manufacturers here to show more enterprise they would be able to compete more advantageously in the manufacture of all grades of watches.

Illinois Central Railroad.

During the month of January the traffic on the lines operated by this company was:

In Illinois	$417,236 00
In Iowa (Leased Lines)	119,421 00
Total	$536,657 00

The traffic for the same month in 1879, on the same mileage, was :

In Illinois	$475,891 05
In Iowa (Leased Lines)	104,301 04
Total	$580,192 09

During January, 1880, the land sales were 3,840.60 acres for $24,651 19 and the cash collected on land contracts was $15,506 02.

New York, February 12th, 1880.

L. A. Catlin, Secretary.

N. B.—A dividend of $3 00 per share will be paid March 1st.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of January, 1880 and 1879 :

Gross receipts:	1880. Month.	1880. Year to date.
Railroad traffic	$1,239,176 99	$2,564,957 40
Canal traffic	L 2,284 21	29,227 02
Steam colliers	75,762 20	144,698 89
Richmond coal barges	8,434 04	19,792 68
Total Railroad Co.	$1,316,089 02	$2,758,675 99
Reading Coal & Iron Company	590,317 96	1,396,334 01
Total of all	$1,906,406 98	$4,155,010 00
Tonnage and passengers:		
Tons of coal on railroad	484,116 11	1,137,306 03
Tons of merchandise	460,469 02	927,006 08
Passengers carried	763,413	1,489,916
Coal transported by steam colliers	45,504 00	90,092 00
Tons of coal mined :		
By Coal and Iron Co.	236,375 15	552,420 06
By tenants	69,142 16	180,727 07
Total mined from lands owned and controlled by Co. & from leasehold estates	305,518 11	733,147 13

Gross receipts:	1879. Month.	1879. Year to date.
Railroad traffic	$900,482 43	$1,711,373 14
Canal traffic	L 2,579 77	7,776 84
Steam colliers	59,332 16	105,361 77
Richmond coal barges	L 20 00	14,359 14
Total Railroad Co.	$957,214 82	$1,838,870 89
Reading Coal and Iron Co.	430,054 94	1,006,695 99
Total of all	$1,387,269 76	$2,845,566 88
Tonnage and passengers:		
Tons of coal on railroad	451,697 12	824,867 05
Tons of merchandise	262,391 09	500,508 17
Passengers carried	532,858	1,008,462
Coal transported by steam colliers	84,361 00	78,263 00
Tons of coal mined :		
By Coal and Iron Co.	208,188 17	422,235 04
By tenants	84,387 11	142,072 12
Total mined from lands owned and controlled by Co. and from leasehold estates	292,576 08	564,307 16

Annapolis and Baltimore Railroad.

The Mayor of Annapolis, Md., in his annual message referring to the Annapolis and Baltimore Short Line Railroad, says:

The advantages of such a road are incalculable to our city, and the efforts of the projectors of the enterprise should receive all the moral and material support our citizens are able to give. By the construction of such a highway our harbor, our climate and the beauty of our location would at once attract the attention of capitalists, and our city will become a busy mart of trade, and gather within its limits a wealthy, enterprising and prosperous class of people. It would develop our oyster, fish and crab trade, which now languishes for want of quick transit to the West, and give employment and remunerative wages to the laboring classes.

The question of indorsing the bonds of the proposed road to the amount of $200,000, will be considered at the next meeting of the city council, and it is generally believed the council will vote to subscribe the necessary bonds, as requested by the projectors of the road.

☞ The approximate earnings of the Atchison, Topeka and Santa Fe Railroad for the month of January, 1880, were $473,500; actual earnings for corresponding month in 1879, $314 732—increase, $158,768. Actual land sales for the month of January, 1880, $55,000; actual land sales for corresponding month in 1879, $39,529 64—increase $15,470 36—1172 miles were operated in 1880, against 867 miles operated in 1879.

☞ We are in receipt of a pamphlet containing the argument of Mr. Franklin B. Gowan, President of the Philadelphia and Reading Railroad Company on the Reagan Inter-State Commission bill, which is a very able presentation of the case of the railroad, while it lets in some light on the relations of the Trunk Lines to the Standard Oil monopoly which are of interest to the Assembly Committee of this State.

☞ The New Jersey Midland Railroad which was sold at Jersey City on the 21st inst., was bought in behalf of the bondholders by Charles Parsons, chairman of the reconstruction committee, for $2,500,000. By the decree of the Chancellor the purchasers are allowed thirty days to perfect the reorganization of the company. The purchase money was paid in cash. The ultimate control of the road is a matter of speculation.

☞ Subscriptions from the stockholders of the Texas and Pacific Railroad Company for $2,000,000 of the bonds of the company, the proceeds to be used for the extension of the road, were opened at Philadelphia on the 19th inst., and were found to aggregate $5,641,000.

☞ A valuable gold deposit, five feet in width, has been discovered in the township of Madoc, Ontario, near Fetterby's mine. It has been opened and is now being worked by capitalists from Buffalo.

☞ The Pittsburgh, Virginia and Charleston Railroad is now graded and ready to receive the ties from Monongahela City to Brownsville. The road will be completed as soon as the rails can be procured.

☞ Charles S. Sargent, of Brookline, Mass., has been elected a director of the Boston and Albany Railroad Company, in place of Ignatius Sargent resigned.

NEW YORK.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending February 14, as reported by the several carrying companies, amounted to 381,323 tons, against 390,938 tons in the corresponding week last year, a decrease of 9,615 tons. The total amount of anthracite mined for the year is 2,410 366 tons, against 1,945 941 tons for the same period last year, an increase of 464,425 tons. The quantity of bituminous coal sent to market for the week amounted to 40,365 tons, against 56,718 tons in corresponding week last year, a decrease of 16,353 tons. The total amount of bituminous mined for the year is 485,115 tons against 307,891 tons for the corresponding period last year, an increase of 177,224 tons. The total tonnage of all kinds of coal for the week is 421,688 tons, against 447,656 tons in corresponding week last year, a decrease of 25,968 tons, and the total tonnage for the coal year is 2,895,481 tons, against 2,253,832 tons to same date last year, an increase of 641,649 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of February was 139,498 tons, of which 113,314 tons were coal and 26,184 tons coke. The total tonnage for the year thus far has been 839,972 tons, of which 639,089 tons were coal and 200,883 tons coke. These figures embrace all the coal and coke carried over the road east and west.—[Phil. Ledger, Feb. 23.

Damages for Injury to Employe.

The Detroit Tribune of 19th inst. says that the case of John L. Smithson against the Michigan Central Railroad Company, which had been on trial in the Superior Court in that city for several days, was concluded with a verdict for the plaintiffs for $5,000 damages, and then adds:

Smithson was a yard man in the Michigan Central yard, and his arm and hand were caught between the bumpers of two freight cars, and he was so badly injured as to be incapacitated from further labor. The cars were Erie cars, and were provided with "dead-woods," a device which is considered extremely dangerous, and which has been discarded by the Michigan Central on its own cars. The plaintiff was not aware that the cars in question had "dead-woods," and before he knew it his hand and arm were caught, he slipped, and was dragged along the track and had a narrow escape from being killed. Counsel for plaintiff claimed that it was gross carelessness on the part of the railroad company to make use of such cars, and that, therefore, it was liable for the injury to its employe The case will undoubtedly go to the Supreme Court.

☞ At the Annual Meeting of the Stockholders of the Schuylkill Navigation Company, held in Philadelphia on the 10th inst., the Annual report of the directors was presented showing that the lessee of the canal, the Philadelphia and Reading Railroad Company, had paid their annual rental of $636,736 56, which had been disbursed in the payment of interest on loans and bonds, dividends on stock, etc. The officers of 1879 were re-elected for the ensuing year.

☞ The Pennsylvania Railroad Company have commenced work on the south side of the Yough river, below Connellsville, between a point opposite Hickman run and the village of Alexandria, on a projected railroad leading from Scottdale via Dawson to the Dunbar and Franklin coal fields, the finest in the coke region.

☞ The election for directors of the Kingston and Pembroke Railway, which took place at Kingston, Ont., on the 11th inst., resulted in the choice of R. P. Flowers, New York; J. Tillinghast of the New York Central and Hudson River Railroad; H. H. Porter, Chicago, St. Paul and Minneapolis Railway; G. W. Flowers, Watertown, and five local gentlemen.

Peoria, Decatur and Evansville Railroad.

The officers of the Peoria, Decatur and Evansville Railroad Company, which was recently formed by a consolidation of the Pekin, Lincoln and Decatur and the Decatur and Evansville Railroad companies give notice that they have purchased the Grayville and Mattoon Railroad, and propose to issue additional stock to the amount of $1,500,000 to pay for it. The purchased road has a franchise between the two towns in Illinois after which it is named, a distance of 93 miles, but has been completed only from Mattoon to Parkersburg, 71.25 miles. According to the last report its paid up capital was $1,137,500, (subscribed, $1,885,000,) and its funded debt $750,000. The capital of the purchasing road is $2,000 000 already, and it has a first mortgage debt of $1,287,000, and an income debt of $858,000. The lengthened line runs almost parallel to the Illinois division of the Ohio and Mississippi Railroad.

Millers's Car-Coupling Patent.

Final arguments were made before the House committee on patents on the 6th inst. upon the application of Ezra Miller for an extension of his car coupling patent. The committee by a vote of 7 to 3 decided adversely to his petition, on the ground that seventeen years—the length of time his patent has run—is the limit contemplated by the act of 1861, and that the general policy of the government is adverse to extending patents beyond that period.

☞ At the annual election of the Delaware, Lackawanna and Western Railroad Company, held in this city on the 24th inst., the following ticket was unanimously elected: President, Samuel Sloan; Secretary, Frederick F. Chambers; Treasurer, Frederick H. Gibbens; Managers, William E. Dodge, Moses Taylor, George Bulkley, John I. Blair, Simeon B. Chittenden, George Bliss, Percy R. Pyne, William Walter Phelps, Wilson G. Hunt, Alfred L. Dennis, William Ryle, E. W. Halbrook, E. S. Higgins and R. G. Clarke. Moses Taylor Pyne was placed in charge of the law department of the road.

☞ As an instance of the sagacity of some railroad managers in taking advantage of the late low prices of material it may be mentioned that the Southern Pacific Railroad Co. the one building the road along the 32d parallel route from San Francisco eastward, purchased during the past year railroad ties for 350 miles of its road. It is estimated that the steel rails alone could be disposed of now for more than a million dollars over their cost price.

☞ The stockholders of the Franklin Mining Company have voted to increase the capital stock of the company to $1,000,000 and the number of shares from 20,000 to 40,000. A letter received from the agent at the mine states that the whole mine is showing well and is in a very prosperous condition.

Office 60 Broadway, N. Y.

A. G. DAY,
MANUFACTURER OF
Kerite Insulated Telegraph Wire and Cables.
FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY
has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.
Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS
commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, March 5, 1880.

M. de Lesseps and His Canal Growing in Favor.

If there was doubt as to the feelings of the people of this country, and especially of New York, towards M. de Lesseps and his canal scheme before his arrival in this city, it certainly is being rapidly removed by the reception and encouragement he has been continuously receiving since he came among us and explained his plans and purposes more fully. Representatives of all classes, and especially of the mercantile community whose interests are the most directly affected, have come out formally and endorsed his scheme. Geographical societies and engineers have entertained this honored guest in an unusually enthusiastic manner that is a practical endorsement of his scheme by thus warmly endorsing the man whose visit is openly one for the advancement of its interests. Indeed at all his receptions he is invited to advocate them; and the proverbial magnetism of the Frenchman of whom M. de Lesseps is a formost representative, is rapidly doing his work of winning over the American people's opinions in favor of his plans. His diplomacy is also doing what personal magnetism fails to perform. The latter serves him with those he meets, while the former takes all who read his public addresses. Thus in a short week he is doing more by sheer personal will and effort than all the Committees in Congress to influence American public opinion. This accomplished, the road to the American pocket is much clearer, and it will not surprise us to see subscriptions pouring in upon him here as soon as his plans are perfected for financial aid in Paris. In this connection it is suggestive to notice how General Grant's canal and its advocates have dropped into the background since the arrival of M. de Lesseps.

If, then, American opinions and pockets shall thus early be won over to M. de Lesseps' scheme, we do not see how Congress is going to interfere with his carrying it into effect without an open violation of international law with France with which we should thus be brought into open conflict at the outset with the world on the side of France against us, and the American people and capitalists on the side of M. de Lesseps against any administration which should force such an issue. As we said in a recent number, we do not see how our Government can interfere since it let M. de Lesseps steal the march of it upon the Isthmus in getting control of the Panama Railroad, and the more gracefully it now submits, the less will it advertise its stupidity in being outwitted single handed by an individual who thus takes out of our Government's hands a work it should have taken under its patronage at the beginning. The only way now open for keeping the proposed canal under American control and influences as far as we can see, is by owning it, and as M. de Lesseps' route is shown to be the most, if not only practicable one, and under a management that means to build it instead of talk about it for political or other effect, we cannot see why the bulk of the money should not be raised here for the enterprise and thus furnish a legitimate outlet for millions now invested in speculation to the curse of the real business of the country, and at the same time maintain the Monroe doctrine by purchasing the canal in advance rather than spend more in the end quarreling over it, with the possibility of war with an old friend and our sister Republic France.

The Telegraph Monopoly Broken.

The acquisition by the new American Union Telegraph Company of the wires of the Western Union and Atlantic and Pacific monopoly on the lines of three important railroads during the past week, has broken completely the exclusive right of telegraphic connections throughout the United States by the latter company and its leased lines. Already the Dominion Telegraph Company's lines of Canada had given it complete Canadian connections, and the new French cable had equally connected the new American Union with Europe. Having thus secured its foreign connections in advance and completed its own lines to the great commercial centers between which the Western Union lines gave the only connection, the new company was ready for the *coup de 'tat* of Saturday by which it acquired at a blow three great internal systems of telegraph lines by which it gets connections with most important points north of the Ohio River between the Missouri River and the seaboard excepting the New England States, while it has a virtual monopoly of all lines west of the Missouri River to the Pacific ocean, since the Western Union foolishly refused to interchange business with the new company. These systems are the Union and Kansas Pacific Railway lines and the Baltimore and Ohio

Railroad lines, by means of the last of which it will eventually make connections with the south and southwest. We are also informed that the American Union has already a contract with the Pennsylvania Railroad for the transfer or operation of the lines under its control. Thus it will be seen that full fledged competition is once more offered the public which has suffered so severely since the amalgamation of the Western Union and the Atlantic and Pacific companies. The public are therefore to be congratulated upon the event, as restoring cheap telegraphing once more, without government interference, which will come sooner or later unless we can have competition without. That the great railroads should be so ready to turn their lines over to the new company is not due so much to Mr. Gould's interest in them and the new telegraph company, as to the fact that the Trunk line managers have always chafed at Vanderbilt's control of the Western Union by which he could become acquainted (if he chose to violate the secrecy of messages of rival railroads over this line) with all their secrets, and use them against themselves in his management of the New York Central Railroad. Hence they are the more ready to assist the new line as it relieves them of this danger. This new opposition is therefore a blow at the whole Vanderbilt interest, that will no doubt be reflected in the prices of his stocks before long, and hence his unloading lately, which we explained in our last issue.

Prospects for the Non-Assenting I., C. & L. R. R. Stockholders.

We extract from a letter of Judge Hoadly, Chairman of the Purchasing Committee of the Indianapolis, Cincinnati and Lafayette Railroad, to the editor of this JOURNAL, his explanation regarding the foreclosure and sale of said road and also the prospects of the non-assenting stockholders under the reorganization scheme. We quote as follows from the letter:

Under any circumstances, the amount of bonded debt and past due coupons was largely in excess of any possible value of the property. The amount we offered the stockholders was therefore very small, the real owners of the property being the foreclosing bondholders, whose claims, including past due coupons, amount to nearly $5,000,000, who pay $600,000 in cash to take up coupons on earlier incumbrances to the amount of $7,500,000 and subject to the litigated canal claims.

The Purchasing Committee did all they could to notify the stockholders of this opportunity to secure a small interest in the property, and were much diaappointed that the course of speculation in Wall street induced so many stockholders to abstain from surrendering their securities. It is our purpose to recommend to the new company (our own power being exhausted) to make a small concession to the non-assenting stockholders. This may not be adopted, but I think it will be—and I hope it will be found satisfactory, but under the circumstances of the case, it must be exceedingly small. Yours very respectfully, GEO. HOADLY.

In regard to the reasons why the stockholders refused to assent to the reorganization scheme, we have already published the fact that they were advised not to do so, as the terms offered were about equivalent to a forfeiture of the old stock, and the holders chose to keep it and run their risk of losing it entirely. This we still think was the true reason for their not coming in rather than the speculation in Wall street, as Judge Hoadly suggests. Be that as it may we know of a stockholder who offered to the friends of the reorganization to deliver 1,000 shares of the new stock when issued at a price nearly equivalent to the cash assessment proposed on the stockholders under that scheme, and it was not taken. At all events, the prospects of a concession to the stockholders to be made as intimated in the close of the Judge's letter would seem to afford a way out of the difficulty which will otherwise arise between the stockholders of the old company and the new and end in costly litigation that should be avoided if possible as it will cost the new company less to do this than to fight it, and keep the new securities they wish to float, under a cloud for years.

To avoid this, however, the sooner this concession is proposed by the new company the better, before steps shall be taken to contest the sale and reorganization under the year's right of redemption given the old stockholders under the laws of Indiana until the expiration of which right and contests under it, the securities of the new company cannot become current. Let this proposed concession be made therefore at once, and let the stockholders know what it is, and that it is something better than the terms offered them under the reorganization scheme, or it is doubtful if it will be accepted, and for the same reason. If it is to be "very small" as the Judge says, then let it be without cash assessment of the old stock; for while it would be surrendered for a reasonable amount of new stock involving no cash advanced, the holders would no doubt prefer to contest the reorganization than to put new money into the new stock whose value on the Judge's showing above would be in the future.

Pennsylvania Railroad.

From the report of this company, prepared for presentation at the annual meeting of the stockholders to be held in Philadelphia on the 9th inst., we learn that the gross earnings on the Pennsylvania Division, Main Line and Branches, Pittsburg to Philadelphia, for the year ending December 31, 1879, were $21,743,628 31, the expenses $11,751,620 55, and the net earnings $9,992,007 76. To which add interest on investments, etc., $2,513,198 21, making a total of $12,505,205 97. From which deduct payments for leases and rentals, interest on bonded debt, etc., $5,022,725 49, leaving as net earnings the sum of $7,482,480 48. Compared with the previous year there is an increase in gross earnings of $1,426,488 45, with an increase in expenses of $830,517 29, making the increase in net earnings $595,971 16. There was an increase in interest from investments, equipment, etc., of $392,330 63, and a decrease in interest on bonded debt, etc., of $169,714 18—making the increase in the net income of the company over 1878, $1,158,015 97.

The gross earnings of the United New Jersey Railroad and Canal Company, including Belvidere Delaware Railroad and Flemington Branch, during 1879, were $9,784,743 05, the expenses $6,500,861 53, and the net earnings $3,283,981 52. To which add interest from investments $211,239 54—making the total net earnings $3,495,221 06. The amount disbursed for dividends, interest, etc., was $4,435,110 15—showing a net loss of $939,889 09. Compared with the previous year the gross earnings show an increase of $1,386,308 82, with an increase in expenses of $997,919 91, making the increase in net earnings $388,388 91. From which deduct decrease in cash received from investments, $85,280 56, making the total increase $303,108 35. There was an increase in payments on account of dividend, interest, etc., of $106,222 28—making the net loss in operating the New Jersey division $196,886 07 less than in 1878.

Deducting the net loss from operating the New Jersey Division from the net income of the Pennsylvania Division, as shown above, leaves a balance of $6,512,591 39. From which deduct advances made to companies east of Pittsburg $802,780 41, payments to Trust Fund, $600,000, and payments to consolidated mortgage Sinking Fund, $243,460—leaving balance to credit of Income account $4,896,350 98; out of which was paid dividends of 4½ per cent, $3,099,159—leaving amount to be transferred to credit of profit and loss account for 1879, of $1,797,191 89; to this is added $4,057,815 14 to credit of that account December 31, 1878, and $122,840 18, realized from old accounts, making a total of $5,977,847 30. From this there has been deducted $100,000 for consolidated mortgage bonds redeemed during the year 1878; $100,000 paid in 1878 to the fund for the purchase of securities guaranteed by the Pennsylvania Railroad Company, under trust created Oct. 9, 1879; and $1,596,773 97 for reduction in value of securities, etc.—leaving $4,181,073 33 to the credit of profit and loss December 31, 1879, a gain during the year of $123,258 19.

The gross earnings of the Philadelphia and Erie Railroad in 1879 were $3,091,807 81, the expenses $2,130,258 07, and the net earnings $961,549 74. Deduct interest charged for use of equipment, etc., $163,049 04—leaves net amount applicable to pay interest $798,500 70, which amount was paid to the Philadelphia and Erie Railroad Company as rental. Compared with 1878, the gross earnings show an increase of $170,147 32, the expenses an increase of $85,309 24, and the net earnings an increase of $85,438 08. The amount applicable to payment of interest shows an increase of $113,993 56.

The gross earnings of all lines east of Pittsburg and Erie for the year 1879 were $34,620,279 17, expenses $20,382,740 15, rental and interest on equipment $2,129,010 50, and net earnings $12,108,528 52. For the year 1878, the gross earnings were $31,636,734 58, expenses $18,468,993 71, rental and interest on equipment $1,684,190 36, and net earnings $11,483,550 51—showing an increase in gross earnings of $2,983,544 59, an increase in expenses, etc., of $2,358,566 58, and an increase in net earnings of $624,978 01.

The number of tons of freight moved over the lines east of Pittsburg and Erie in 1879 was 24,970,672, against 19,121,977 in 1878, an increase of 5,848,695. The number of tons carried one mile was 3,061,478,249, against 2,431,807,656 in 1878, an increase of 629,670,593.

The number of tons of freight moved in 1879 over the main line and branches, including 773,461 tons of fuel and other materials for the company's use, was 14,457,502, embracing 6,379,995 tons of coal. For the previous year 11,627,228 tons were moved, showing an increase of 2,830,274 tons, or 24.3 per cent, while the increase in coal tonnage was 1,372,184 tons. Of the 13,684,041 tons moved on the line and branches in 1879, 2,076,540 were through and 11,607,501 local freight.

The number of passengers carried on all lines east of Pittsburg and Erie for the year 1879 was 13,602,401, against 12,792,305 in 1878, an increase of 810,096. The total mileage of passengers was 314,260,989, against 292,785,524, an increase of 21,535,465.

The total earnings of the lines owned or controlled by the company west of Pittsburg and operated by the Pennsylvania Company, in 1879 were $25,742,296 50, the expenses $15,305,533 56, and the net earnings $10,436,762 94. In 1878, the earnings were $23,790,228 35, the expenses $15,184 805 11, and the net earnings $8,605,423 24. From the net earnings of 1879 $8,612,674 54 is deducted for rentals, interest, dividends, etc., leaving a net profit of $1,824,088 36. The deduction for like purposes in 1878 of $7,621,234 47, leaves a net profit of $984,188 77.

The other lines west of Pittsburg in which this company has an interest, but which are worked through their own individual organizations, show a loss after the payment of interest and rental of $568,510 90, of which this company is responsible for $141,762 24, which deducted from the net earnings, as stated above, leaves a net profit on all the lines west of Pittsburg of $1,682,326 12, against $716,520 07 in 1878, showing a gain of $965,896 05.

The number of tons moved on all lines west of Pittsburg in 1879 was 20,166,334 ; do. moved one mile, 2,272,716,185. In 1878 the number of tons moved was 16,871,837, and the number moved one mile, 1,814,100,152.

The number of passengers carried on all lines west of Pittsburg in 1879 was 8,261,565, do. carried one mile, 267,515,697. In 1878, the number of passengers carried was 8,041,674, and the number carried one mile 247,275,166.

The gross earnings of all lines operated east and west of Pittsburg in 1879 were $60,362,575 67 ; and the gross expenses, excluding rentals, interest, dividends, etc., were $35,639,794 99—showing net earnings, $24,722,780 68. In 1878 the gross earnings were $55,426,962 93, the expenses $33,611,034 09, and the net earnings $21,815,928 84.

The number of tons of freight moved on all lines east and west of Pittsburg in 1879 was 45,137,006 ; and the number moved one mile, 5,334,194,434. In 1878 the number of tons moved was 35,993,814, and the number moved one mile 4,215,907,808.

The number of passengers carried on all lines east and west of Pittsburg in 1879 was 21,863,966 ; and the number carried one mile 583,776,686. In 1878 the number carried was 20,833,979, and the number carried one mile 540,000,690.

The amounts expended for construction, equipment and real estate during the year were $1,258,778 24 ; and there will probably be expended for the same purposes during 1880 the sum of four and a half millions of dollars. This will represent :

First. The estimated outlay upon the Filbert Street Extension, $2,500,000, of which $1,000,000 can no doubt be provided through mortgages upon the real estate purchased in connection therewith ;

Second. The cost of straigthening the Main Line, east of Downingtown, completing the Schuylkill Front Line, the Navy Yard piers at Philadelphia, and the Hospital Bridge at Pittsburgh, $375,000 ;

Third. The cost of completing the elevator and other improvements at Harsimus, Jersey City, $475,000 for which your company will receive, under the terms of the lease, capital stock of the United Railroads of New Jersey ;

Fourth. The cost of new tracks, stations and right of way upon your Main Line and New Jersey Division and Branches, $775,000 ; and

Fifth. The cost of additional passenger equipment, etc., $375,000.

The funds required to meet these expenditures beyond the amounts to be realized as aforesaid, can no doubt be provided out of assets in your treasury.

The debt due to the State of Pennsylvania on account of the purchase of the Main Line was reduced during the year by the payment of $246,147 68, which was charged to Capital Account. The balance of the $460,000, representing the interest upon the amount due for 1879 to the State, was charged directly to Income Account.

The bills payable of the company at the close of the year amounted to $1,040,000, but have since been reduced to $440,000. By reference to the Treasurer's account, it will be found that the cash balance on hand exceeded the whole amount of floating debt appearing therein.

Under the provisions of the Consolidated Mortgage of the Company there was set apart, on the first day of July last, out of the net income, the sum required for the purchase of outstanding bonds secured by that mortgage, and entitled to the security of the covenants therein in relation to a sinking fund. Bonds of the par value of $243,460 were thus purchased, and, after being cancelled, were delivered to the trustees under the stipulations of said mortgage. This reduction appears in the Treasurer's General Account.

In order to provide for the payment at maturity, on December 31, 1880, and the cancellation of $1,970,000 of the first mortgage bonds of the company, the Board of Directors have caused to be issued $5,000,000 of five per cent bonds, due in forty years, secured by the consolidated mortgage of the company. These bonds were disposed of on favorable terms to Messrs. Drexel & Co., and will be delivered to them during the current year. The Board have also had under consideration the necessary provision for the payment at maturity, or extension at a reduced rate of interest, of the bonds for $1,000,000, bearing six per cent interest, maturing January 1, 1881, secured by mortgage upon the Navy Yard property at Philadelphia.

It is presumed the Philadelphia and Erie Railroad Company will take the needful steps to provide for the payment, or extension at a lower rate of interest, of its bonds for $5,000,000, maturing March 30, 1881.

There are now in the Sinking Fund for the redemption of the obligations of the various companies forming the United New Jersey Railroad and Canal Company, bonds of the par value of $1,309,000. Your company has also redeemed during the year an additional amount of $124,000, making an aggregate investment of $1,433,000, for which you will in the future, in accordance with the terms of the lease, receive bonds issued under the general mortgage of that company.

During the past year the Bald Eagle Valley Railroad Company, in which your company is largely interested as a shareholder, as well as lessee, created a first mortgage securing bonds to the amount of $400,000, bearing six per cent interest, maturing in 1910, for the purpose of providing for $300,000 of mortgage bonds maturing July 1, 1881, and $100,000 of mortgage bonds, bearing seven per cent, due July 1, 1884, the latter of which were owned by your company. An agreement was entered into by which, in consideration of an equitable allowance to be paid by the Bald Eagle Valley Railroad Company, your company exchanged the bonds so held by it for the new six per cent bonds referred to, and offered to the holders of the remaining outstanding bonds the option, until April 1st next, which will no doubt be availed of, of exchanging their bonds for a new loan.

The report says that the profits from the operation of the Empire Line since the purchase of its property in October, 1877, have been sufficient, in addition to paying the interest upon its cost, to redeem $605,000 of the $2,550,000 of car trust certificates issued in payment of the same, and leave a net surplus of $276,202 29.

During the year the Pennsylvania Company paid off $600,000 of its debentures, leaving $6,400,000 outstanding.

Under the operation of the sinking fund for the redemption of the 6 per cent bonds of the Pennsylvania Co. secured by the special guaranteed stock of the Pittsburg, Fort Wayne and Chicago Railway Co., $96,000 were purchased and cancelled in 1879.

The sum of $316,499 71 was paid into sinking funds during 1879 for the redemption of existing mortgages on the leased lines west of Pittsburg. Of this amount $104,100 were paid into the fund provided for the extinguishment of the first and second mortgage bonds of the Pittsburg, Fort Wayne and Chicago Railway Co. Of these bonds $2,331,000 have been redeemed, but they are now held so much above par that it is impossible for the trustees thereof to purchase the same at any reasonable figure for the sinking fund.

During the year $775,000 of the coupon bonds of the Pittsburg, Cincinnati and St. Louis Railway Co. have been converted into registered bonds, in accordance with the authority conferred by Act of Assembly and the notice given by the trustees, making the total amount converted to the end of 1879, $2,711,000.

The holders of the 7 per cent coupon bonds of the Steubenville and Indiana Railroad Co. are also availing themselves of this privilege, $319,000 having been so exchanged during 1879.

The amount expended for betterment purposes during the year on all the above lines was $388,548 27, in addition to new equipment purchased by the Indianapolis and St. Louis Railroad Co. at a cost of $130,477 60.

The Pennsylvania Co. received $8,374 15, leaving a balance due on account thereof and of expenditures formerly made of $427,511 81.

The General Account of the Treasurer, December 31, 1879, will be found on another page.

☞ The new branch of the Pennsylvania Railroad, from Frazier Station to West Chester, was put into operation on the 1st inst.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The figures (—) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aided Railroads are distinguished by a "¶."

Locomotives for Japan.

The Japanese government has commissioned Mr. Joseph U. Crawford, an American engineer, who recently spent a year or more in that country, to contract for two locomotives in this country, for a narrow gauge railroad on the island of Jesso, the farthest one north in the Japanese group. Mr. Crawford has made contracts with parties in this city for the two engines, which are to be called the "Benkei" and "Yoshiteze," after two celebrated Japanese heroes of ancient days. They are to be provided with the latest and best improvements, including the Westinghouse air brakes. The cars for the road are to be built at York, Pa. The spikes will be obtained from this city. The rails are ordered in England. These are the first orders of the kind sent here from Japan or China. The Japanese government is especially anxious that the spark arresters be perfect in their construction.—[Pittsburg Chronicle.

Statement of the Public Debt of the United States, March 1, 1880.

Totals.....	$64,623,512 00	$646,235 12

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,656,910 27; balance of interest paid by United States, $31,994,245 67.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ At the regular monthly meeting of the Petersburg, Va, City Council on the 1st inst., the Finance Committee reported the sale of 2,235 shares of preferred stock of the Petersburg and Weldon Railroad, owned by the city. It was sold to pay the bonded debt of the city falling due August 1st next. The amount realized by the sale, which was confirmed by the Council, is $163,500. The sale of the stock reduced the debt of the city to $1,018,000.

☞ The James River and Kanawha Canal Company have purchased from the trustees of the Miller Asylum at Lynchburg, Va., $10 000 of the bonds of the company, paying therefor $15,000. The company is rapidly getting in position to close negotiations with the new railroad company which proposes to build a road up the James River valley.

☞ The validity of Railroad Aid Bonds issued by the township of Empire, Ill., to the Indianapolis, Bloomington and Western Railroad Company, and by the town of Roberts, Ill., to Hamilton, Lacon and Eastern Railroad Company is affirmed by United States Supreme Court decisions.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 4, 1880.

The markets have been unsettled and feverish the past week with stocks generally active and higher, except mining shares, which have fallen off, while the merchandise markets have been generally dull and depressed without any decided break in prices, under a continued lack of export demand and cessation of speculation. Following the close of our last review when the stock market was unsettled by an advance in Harlem to 180, of Louisville and Nashville to 144, Nashville and Chattanooga to 120, and a decline in Little Pittsburg to 14½ and Manhattan Railway to 41½@42, the largest transactions were in the coal stocks, which were strong on an advance in the price of coal, while the Vanderbilt stocks were higher on a continued bull movement until the seizure by the American Union Telegraph Co. of the Western Union lines, when the whole Vanderbilt list fell off with his telegraph stock, and the Gould shares only steady to weak, on the belief that his interest was on the "bear" side of the market and that he would depress his own stocks to affect others of which he is said to be "short," notably Western Union.

Money ruled pretty steady at 5@6 early in the week on a loss of over $2,400,000 in the bank reserve as per last statement which was unexpectedly unfavorable on the unusual flow of currency East and West at this season. Sterling Exchange was higher early in the week and then eased off on a continued good demand for bills by the importers whose business is still large, and in excess of the increased supply of breadstuff bills early

the week, for there was a corresponding decline in cotton bills.

Pacific Mail and the Pacific roads came in on Monday for their share in the advance, on the suming of the long talked of contract between them, by which rates are restored and fixed by the roads, for which they pay Pacific Mail $110,000 per month bonus and buy the two China steamers running from San Francisco for $1,200,000. This, it is claimed, will enable the Pacific Mail to pay 1½ per cent dividends in July. Iron Mountain and Erie have been alternately weaker and stronger, apparently on other than general causes. Government as well as railroad bonds have been up and down with stocks, with corresponding activity, while State bonds have been more active at about old prices. The public debt statement shows a reduction in February of over $5,000,000, nearly $200,000,000 cash in the Treasury and $346,681,000 legal tenders outstanding.

St. Paul and Sioux City Railroad shares advanced on the proposed consolidation with the Minneapolis and North Wisconsin. The activity and strength in the general stock market was renewed in the middle of the week on the rumor that the Treasury would take $5,000,000 of bonds at the Wednesday's purchase, and money rose up to 6 per cent and a commission on stock purchases in anticipation of it on Tuesday, but only $2,500,000 were taken, out of proposals of $13,000,000, at 105.85 for $2,383,000 6s of 1881.

Iron Mountain recovered, later and advanced sharply on prospects of the road being placed in the stockholders' hands before long; and its income bonds advanced on promised dividends soon, as well as the annual report, a brief synopsis of which will be found in another column. The stock market which had fallen off Wednesday on the small purchase of bonds, rallied at the close on the immediate disbursement of the money in payment thereof.

Messrs. J. W. Amerman & Co. are fast disposing of their St. Louis, Hannibal and Keokuk 7 per cent first-mortgage bonds at 92½ and interest and will soon advance them to 95 and interest.

Messrs. Sheldon & Wadsworth have nearly closed out their Utah and Pleasant Valley first-mortgage 7 per cent bonds, and have raised the price to 95 and interest.

We are informed upon authority that the Louisville and Nashville and the Nashville and Chattanooga are now in perfect harmony on all matters lately at issue which will be adjusted as follows: The St. Louis, Southeastern and Owensboro line will be retained and a stock dividend of 100 per cent on those roads will be issued to the Nashville and Chattanooga stockholders and also a cash dividend of 15 per cent, both payable in April. The cash dividend is from the proceeds of a sale of steel rails and equipment bought for the Owensboro road at the lowest prices of last year on a basis of $43 per ton for the rails.

Mining stocks have been depressed throughout under the shock received to Eastern managed mines by the break in Little Pittsburg under its new directory who are thought to have unloaded on the public, and on the outcome of the alleged swindle in Moose which it is now proposed to mortgage to keep running instead of its paying dividends, as we were told last fall by its officers. The transfer of the Bonanzas from Flood to Mackay does not affect those stocks as it is a choice of evils without choice in which of their hands the mismanagement shall continue.

Breadstuffs have relapsed again into dullness and weakness as the export demand has fallen off again and stocks are coming forward more freely from the West. Corn has improved, however, on light supplies at the seaboard, but there is abundance back to come forward by water routes, as its price cannot afford shipment by rail rates.

Provisions have been more dull and depressed than ever, as the foreign demand still keeps at the same ratio of decrease which already is equal to the product of 600,000 hogs since November 1st less those a year ago, as the result of hard times in Europe and of the heavy import duty in Germany. Hence a break is looked for any day as the outside speculators are getting tired out holding.

Cotton has been depressed and the speculators in this staple find, like those in others, that the speculative advance last fall in merchandise is one thing and that increased consumption by reason of better times this side the Atlantic is altogether a smaller factor on the bull side than they had supposed. The same is true of all other staples of commerce in which there has been speculation since last summer and fall, and a collapse in many of them is probable.

We are in receipt of a copy of the "Financial History of the United States from 1774 to 1789," by Judge A. S. Bolles, of Norwich, Conn., lecturer on Political Economy in the Boston University, published by D. Appleton & Co. This book covers the period of the Revolution, to the financial administration of Robert Morris, and is full of hitherto unpublished information in connected form, of the finances of the Government in its infancy. It is a work of great value to the public but especially so to bankers and dealers in Government securities in this and European countries, as it is the only work of the kind ever published, and is gotten up with pains taking care for which the author has a well earned reputation in his "Industrial History of the United States," "Chapters on Political Economy" and "Conflict between Capital and Labor." This is the first volume of a series, the second of which is to cover the period from 1789 to 1860, and the third from 1860 to 1880. The work is full of interest to the general reader and should command large sales.

Cleveland, Columbus, Cincinnati and Indianapolis Railroad.

At the annual meeting of this company, held in Cleveland, Ohio, on the 3d inst., the following directors were elected: A. G. Dulman, of New York; B. S. Brown, of Columbus; H. R. Baltzer, of New York, and George H. Russell, of Cleveland—all re-elected except Mr. Dulman, who succeeds L. M. Hubby, of Cleveland, retired. The annual report shows the gross earnings for the year 1879 to be $3,758,967 96, of which $2,796,405 31 was received for freight; $737,939 47 from passengers, and the balance for mails, expenses, rents, interest and dividends. The total express were $3,234,501 07; of which $2,692,307 53 was paid for operating the road; $425,180 interest on bonds, and the balance for taxes. The net earnings are $524,466 89, which yields a net surplus of $149,678 89 after the payments of the February dividend. The increase of gross earnings over those of the year 1878 is $280,254 17. The decrease of expenses for the same time $6,420 24. The floating indebtedness was liquidated during the year, to accomplish which the bonded debt was increased by $228,000; making it now $6,387,000. The report states that the condition of the railway and its equipment was never better than now.

☞ The 33d Annual Report of the Pennsylvania Railroad Company, an abstract of which is given on another page, together with the Treasurer's General Account, shows that the road has done the largest business ever known for any year since its incorporation, at lower rates than ever before, and yet such has been the economy of the management that the cost of transportation and and operating expenses has been reduced to the lowest rate ever known on any road, and the company has earned all its fixed charges and six per cent on its capital stock.

☞ H. L. Morrill has been appointed Superintendent, John J. Archer General Freight and Ticket Agent, and Charles H. Cory Master Mechanic of the Scioto Valley Railroad.

☞ The Fort Wayne and Jackson Railroad Company has declared a dividend of 2 per cent to preferred stockholders, payable March 25.

The Railway Age Monthly.

Our enterprising contemporary, the Chicago *Railway Age*, has issued a monthly magazine of sixty-four pages devoted to the interests of railway employes, at $1 50 per year. This is no doubt a wide and comparatively unoccupied field, in which much good can be accomplished by a properly conducted journal. Just what line of policy the publishers will pursue in order to keep the two interests which they represent from clashing, they do not enlighten us. They have hitherto conducted the *Age* purely as an advocate of the railroad interest, whose policy has been to attack instead of harmonizing opposing interests. If the new magazine is to be conducted, as it announces, in the interests of railroad employes, it must surely antagonize the railroad interest, if the same policy is pursued in its conduct as in that of the *Age*. How then will the publishers of these two journals manage? Will they try the hitherto unsuccessful feat of riding two horses at once and fall between two stools, or will they renounce their old policy of advocates who must defend their clients right or wrong, and assume a medium and semi-judicial ground between these two interests and endeavor to harmonize them by teaching them that their interests are mutual and that neither can injure the other without injuring itself? If the latter shall be its policy, then it must succeed in the end, by making both publications more valuable to their separate constituencies. In this way only it may in time lay claim to what it now assumes in its prospectus, to be "The Leading Railway Journal of the Land."

Mexican C ntral Railway.

Articles of association of the Mexican Central Railway Company, limited, were filed with the Secretary of the Commonwealth of Massachusetts on the 25ult., making the fourth railroad company chartered under last year's law. The termini and general course of the railroad and telegraph are: the city of Mexico, and thence running by the best practical route in a general northerly direction through and to the cities of Queretaro, Celaya, Salamanca, Irapuato, Guanajuato, Silao, Leon, Lagos, Aquascalientes, Zacatecas, Durango and Chihuahua, with branches from the best practicable points on the main line to Salvetierre, Dolores, Hidalgo, Guadalajara, San Luis Potosi and to a point or points on the Pacific coast and the Texan frontier, and such other main line and branches as said corporation may be authorized to construct by the grants of the republic of Mexico.

The following persons are to act as a Board of Directors until others are chosen: Charles C. Burr, E. W. Converse, Thomas Dana, William S. Eaton, A. B. Lawrie, Pliny Nickerson, Charles W. Pierce, Lucius G. Pratt and William J. Rotch.

The amount of capital stock is one million dollars, divided into ten thousand shares of the par value of one hundred dollars each, and the following agree to take and pay for fifty shares each: Thomas Nickerson of Newton Centre, George B. Wilbur of West Newton, Lucius G. Pratt of West Newton, Joseph H Gray of Boston, Isaac T. Burr of Boston, E. W. Converse of Newton, William S Eaton of Boston, William J. Rotch of New Bedford, S. S. Sleeper of Cambridge, John H. Sanborn of Newton Centre, Theodore Nickerson of Newton Centre, Thomas Dana of Boston, A. W. Nickerson of Dedham, Sterne Morse of Boston, A. B. Lowrie of Boston, Joseph Nickerson of Brewster, Pliny Nickerson of Boston, Alden Speare of Newton Centre, Charles W. Pierce of Newton Centre, Charles C. Burr of Auburndale and Franklin B. White of Milton.

Rebuilding the Tay Bridge.

The North British Railway Company have given official notice that they intend applying to Parliament in the ensuing session for leave to introduce a bill for an act authorizing the company to restore and improve the communication by railway across the Firth or River Tay. For this purpose they ask for powers to make and maintain a railway commencing by a junction with the up line of the North British Railway at a point 120 yards southward from the face of the abutment at the south end of the railway bridge, over the river, crossing it by a bridge, to be constructed parallel, or nearly so, with the railway bridge across the river, and to be braced thereto, or otherwise connected therewith, and terminating by a junction with the up line of the railway at a point about 40 yards eastward from the face of the eastern abutment supporting the bowstring arch or span carrying the railway over the Dundee sea-wall, esplanade, and street. Powers are asked to make alterations in the levels of parts of the Tay Bridge and Newport Railway, and for "the restoration of the railway bridge across the River Tay, with such alterations in the structure thereof throughout its entire length, or any part thereof, as may be deemed expedient, including, if thought proper, a reduction in the extreme height of the whole or part only of the said bridge, and the height of the lower surface of the bridge and girders, respectively, over the water level; also, a contraction in the width of certain of the existing spans, and the construction, where necessary, of additional piers."

Standard Freight Cars.

David Hoyt, master car builder of the New York Central Railroad Company; Robert Miller, of the Michigan Central; John Ortton, of the Canada Southern; John Kirby, of the Lake Shore; C. E. Garey, of the Harlem, and Leander Garey, Superintendent of the car department of the New York Central, have been in session at the Grand Central Depot for several days to agree upon a standard freight car to be used on all the Vanderbilt roads. After discussing many plans, they decided upon a uniform style of car, both box and cattle, which, it is expected, will be found so perfect that it will be generally adopted by the various roads throughout the country. It was also arranged to have the cars built by the shops of the respective lines represented, and the work will be begun at once, in order to have the cars put in service without delay to meet the increased demand for transportation. It is claimed that the new cars will be a vast improvement in every respect over the ones now in use, and the advantages will be so apparent that the new cars will be brought into requisition not only on all the roads in this country, but also abroad.

Coke as Blast Furnace Fuel.

The frequent and important sales of coking coal lands in the Connellsville district, which we have noted from time to time in our columns recently, indicate most clearly the growing confidence in coke as the future blast furnace fuel. We have so frequently, during the past four years, referred to the advantages of coke for this use, that we do not intend to discuss them here, but simply to state that the experience with it in anthracite furnaces of the East proves conclusively that, with a proper proportion mixed with anthracite, the results in increased yield are surprising. When failures have been recorded, or when the increased yield has been light, these results can be nearly always traced to too small per centage of coke.—[Iron Age.

African Railway.

Duponchel's projected railway for connecting Algeria with Soudan continues to excite great interest in France. A commission of 65 members has been appointed, and divided into four subcommissions. The first under the presidency of de Lesseps, is to collect statistical and economical information; the second under Duponchel, is devoted to technical studies and the determination of routes; the third is to have charge of the explorations, and the fourth will consider international questions, especially to the Moors, the Tripolitans and the Touaregs. Many of the senators and deputies, who are the members of the commission, have visited Algeria in order to understand the different projects which are to be brought before them.—[Les Mondes.

Earnings of Railway Carriages.

The Pall Mall Gazette gives some curious figures showing the relative earning of the various classes of English railway carriages, gathered from the official returns of the companies. During the half year recently ended, every first-class carriage on the Midland Railway earned on an average £716, and every third-class, £533. On the Northeastern Railway the first-class carriages earned on an average £312 each, the second-class £334 each, and the third-class £524 each. On the Manchester, Sheffield and Lincolnshire Railway, every first class carriage earned £117 in the six months, every second-class carriage £130, and every third-class carriage £553. The returns are exclusive of the receipts from season tickets, which are not divided into the separate classes in the official reports, and in every instance the "composite" carriages are excluded from the return.

Pittsburg and Connellsville Railroad.

In the United States Circuit Court at Pittsburg on the 27th ult., Welty Mc Cullough, Esq., Attorney for the Pittsburg and Connellsville Railroad Company, confessed judgment to the Baltimore and Ohio Railroad Company for $4,354,748 86. This was the amount of bonds, mortgages and other liabilities assumed by the Baltimore and Ohio when it took charge of the Connellsville road. The stockholders got only about 30 per cent of their claim under the compromise. This virtually wipes the Connellsville Railroad Company out of existence, and makes it a feeder of the Baltimore and Ohio. This branch runs from Pittsburg to Cumberland, Md., and is very valuable on account of its coke, coal and manufactured freight.

Union Pacific Railroad Lines.

The Omaha Herald says that J. T. Clark, General Superintendent of the Union Pacific Railroad, on his recent trip west, arranged for the building of two new and important lines, and then adds:

One road starts north from Cheyenne and runs north towards Fort Laramie, through the great cattle regions, for a distance of about eighty miles. As it approaches Fort Laramie it curves to the northwest, and follows in nearly a parallel course with the north branch of the Platte for about thirty miles. The road then runs north again, crosses the river at Fort Bridger, striking Fort McKinney, and traversing the rich Powder River and Big Horn mining country, and continuing to Port Phil Kearney. Beyond this point the route is not projected, but the ultimate intention is to extend it on through the agricultural

settlements of Montana, and to practically tap the best territory of the Northern Pacific Railroad. The other road is that known as the Summit County Railroad. It has its initial point at Echo, on the main line of the Union Pacific, and will run up into the Wahsatch mountains, penetrating to Park City, the heart of the Ontario mining district.

Pennsylvania Railroad.

We give on another page an abstract of the report of this company for the year ending December 31, 1879, showing the gross earnings, operating expenses, net earnings, etc., of the entire system, also an abstract of the Income Account. Below will be found the General Account of the Treasurer at the close of the year:

To capital stock		$68,870,200 00
First Mortgage bonds due 1880	$4,970,000 00	
General Mort. bonds due 1910	19,999,760 00	
Consolidated Mort. bonds due 1905	28,901,540 00	
Navy Yard Mortgage Registered bonds due 1881	1,000,000 00	
Lien of the State upon the Public Works between Philadelphia and Pittsburgh, bearing 5 per cent interest, payable in annual instalments of $460,000, applicable first to the interest, and the remainder to principal; the original amount of which was $7,500,000	4,091,675 70	
Mortgages & ground rents payable	1,304,779 91	
		60,267,755 61
Accounts payable, viz:		
Passenger and freight balances due other roads	$394,472 08	
Pay rolls and vouchers for December, 1879, due in January, 1880	2,787,098 75	
Bills payable	1,040,000 00	
Cash, dividend due to stockholders unpaid	127,507 75	
Dividend scrip of December, 1873, outstanding	1,893 61	
Sundry accounts due other roads	2,955,599 71	
		7,306,571 90
Appraised value of securities owned by the United New Jersey Railroad and Canal Company and transferred with the lease of the works of that company		3,895,584 60
Equipment of road and canal owned by the United New Jersey Railroad and Canal Company and transferred with the lease of the works of that company		3,419,004 53
Fund for the purchase of securities guaranteed by the Pennsylvania Railroad Co, under trust created October 9, 1878	$700,000 00	
Consolidated Mort. bonds redeemed and canceled	343,460 00	
Balance to credit of profit and loss	4,181,073 33	
		5,224,533 33
		$148,983,649 97

By balance standing on the books of the company for the construction of the railroad between Harrisburg and Pittsburgh, including branches of Indiana, Hollidaysburg and Morrison's Cove, also Branch to connect with the Pittsburg, Virginia and Charleston Railroad; also bridge over the Susquehanna River at Columbia, and branch from Columbia to York, in all 349.52 miles; also the extension of the Pennsylvania Railroad to the Delaware River, including wharves and grain elevator ($2,135,011 67), and the Filbert Street extension to Fifteenth and Market streets, Philadelphia ($30,419 61) and cost of stations, warehouses and shops, on the whole road from Philadelphia to Pittsburgh		$27,048,546 77
Balance standing on the books of the company for the purchase of the Philadelphia and Columbia Railroad		5,375,733 43
Balance to debit of equipment of road consisting of 877 locomotives, 550 passenger cars, 174 baggage, mail and express cars, 16,198 freight cars, 1,544 road cars, including shop machinery, steamboats and car floats and also including equipment of canal, consisting of schooners, barges and tugs		17,693,304 49
Cost of real estate of the company and telegraph line		9,857,554 91
Total amount charged to construction, equipment and real estate accounts for the railroads between Philadelphia and Pittsburgh, comprising 1,089.7 miles of single track (exclusive of Harrisburg and Lancaster Railroad 98.70 miles), including sidings, stations, warehouses, shops and shop machinery, telegraph lines, canal equipment, etc., etc		$59,975,139 60
Other assets:		
Cost of bonds of railroad corporations	$25,520,578 15	
Cost of capital stocks of railroad corporations	31,723,967 46	
Cost of bonds and stocks of municipal corporations, coal companies, canal companies, bridge companies, and investments not otherwise enumerated	8,237,137 24	
Total cost of bonds and stock belonging to the company		65,481,682 85
Managers of Trust created by Pennsylvania Railroad Co., October 9, 1878		700 000 00
Insurance fund		10,000 00
Mortgages and ground rents receivable		29,735 00
Amount expended for the purchase of Anthracite coal lands, Hazleton, Hamilton, Eastwick and other tracts		792,315 41
Appraised value of securities owned by the United New Jersey Railroad and Canal Company, and transferred with the lease of the works of that company		8,895,584 60
Equipment of road and canal owned by the United New Jersey Railroad and Canal Company and transferred with the lease of the works of that company		3,419,004 53
Amount of fuel and materials on hand for repairs to locomotives, cars and maintenance of way, viz:		
For the Pennsylvania Railroad	$1,118,547 78	
For the United New Jersey Railroad & Canal	502,575 08	
For the Philadelphia and Erie R. R.	229,112 83	
		1,845,235 69
Amount of bills and accounts receivable, and amounts due from other roads, including advances made to railroad corporations for construction and purchase of equipment used on their lines, viz:		
Philadelphia and Erie Railroad Company	$339,358 95	
United New Jersey Railroad and Canal Co., construction	263,418 18	
United New Jersey R. R. Sinking fund and redemption account	1,026,360 00	
United New Jersey R. R. real estate	419,734 73	
Other companies	5,988,248 40	
		8,037 120 26
Cash balance in hands of the Joint Stock Bank, London, and other parties to pay coupons due in January, 1880		1,158,936 20
Cash balance in hands of freight and passenger agts.	$2,009,087 80	
Cash balance in hands of treasurer	1,629,808 03	
		3,638,895 83
		$148,983 649 97

JOHN D. TAYLOR, Treasurer.
Philadelphia, December 31, 1879.

☞ The Baltimore Sun says that J. B. Yates, with a corps of engineers, left Alexandria, Va., on the 26th ult. for Statesville, N. C., to commence the survey of the extension of the Virginia Midland Railroad to Charlotte, N. C., to connect with the Air Line Railroad from Charlotte to Atlanta, Ga. It is understood that all the capital necessary for the extension has been provided, and that the work will be commenced immediately.

☞ The Macon and Augusta Railroad which was sold on the 2d inst. under foreclosure of the second mortgage, amounting to $370,000, was bought by the Georgia Railroad Co. for $50,000. The latter company paid up the second mortgage bonds on which it became endorser over a year ago.

CHRYSOLITE SILVER MINING CO.

ROOMS NOS. 51 TO 57 BOREEL BUILDING,
No. 115 BROADWAY, NEW YORK.

THE BOARD OF TRUSTEES HAVE DECLARED a regular monthly DIVIDEND (No. 4) of TWO PER CENT on the $10,000,000 capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000), or ONE DOLLAR PER SHARE out of the fourth month's net earnings, payable at the Central Trust Company, on the 25th February.

Transfer-books will close February 22, and reopen February 27.

DRAKE DE KAY,
Secretary.

Knox & Shain,

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two medals awarded by Franklin Institute, and one by Centennial.)

Foreign Vessels and Foreign Railroads.

The policy of our government from its foundation has been to protect our coasting trade in the interest of the whole Union, and this policy has resulted vastly more to the benefit of the seaboard States, and particularly to the New England States, than to any other portion of the country. The fishery interests of New England have also for years past been a constant source of discussion and diplomatic correspondence between our government and that of Great Britain. It is a fact well known that the Canadian government claims maritime jurisdiction of the banks of Newfoundland and the Bay of Fundy, from headland to headland, over a surface covering the most valuable fishing grounds on the northeastern shores of this continent, and that within the past year, under the award of arbitrators, we have paid the Canadian Government $5,000,000 for the privilege of our fishermen fishing in those waters. Certainly the people of the New England States, as well as of other sea-board States, have no cause to complain of the protection they have received at the hands of our Government.

If we now turn to the Western and Northwestern States of the Union, and then cast our eyes across the great chain of lakes dividing our territory from the Dominion of Canada, we find a people whose pursuits are chiefly agricultural. The farmer of Minnesota can sell the products of his farm, with merely the cost of transportation added, to the consumers of the Middle and Eastern States, but the Canadian farmer has to pay to our Government, in addition to his freight, a duty of four per cent on the products of his farm, before he can trade with his neighbors of Pennsylvania or New York, who may not be fifty miles distant. We do not object to this policy in the interest of our home farmers. Protection to home industries at this time appears to be more in favor with all the nations of the world than formerly, and we know of no people who are adopting this policy with greater success in themselves than the Canadians. They are not only protecting home industries, but they are reaching out their arms to draw into their water channels and upon their railroads trade from this side of the lakes that legitimately belongs to the railroads and cities of the United States. Within two years past the Canadian government has virtually established a prohibitory tariff on all manufactures. They are improving and enlarging their canal system, to draw the trade of the West and Northwestern States to their seaports to the great injury of the Atlantic cities. They are now constructing through the State of Michigan a railroad to connect with their lines on the eastern bank of the Detroit river, making them entirely independent of our own system of roads, to divert the same trade to Montreal and Quebec, and, if this cannot be successfully accomplished, (which for six months of the year is impracticable, on account of the ice blockade of those seaports,) then to transport this tonnage through Canada, receiving all the gains and profits incidental thereto, and entering the frontier of the United States at the most easterly point to which their lines extend. Under government aid, at no distant day, they will have a Pacific railroad of their own, competing with us for the transcontinental traffic of the world.

We do not object to such a policy; but what we object to is this: that while we allow our government to pay $5,000 000 for a privilege, which is of doubtful value, and questionable even in the right, the great privilege enjoyed by the Canadian railways, contrary to the whole theory of our coasting laws, if not illegal in fact, should have been set up as more than an equivalent for all the cod, herring and mackerel taken by our fishermen in Canadian waters. We would like to know the difference between a Canadian railroad car loading a cargo of corn in the city of Chicago, transporting that corn through the State of Michigan, thence from 250 to 700 miles through Canadian territory, to Buffalo, N. Y., or into the New England States, over our Northern frontier to Ogdensburg; or a Canadian vessel carrying a cargo of corn from Chicago to Buffalo, or Ogdensburg. The Canadian railroads give no employment to our citizens—they pay no State or government tax to us—they do not use our manufactures, for their tariff is prohibitory—they are not liable for a duty of $28 per ton on their steel rails, nor would they come under the provisions of any commission or law that Congress may enact governing our inter-State commerce.

In justice to ourselves, this subject is of sufficient importance to receive the attention it demands at the hands of those who have our welfare in charge. Canadian Railways are now no mean competitors for our western and northwestern trade. In securing the trade they have the support of the Canadian government, by large contributions of money and virtually exemption from taxation. If the policy for which there is hardly a difference of opinion in our country, is a good one, that our coasting trade should be held for our ships and people, and the policy of protection for manufactures, which has been maintained for so many years as equally good, and as most conducive to our welfare and progress, why should we make an exception in the case of a foreign railroad when such a policy not only opens up the coasting trade of our country to their roads, but virtually places them on an equal footing with our own system of roads for the interior traffic of the whole country.—[Erie (Penn.) Herald.

Texas and Pacific Railway.

The Marshall (Texas) Messenger, in referring to the extension of the Texas and Pacific Railway, says:

There are now three surveying corps in the field. One is probably 100 miles west of Weatherford; the second has recently started from that place, and the third left in charge of Mr. P. Law. The contract of the Texas and Pacific with the construction company requires that the road be completed to El Paso by January 1, 1883, and their movements indicate that the terms of the contract will be fully complied with.

Houston and Texas Central Railway.

Comparative statement of earnings and expenses of the Houston and Texas Central Railway for the months of January, 1879 and 1880:

	1879.	1880.
Earnings	$260,746 10	$319,041 39
Exp. (including taxes).	160,174 50	165,064 03
Net	$100,571 60	$153,977 36
Increase in gross earnings (22.35 per cent)		$58,295 29
Increase in expenses (3.05 per cent)		4,889 53
Gain in net earnings (53.10 per cent)		$53,405 76

☞ The preliminary surveys for a branch of the Milwaukee and St. Paul Railroad between Janesville and Beloit, Wis., was completed on the 27th ult. The route proposed leaves the Monroe Division two miles west of Janesville; runs to Alton; crosses Rock River two miles below that village, and then makes a direct line to the outskirts of Beloit, connecting with the Western Union Division about one mile east of the depot.

☞ The directors of the Cleveland, Mt. Vernon and Delaware Railroad Co., elected on the 25th ult., are: Thomas D. Messler, William Thaw, George B. Roberts, William M. Orr, Isaac Harpster, Samuel Israel, Charles Cooper, M. White and D. W. Caldwell. Thomas D. Messler of Pittsburg, was re-elected President, and J. G. Davis Secretary. All the other officers were re-appointed. The earnings of the road during the past year were $404,025 78, being an increase of $21,327 66 over those of the previous year.

St. Gothard Tunnel.

The last section of the wall of rock between Switzerland and Italy was pierced on the 1st inst. though much work remains to be done before the tunnel will be ready to be opened for public travel. This, with its connections, is the largest tunnel in the world, being about nine and a quarter miles in length, and at its highest point it is about two-thirds of a mile above the level of the sea. M. Favre, the contractor for boring the tunnel, died there suddenly last July, but not until he had put the work on the high road to early completion. His contract required him to complete the tunnel before the 1st of October, 1880. For every day saved he was to receive $1,000, for every day of delay after that time he was to forfeit $1,000. These provisions greatly stimulated the work, and within two or three years the advances have been quite rapid, the introduction of improved boring machines greatly facilitating the vast undertaking. The tunnel is to be nineteen feet high and twenty-four feet wide. Work was commenced on it in September, 1872. The advance with the most improved tools has been at the rate of seven feet per day.

☞ The directors of the St. Paul, Omaha and Chicago Railroad Company, elected on the 3d inst. are: H. H. Porter, of Chicago; E. T. Drake, John L. Merriam, C. H. Bigelow, A. H. Wilder and John L. Adams, of St. Paul; R. P. Flower, David Dows, H. R. Bishop, August Kuntz and Josiah M. Fish, of New York; P. S. Cable, of Rock Island; Philetus Sawyer, of Oshkosh; Benjamin Brewster and George I. Seney, of New York. The officers are: President, H. H. Porter; Vice-President, Benjamin Brewster; Secretary, George A. Hamilton; Treasurer, R. P. Flower.

☞ The Buffalo Pipe-Line Company have secured the full right of way for the laying of their pipes from the Bradford district to Buffalo, and the laying of the pipes will begin at once. The officers of the pipe line company are F. K. Kalbfleisch, of New York, President; A. P. Wright, of Buffalo, Secretary; A. M. Kalbfleisch, of Brooklyn, Treasurer: Trustees, R. H. Lee, of Titusville, W. C. Riddell, of Buffalo, and J. H. Dilks, of Olean, the latter acting as Superintendent. The capital stock is $250,000, with 80 per cent paid in.

☞ The gross earnings of the St. Louis, Iron Mountain and Southern Railroad for the year 1879 were $5,202,611; operating and general expenses, $2,902,056; net earnings, $2,300,555; gross earnings over previous year, $778,290, or 17¼ per cent; net earnings over previous year, $354,599, or 18¼ per cent. The increase of earnings has been wholly in freight traffic, amounting to 25 per cent over 1878. This increase would have been still larger had the equipment of the road been equal to the demand. To meet this difficulty a large number of new freight cars have been ordered.

☞ The first mortgage bonds of the Eastern (Mass.) Railroad commenced to pay interest at the rate of 4½ per cent March 1. They were originally issued September 1, 1876, thirty years to run; three years at 3½ per cent interest, three years at 4½ and the remaining twenty-four years at 6 per cent.

Albermarle and Chesapeake Canal.

The bonds of the Albermarle and Chesapeake Canal Co. have been placed on the Free List at the New York Stock Exchange. As stated below they are $500,000 in amount; are dated July 1, 1879, payable 30 years after date. The par value of each is $1,000, and they are numbered from 1 to 500, inclusive; interest seven per cent, and coupons payable January 1st and July 1st each year, at the Union Trust Company, of New York, who are the Trustees. Four hundred of these bonds were issued to retire a like amount secured by a prior mortgage, and the balance, $100,000, to enlarge the canals. There has been to this date $358,000 of the old bonds retired by exchange for the new bonds, leaving only $42,000 out.

The following is a General Statement of the affairs of the company, October 1, 1879:

Authorized capital		$1,500,000
LIABILITIES.		
Stock held by the State of North Carolina	$350,000 00	
Stock held by Currituck Co., North Carolina	44,000 00	
Stock held by individuals	494,100 00	
	$888,100 00	
Mortgage bonds	500,000 00	
	$1,388,100 00	
ASSETS, EXCLUSIVE OF CANALS AND PROPERTY.		
Cash on hand & in bank	$22,134 91	
Stock in Fairfield Canal Company	25,000 00	
Bonds of Currituck County, N. C	4,000 00	
Mortgage bonds on hand	100,000 00	
5,400 acres of land in Norfolk County, Va.	54,000 00	
		$205,134 91

The receipts of the company for the fiscal year ending September 30, 1879, were:

Receipts from tolls, etc	$79,949 36
Balance on hand September 30, 1878	13,874 12
Total	$93,823 48

And the disbursements were:

Paid for enlargement of canals	$13,958 34
Paid for coupons due 1879	28,000 00
Paid for coupons due prior years and not before presented	2,380 00
Officers' salaries, maintenance and repairs of canals and all other expenses	27 350 23
Cash in bank and on hand	22,134 91
Total, as above	$93,823 48

The officers are: President, Marshall Parks, Norfolk, Va.; Secretary and Treasurer, B. F. Tebault, Norfolk, Va. The Directors are: M. Courtwright, A. C. Powell, H. L. Miller, Washington Reed, Joseph P. Cherry, Isaih Cain, Henry Gilliam, J. B. Gordon and Richard Dillard. The principal office is at 100 Main Street, Norfolk, Virginia. Agency, Room 69, Coal and Iron Exchange, New York.

☞ The Baltimore and Ohio Railroad Company, controlling 6,000 miles of wires and 400 offices, has made a contract for ten years with the American Union Telegraph Company, by which the latter manages all telegraph work and business of the railroad company's lines.

☞ A project is on foot for the construction of a railroad from Ebensburg, Penn., through Cherrytree, to Carrolltown, in Cambria County.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending February 21, as reported by the several carrying companies, amounted to 270,497 tons, against 357,047 tons in the corresponding week last year, a decrease of 96,550 tons. The total amount of anthracite mined for the year is 2,680,868 tons, against 2,612,988 tons for the same period last year, an increase of 67,875 tons. The quantity of bituminous coal sent to market for the week amounted to 84,363 tons, against 49,261 tons in corresponding week last year, an increase of 35,102 tons. The total amount of bituminous mined for the year is 603,954 tons against 257,152 tons for the corresponding period last year, an increase of 346,802 tons. The total tonnage of all kinds of coal for the week is 354,860 tons, against 416,348 tons in corresponding week last year, a decrease of 61,488 tons, and the total tonnage for the coal year is 3,284,817 tons, against 2,870,140 tons to same date last year, an increase of 413,677 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of February was 141,736 tons, of which 118,271 tons were coal and 23,455 tons coke. The total tonnage for the year thus far has been 1,073,824 tons, of which 823,135 tons were coal and 250,689 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending February 21st were 33,175 tons, and for the year to that date 231,621 tons—115,802 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 29,810 tons, for the year 207,238 tons, an increase of 109,251 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 3,365 tons, and for the year 21,799 tons, an increase of 3,967 tons, as compared with 1879.—[Phil. Ledger, March 1.

☞ The Connotton (Ohio) Railroad, which is being built by Boston capitalists, extends from Bonerston, on the Pittsburg, Cincinnati and St. Louis Railway, through Harrison, Carroll and Stark counties, to Canton, where it connects with the Pittsburg, Fort Wayne and Chicago Railway for Chicago, and the Valley Railroad for Cleveland; it also crosses the Cleveland and Pittsburg Railroad at Oneida, thus securing a second connection for Cleveland and Pittsburg as well. The capital stock is $1,000,000; the length of the road, which is narrow gauge, is fifty-three miles, and the bonded indebtedness $662,000.

☞ The officers of the Philadelphia Stock Exchange, elected on the 1st inst., are: President, Abraham Barker; Chairman, Joseph R. Wilkins, Jr.; Vice Chairman, E. W. Keene; Secretary and Treasurer, John C. Johnson; Governing Committee—B. W. Adams, C. B. Keen, Lewis Seal, Wm. J. Morris, George Gilpin, S. H. Thomas, H. Peale, D. C. W. Smith, D. B. Fox, John Markoe, T. C. Knight, W. H. Stevenson, R. Ellis, W. H. Bacon, J. B. Young, C. L. Borie, H. F. Bachman, D. A. Freed, W. W. Maris, E. W. Mathews, and F. Percy Smith.

☞ The City Council of Annapolis, Md., have refused to indorse the bonds of the Annapolis and Baltimore Short Line to the amount of $200,000, as asked for by the incorporators of the proposed road.

☞ On the 28th ult. Governor Colquitt closed the sale of the Macon and Brunswick Railroad to a company of Georgia and New York gentlemen. The price paid was $1,125,000. The conditions of the sale require the completion of the road at once, from Macon to Atlanta, thus making a new and important line to one of the best harbors on the coast.

Street Car Money Boxes.

John D. Slawson, of New Orleans, the patentee of the street-car money boxes, brought suit in the United States Court, Brooklyn, against the Grand Street, Flatbush and Prospect Park Railroad Company, to recover a royalty for the use of the boxes attached to defendant's cars. Judge Benedict decided against the plaintiff, holding that there was nothing novel in the construction of the box, and that the placing of a light so as to be thrown on the money, was just such an idea as would strike any person of ordinary intelligence, and was not a thing to be patented. It is said that Mr. Slawson has already made $1,000,000 out of these boxes.

☞ There was filed in the Register's office, Brooklyn, N. Y., on the 2d inst. the map of a new road to Coney Island, to be called the Brooklyn Elevated and Atlantic Beach Railroad. Outside the city limits the road will be on the surface. The route is from Fulton Ferry, through Furman street to Atlantic avenue, over private land to Hamilton avenue, thence to Fourth avenue and Fourteenth street, and over private land to the city line near the depot of the Prospect Park and Coney Island Railroad, with the route of which the line will thence be parallel to the Park lands, near the Concourse, on Coney Island.

☞ At the annual meeting of the Lawrence Railroad Company, held at Fort Wayne, Ind., on the 27th ult., the following Board of Directors was elected: Thomas D. Messler, George W. Cass, J. N. McCullough, John B. Jackson, A. L. Crawford, R. W. Cunningham, J. D. Layng. This road extends from Mahoningtown, on the Erie and Pittsburgh Railroad, to Youngstown, eighteen miles. The annual report shows that the company has during the past year, paid 8 per cent upon its stock, $450,000, and 7 per cent upon its bonded indebtedness, $355,000.

☞ At a meeting of the stockholders of the Chicago, Burlington and Quincy Railroad Company, at Chicago, on the 28th ult., a vote of 267,478 shares out of a total of 308,836 was cast in favor of consolidating with the Burlington and Missouri River Railroad in Nebraska, and in favor of increasing the capital stock 20 per cent, which adds over 61,000 shares. Only 2552 votes were cast against the propositions. On the 4th of May the Burlington and Missouri will meet to confirm this action.

☞ The stockholders of the Brattleboro' and Whitehall Railroad Company have voted, 1833 to 3, in favor of leasing their road to the New London Northern Railroad Company, and the stockholders of the latter company have ratified the lease. The lease is to run for 99 years.

☞ Eight hundred and sixty-five tons of steel rail are to be placed upon the Amboy division of the Pennsylvania Railroad in time for the summer travel to the sea shore.

☞ The Louisville and Nashville Railroad took charge of the Mobile and Montgomery Railroad on the 1st inst., and through trains will be run between Louisville and Mobile.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874, says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, March 12, 1880.

Southern Pacific Railroad of California.

By reference to an advertisement on another page it will be seen that an issue of $10,000,000 six per cent first mortgage railroad and land grant gold bonds of the Southern Pacific Railroad Company of California has been brought out in this city by the well-known banking firm of Speyer & Co., 52 Exchange Place; in Boston by Messrs. Brewster, Basset & Co.; and, simultaneously, at Amsterdam, Berlin, London and Frankfort-on-the-Main.

The Southern Pacific Railroad is shortly to become, and in fact is already, one of the colossal railroad achievements of the age. That portion of the lines in California—of which 712 miles are in operation—constitutes the trunk end of a system whose eastern connections will be Denver, St. Louis, Cairo, Memphis, Vicksburg, New Orleans and Galveston. Another organization, consisting virtually of the same owners, has already extended the road eastward of the California boundary 250 miles to the vicinity of Tucson, in Arizona, and is actively laying track toward the Rio Grande at Mesilla, distant about 300 miles, which point it is expected will be reached in about 18 months. At or near the Rio Grande connection will be made with one or both of the roads now pushing southward along the Rio Grande valley from Colorado, and distant from the meeting point also about 300 miles. Thus there is a prospect of an early completion of a second overland line via Albuquerque. At the same time the Texas and Pacific is announced to be completed from its present terminus at Fort Worth across Texas to the Rio Grande at Mesilla, a distance of 600 miles in a short time; a third connection from New Orleans, via Houston and San Antonio, will afford a short line between the Gulf of Mexico and the Pacific. The distance to be constructed is somewhat less than the line across Northern Texas, and is in the hands of strong parties. The length of main line, between San Francisco and El Paso, controlled by the same capitalists, will be 1,325 miles, of which the California end will be the most essential, as it must receive the traffic of the Eastern feeders, and enjoy a profitable local traffic besides from the rich country it traverses. The road now constructing in Arizona is understood to be quite successful, from the immense amount of traffic incident to the mining for precious metals along 400 miles of its route; but the California portion has in addition the wheat and fruit harvests in some of the finest valleys in that State. Several branches and tributaries pour their business upon it. It appears that for the purposes of through business, until the overland connection is established, an arrangement has been made with the Central Pacific Company, whereby the two are worked in harmony, and the latter, in consideration of new business to be thrown upon its main line and Southern branches, leases 551 out of the 712 miles, at an annual rental of $3,000 per mile, or sufficient to meet the interest and sinking fund requirements. As this is found to be for the mutual advantage of both, the lease will not probably be disturbed until the Southern Pacific with its independent line is master of the situation. The creation of so important a line and the bringing out of a loan of these proportions by so eminent a syndicate, is significant of the wealth and power behind this enterprise, which investors have hardly heard of until it was on the point of completion. We understand that the rails and ties for the 300 miles east of Tucson were bought more than a year ago, and are in good part on the ground or en route; nothing remains but to put them in place, as the grading is very light and is being pushed with a force of 2,500 men, laying from one to two miles a day.

The Wharton Patent Safety R. R. Switch.

THE MAIN TRACK ENTIRELY UNBROKEN AND CONTINUOUS.

GENTLEMEN: In bringing to your further attention, THE WHARTON PATENT SAFETY RAILROAD SWITCH, it is important to recall to your minds the fact, that on all railroads where it is used on the entire main line, switches are completely removed from the track for all through traffic, and as this achievement, which cannot be effected by any other known invention, provides for at least 95 per cent of the whole business of a railroad, it is eminently proper that this large percentage of safety and economy over other switches should go to the credit of THE WHARTON SWITCH, before the consideration of the switch, as a switch, is taken up. In support of the above mentioned advantage obtained, we will state, in illustration, its use on the Pennsylvania Railroad and branches. No passenger, or freight, leaving New York, for Washington or Chicago, or taking the through trains at intermediate stations, is in danger from switch accidents as for such *no switches exist.* The meaning of an *unbroken track* is the entire removal of all switches from main line travel.

That accomplishment is so vastly important as to claim your especial investigation of the absolute safety and economy, which cannot be obtained from any other switch than THE WHARTON.

In confirmation of the above mentioned exemption from switches for railroad traffic, we submit the following letter from S. T. Fuller,

Engineer of the Philadelphia, Wilmington and Baltimore Railroad:

Philadelphia, Wilmington & Baltimore R. R.,
Engineer's Office. S. T. Fuller, Engineer.
Philadelphia, October 16th, 1879.

WHARTON SWITCH CO.,

GENTLEMEN: In answer to your inquiry about the number of cars passing over this road that do not use the switches, I make the following statement: We have in use about 260 Wharton Switches in our main track; we have 13 through passenger trains carrying, say, 10 coaches each, average, which use 2 of the 260 switches. We have also 5 through freights of 30 cars each, using 5 of the 260 switches each day. We have, say, 2 way freights of 15 cars each, that might use 33 per cent of the 260 switches. We have 34 passenger accommodation trains, say 4 coaches each, which might use 3 switches each out of say 163 switches. We have generally at least as many through freights not scheduled, of say 5 trains. 20 cars each, using 5 switches of the 260, There are also certain points, such as Philadelphia, Wilmington and Baltimore yards, where, say, 50 of the switches are used constantly by shifting engines.

The percentage of switches used by passenger trains is very small, also by through freight trains. Way freight use them mostly.

Yours truly, S. T. FULLER.

THROUGH TRAFFIC.

13 through passenger trains, 10 coaches each, 130 coaches, use only 2 switches out of 260 switches, exemption more than 99 per cent.

5 through freight trains, 30 cars each, 150 cars, use only 5 switches out of 260 switches, exemption more than 98 per cent.

34 accommodation passenger trains, 4 coaches each, 136 coaches, use only 3 switches out of 163 switches, exemption more than 98 per cent.

5 through freight trains, 30 cars each, 150 cars, use only 5 switches out of 260 switches. (Not scheduled.) Exemption more than 98 per cent.

The above percentages of exemption would be still greater, were it not for two portions of single track on this railroad. For instance, if it was double track throughout, the through passenger and through freight trains MIGHT NOT USE ANY SWITCHES WHATEVER FROM CITY TO CITY.

WAY TRAFFIC.

2 way freight trains, 15 cars each, 30 cars, might use one-third of 260 switches.

Daily business of the road, 596 coaches and cars of which 30 cars are way freight, say about 5 per cent.

Exemption from switches for through and way trains, taken together, over 98 per cent.

Safety being established, economy in the saving to locomotives, rolling stock and maintenance of way is apparent.

It may seem paradoxical to say that when we place a WHARTON SWITCH on a railroad, we take a switch off the road, but such is the fact. The moment we replace any other known switch (and all others are component parts of the main track) by a Wharton, it will be at once perceived that a switch has been entirely removed from the railroad through track.

We are sure that no switch which is a component part of a main track, over which every wheel of the rolling stock must pass at the risk of its being set wrong and of the breaking of the clamp bars, connecting rods or other parts, can be considered for a moment in the same light with the WHARTON invention which removes the switch absolutely from the whole traffic of the road, except for the occasional trains taking a siding.

As a switch or appliance to leave or come on the main track at sidings, THE WHARTON SWITCH presents the following merits:

Not being a component part of the main track, it is not worn out by through travel; its life is, therefore, almost indefinite.

BOTH RAILS OF THE MAIN TRACK ARE ENTIRELY UNDISTURBED so that the same is unbroken and solid:—therefore, so far as the main track is concerned, switches are entirely dispensed with. THIS IS THE ONLY SWITCH THAT ACCOMPLISHES THAT MOST IMPORTANT OBJECT.

By thus providing a perfectly solid and continuous track, the shocks and jars which are the unavoidable result of the two open joints left in ordinary switches, are done away with, and there is consequently a great saving of wear and tear of rolling stock, and of the rails themselves at that point.

The amount of damage to the wheels and axles, and other parts of trains moving at high speed over these broken places in the track cannot well be estimated; and the ends of the two switch rails of an ordinary switch, as well as the two adjoining rails, soon get bruised, and battered out, so as to be unfit for service. The head plates are also constantly getting out of order, and the cross ties require frequent attention to keep them in level. This is particularly the case in winter, when the frost upheaves the ties at these movable portions of the track.

All the above objections are entirely removed by the use of WHARTON'S PATENT SWITCH.

The great expense of the constant renewal of materials and of the incessant repairs needed to keep the ordinary switches thus being saved, this invention is of great importance to Railroad Companies, on the ground of economy in the maintenance of the track alone, without reference to the saving effected to the rolling stock, which is probably of even greater amount.

No expansion, contraction, or creeping of track can in any manner affect the Switch.

This is the only Railroad Switch in the world that enables Railroad Companies to grant switch facilities without breaking the main track and endangering the through travel. In this way the local trade can be encouraged and built up without any detriment to the fast lines competing with other through routes.

These switches will last for a long term of years, as all the wearing parts are made of solid steel, and they are only used by such cars as go into or come out of the siding, for all the trains traveling upon the main track use the main track rails alone.

Having thus enumerated some of the advantages of this switch on the score of economy, we now come to the still more important question of safety.

Perfect security is given to trains if the Switch is by accident left wrong, nor is there any injury done to the Switch itself. This protection is so positive that there is no need of targets or other signals to indicate the position of the switches on double track railroads; while the operating apparatus for switches on single track railroads is so arranged that the Switch will not remain set for the siding if the switchman should forget his duty.

Besides the accidents which are constantly occurring from the misplacing of ordinary switches, it has often happened that trains have been thrown from the track by the breaking or bending of the connecting rods or some other part of the moving apparatus. This can never take place with WHARTON'S PATENT SWITCH, as the main track is absolutely immovable, being spiked down to the cross ties.

In conclusion, these Switches give absolute protection to the travel on the main track, being no more encumberance than if they were miles away. This is the case whether the Switch is fastened right or fastened wrong; or not fastened at all, but left loose.

To illustrate the safety and economy of the WHARTON RAILROAD SWITCH, let us state a case. If one hundred trains are to pass over the road from Springfield to Boston—ninety-nine to go to Boston and one to switch off at Worcester—for the ninety-nine trains switches are entirely removed from the road; therefore, no accidents from switches can result to them. Having disposed of ninety-nine per cent only one per cent is left for our consideration. For so great a boon in such a large percentage of safety and the saving of wear and tear of track, cars and locomotives, we might be willing to take considerable care and accept many disabilities in switching off the one train at Worcester, if such conditions were necessary. But none such exist, as the train in question is removed to the siding track with perfect ease, and the switch in no case can be left wrong, to endanger other trains which follow; therefore, switch accidents are impossible when the WHARTON SWITCH is used.

The limited express between New York and Washington has run over a WHARTON SWITCH, at high speed, at Philadelphia for many years, where the New York track intersects the Baltimore road, thus demonstrating the perfect safety of fast travel over the WHARTON SWITCH when used to transfer trains from a siding to the main track, or where two main tracks intersect.

Many thousands of WHARTON SWITCHES are in use on the following and other railroads:

The Pennsylvania Railroad; Philadelphia, Wilmington and Baltimore Railroad; Naugatuck; United of New Jersey; Wilmington and Weldon; Marietta and Cincinnati; Northern Central; Cleveland and Pittsburg; New Haven and Northampton; Pittsburg, Cincinnati and St. Louis; Pittsburg, Fort Wayne and Chicago; New York Central and Hudson River; Atlanta and Richmond Air Line; Central Pacific; Philadelphia and Erie; Allegheny Valley; Little Miami; Indianapolis, Cincinnati and Lafayette; Central, of Georgia; Wil., Col. and Augusta; N. Y., Providence and Boston; New Orleans, Jackson and Great Northern; New York and Harlem; Chesapeake and Ohio; Troy and Greenfield; West Jersey; Ashtabula and Pittsburg; Philadelphia and Baltimore Central; Connecticut River; Camden and Atlantic; Metropolitan Elevated, New York; East Tennessee, Virginia and Georgia; Lehigh Valley; Baltimore and Potomac.

PHILADELPHIA.
November 1st, 1879.

Monster Ferry Boat.

The new ferry boat "Canton," built by the Harlan & Hollingsworth Company, was successfully launched at their yards in Wilmington, Del., on the 6th inst. The boat is owned jointly by the Baltimore and Ohio and the Philadelphia, Wilmington and Baltimore Railroad Companies, and is to be used to transport the cars of those roads across the harbor of Baltimore, from Locust Point to Canton and return, thus affecting a saving of from 25 to 30 minutes between Washington and New York. The hull is of iron, double-ended, with side wheels, and of the following dimensions: length between perpendiculars, 311 feet; length over all, 324 feet; breadth of beam, molded, 36 feet, 8 inches; over all, 68 feet; depth from base line to top of deck beams in the centre, 13 feet, 3 inches. The main deck will be planked, from end to end, with heavy white pine plank, upon which cross ties will be placed and iron rails laid for five tracks, giving track room for the transportation of a full train of passenger or 27 freight cars. The machinery and interior work will be put in as quickly as possible, the present intention being to put the boat into service about the middle of April. The machinery will consist of two independent horizontal jet condensing engines of thirty-six inch cylinders and nine feet stroke, placed over the gunwales of the boat. Each en-

gine will drive a paddle wheel 25½ feet in diameter and 8 feet face. There will be two boilers on the guards, on opposite sides of the paddle-boxes from the engines, dimensions as follows: each boiler is 21 feet long, shell 8 feet in diameter and 9 feet across the front. They have about 50 square feet of grate each and 1,800 square feet of heating surface. They are proporti ned for a working pressure of 60 pounds of steam, should that amount be required.

What the Elevated Roads Really Cost and Should Pay.

Some months since, and before the discussion of reduced fares was opened by the Legislature, we had occasion to get an estimate of the cost of constructing the elevated roads from an engineer who had been employed in said construction and who has since been connected with the building of the Brooklyn Elevated road. Hence his estimates, given below, are based upon facts and knowledge of the work coming under his immediate inspection as well as upon an engineering basis, and may be regarded as approximately correct for the amount of road then constructed. The date of this estimate was last Summer or early Autumn, and before the cost of all material had advanced so largely as since. The road built since then may have cost materially more or not, according as contracts were made prior to or subsequent to that date, of which we have no positive knowledge, although it is the belief that a larger part of the material was contracted for before the great advance. For our purpose, however, we will take the cost per mile for building these roads separately up to that date, as per this engineer's outside estimates, including stations, road-bed and real estate, as follows:

New York Elevated per mile of road	$300,000 00
Rolling stock and equipment	100,000 00
Total	$400,000 00

Cost of "roadbed and superstructure including iron" as per the company's report to the State Engineer for 1878 is as follows (including "loss on bonds and legal expenses"):

New York Elevated per mile of road	$727,727 00
"For cars and engines"	36,727 00
Total	$764,454 00
Excess paid per mile of road over actual cost	$364,454 00

The cost of rolling stock and equipment is, per said report, seen to have been $36,727 per mile instead of $100,000 estimated by the engineer, which difference would increase the excess paid per mile of road over actual cost to $427,727, or more than double the real cost of the road. The engineer's estimates were as follows for the Metropolitan Elevated per mile of road:

Road-bed, real estate and stations	$400,000 00
Rolling stock and equipment	100,000 00
Total	$500,000 00

It is to be remarked that the engineer's estimate for rolling stock and equipment was purposely placed high to cover what might yet be found necessary to complete the same, and hence the excess of his estimates as noted for the New York Elevated. The company's report to the State Engineer for 1878 includes the cost of construction and equipment under one head so that we cannot separate those items for comparison, although the totals show what we desire, that is the excess paid over actual estimated cost for which they could have been built:

Metropolitan Elevated per mile of road including "cost of road and equipment"	$1,631,000 00
Excess paid over actual cost per mile of road	$1,131,000 00

This includes in addition land damages and land paid for by both companies which are of course omitted from the engineer's estimate and cannot be deducted for comparison, as the companies' reports do not separate the items. It will thus be seen that the amount paid by these two roads for construction and equipment during 1878 before the advance in materials, was more than double what it should have been in the case of the New York Elevated and more than three times in the case of the Metropolitan, excepting of course what may have been paid for land, land damages and legal expenses, which for some reason they have not itemized in their reports.

Applying this result to their capitalization, we find that the $15,000,000 of the New York Company represents less than $7,500,000 actual value in construction and equipment, and that the $15,000,000 of the Metropolitan Company represents only about $5,000,000 actual value in construction and equipment. The difference between these totals and those reported to the State Engineer must be accounted for in discount on bonds and stocks sold for construction, land purchased, land damages and legal expenses and whatever is then unaccounted for must be the profits of construction divided among the constructors, and the difference between the amounts so paid out, as per the companies' reports and their capitalization is so much "absolute water," to use the distinguishing term of the distinguished counsel of the New York Central road, for stock issued for absolutely nothing and that issued for something not included in the cost of construction and equipment of railroads, yet which has some real value to stockholders. Under this latter head there is no doubt justice in the issue of sufficient additional stock to cover the *natural* advance in cost of material from the unnaturally low prices at which most of that used in these roads was bought; else they would be left to rebuild or replace these roads some day at much higher prices than the original cost represented by their capitals. The advance in railroad supplies has been about 75 per cent since those of the elevated roads were bought, assuming that they were all contracted for at the prices of those used in 1878. Of this advance about half is natural, and therefore permanent, leaving 37½ per cent to be added to the real cost of the roads to enable them to be renewed at the average cost of material used. Thirty-seven per cent added to the $12,500,000 total honest cost of construction and equipment of the two roads as shown above would give a total joint capitalization of $17,187,500. To this, $3,000,000, as a liberal estimate, could be added for land purchased, land damages, discount on stocks and bonds sold for construction and legal expenses, making a round sum of $20,000,000 for the legitimate capitalization of all these elevated railroads on which the public ought to be asked to pay a good return in dividends for the capital actually invested and the risk assumed by the projectors of these experimental roads. Instead, however, they have a capitalization of more than double that sum or $43,000,000, including $13,000,000 of the "Manhattan" Company, which is simply their *alter ego*, and represents in its stock nothing whatever but "absolute" water, outside of the franchises of the other roads. Ten per cent dividends upon the capital of the two original companies based upon $20,000,000 capitalization is all the public should be asked to pay, since the roads pay nothing for their franchises from the public except 2 per cent of their earnings to the city.

Here, therefore, is the basis upon which the Assembly should fix the fares of these roads in the bill now before it, which would require $1,550,000 in round numbers against $2,320,000 now required for the $17,000,000 6 per cent bonds and $13,000,000 10 per cent stocks of the New York and Metropolitan Companies alone, which sum is now paid by the Manhattan Company with prospects of a dividend of some size on its stock also, else it would not be selling at nearly 50 per cent.

If then the roads are earning $2,320,000 on their entire original issues and promise to earn 5 per cent on the additional $13,000,000 Manhattan stock, as is indicated by the prices of these stocks, or $3,000,000 in all, it follows that fares can be reduced, so that their earnings shall not exceed $1,550,000 or interest and dividends on $20,000,000 instead of $30,000,000, as now and probably $43,000,000 hereafter.

☞ The Chesapeake and Ohio Railway Company have called in for immediate redemption, and are now paying off, $380,000 of the purchase money obligations given to the creditors of the old Virginia Central Railroad Company on account of the purchase of the property by the present company. By the terms of the decree of sale these obligations would fall due in 1880 to 1887, the company having the option to pay them off at any time before maturity, of which option they have availed themselves.

☞ The earnings of the Northern Central Railway in January, 1888, were $334,494.36, the operating expenses $214,060.90, and the net earnings, $120,433.46; in January, 1879, the earnings were $265,002.76, the expenses $187,330.92, and the net earnings $77,671.84—showing an increase in earnings of $69,491.60, with an increase in expenses of $26,729.98, making an increase in net earnings of $42,761.62.

Northern Pacific Railroad.

A dispatch to the Sacramento Record-Union dated Portland, Oregon, February 24th, says that the Northern Pacific Railroad Company are grading between Wallula and Ainsworth, intending to connect the first-named point with the road of the Oregon Railroad and Navigation Company. This piece of road will be in operation at an early day. It will, in fact, probably be the first section completed, as the connection will be necessary for further business. A ferry will be put in on Snake river. The reports which have been circulated that there is a delay in obtaining rails in the East for this road, are unfounded. Four vessels have recently been loaded and dispatched, and three more are just about ready to sail. Others will follow. Not less than 18,000 tons of material will be shipped this year from the East for the construction of the Northern Pacific Railroad on the Pacific slope. The first vessels should begin to arrive in June.

Statement of the Public Debt of the United States, March 1, 1880.

Interest paid by United States, $45,651,153 94; interest repaid by transportation of mails, &c., $13,656,910 27; balance of interest paid by United States, $31,994,215 67.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The earnings of the Texas and Pacific Railway Company for Jan. and Feb., 1880, were $157,423.17; expenses, $259,320.11—net earnings, $198,103.06; expenses to earnings, 56 per cent; increase in net earnings over 1879, $66,-083.10. For the nine months ending Feb. 29, 1880, the gross earnings were $2,085,733.40; expenses, 998,283 66—net earnings, $1,087,449.74; expenses to earnings, 48 per cent; increase in net earnings over same period last year, $402,158.73.

☞ The approximate earnings of the Atchison, Topeka and Santa Fe Railroad and leased lines for the month of February, 1880, were $444,000; actual earnings for corresponding month in 1879, $369,106.64—increase $74,893.36. Actual land sales for the month of February, 1880, $12,-500; actual land sales for corresponding month in 1879, $17,426.43—decrease, $4,926.43.

☞ The earnings of the Central Pacific Railroad Company for the month of February, 1880, were $1,038,000; for the month of February, 1879, $1,056,691. The earnings for the first two months, of 1880, were $2,261,000; for first two months, 1879, $2,145,857.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 11, 1880.

Our last review closed with an active and higher stock market for the recent favorites of speculation, with Louisville and Nashville and Nashville and Chattanooga up, on the announcement of the stock dividend of 100 per cent and cash dividend of 15 per cent, noted in our last, Lake Shore on talk of a 2 per cent quarterly dividend hereafter upon semi-official information, Lake Erie and Western on rumored purpose of the Lake Shore and also of the Chicago and Alton to control this line. Manhattan Elevated stock has been both up and down on the prospects of the five cent fare bill at Albany.

On Friday the chief feature was an excited advance in Ohio and Mississippi, on the rumored purchases by the Louisville and Nashville people, when 92,000 shares changed hands, since when there have been rumors of purchases both in the interests of the Gould party and of Erie, and Atlanta and Great Western for a through line to St. Louis from New York; but there was no confirmation of either, and under free sales at the advance, supposed to be by the Baltimore and Ohio people, the market broke heavily back from 44⅛ to 37 again, as it is impossible to take the road out of the B. & O. receivership, without the stockholders receiving about $2,000,000 of cash, until when the Baltimore and Ohio has safe possession.

The telegraph war has been transferred to the Courts of the different states where there have been no decisive defeats or victories to affect these stocks materially. The Western Union dividend of 1¾ per cent instead of 2 per cent as talked when the stock was up to 115, has added to the depression in that, and its statement for the past quarter shows that their surplus over this dividend of 1¾ per cent was only $311. This is unfavorable compared with last quarter and taken in connection with the competition of the American Union for the future, and the consequently reduced rates already in effect, together with the expenses of litigation, and it is difficult to see how the street can be induced to take any more of the stock even at the present rate, which is 5@10 higher than last quarter when the surplus was much larger. It is no doubt, as we have intimated, been a selling market for the large holders the past two months, when we warned people not to buy it, on promised larger earnings and dividends, and we now warn them alike regarding Lake Shore, which is being seriously talked up and sold, and the same may be said in a less degree of all the Vanderbilt stocks, and no doubt o the coal stocks in view of the very unexpected

unfavorable statement of the Central of New Jersey, published in another column, which shows in the face of all the advance in its shares, on talk of increased net earnings and of a probable dividend in the near future, that its total indebtedness has been increased the past year over $3,000,000 notwithstanding all the improvement in business and the alleged corresponding improvement in the coal trade. The same was true of the Delaware and Hudson statement made recently, as well as of the Reading in December,

The worst showing however, is that of the Central of New Jersey, perhaps, in view of all that had been given out almost in semi-official form; beside its report does not show what this increased indebtedness is for, while the increase in net earnings is only $55,000 exclusive of leased lines, which are not included in report. During the week Mobile and Ohio stock advanced to 29 on rumored purchases of the Louisville and Nashville combination, but it was not confirmed.

Houston and Texas Central early in the week also advanced, on rumored new combinations with the Texas Pacific, and Michigan Central sympathized with Lake Shore. Pacific Mail was also a feature, on the effects of the contract named in our last, with the Pacific roads, but it broke badly at the close on realizing sales, it is said of large holders, while there is also buying at the drop on the belief that it was broken down by inside operators to get it back for another advance,

Chesapeake and Ohios were also very active at one time and advanced to 25½ for the common stock, on sales Saturday of 33,900 shares, which amount is said to be due to the reported purchase of the Louisville and St. Louis Air Line, by the Southern Pacific people, to connect that line with the Atlanta seaboard via St. Louis and Louisville to Mount Sterling on the Louisville, Cincinnati and Lexington, to which point the Chesapeake is building its line.

The bank statement shows a further loss in surplus reserve of $1,513,000, which is now $2,314,000 on a continued outflow of currency. In consequence, money as a rule has been in good demand at 5@6 per cent, the outside being the ruling rate and at one time a commission was paid, and the rate was kept up by the purchase of only $2,000,000 of bonds by the Treasury instead of $5,000,000 as was expected. The prices were 103.43@104 for sixes of 1880, 103.40@104 for fives of 1881, chiefly the latter. In this connection we hear a good deal of dissatisfaction expressed at the awards which are made for different classes of bonds, as the Secretary may choose after the bids are in, and it so happens that the First National Bank always gets the lion's share.

Sterling Exchange opened steady and quiet but became stronger on a light supply of commercial bills and a good demand from the importers, and prices advanced during the early days of the week.

Railroad bonds have been firm and in good demand both speculative and investment, at full prices early in the week, but they yielded at the close with stocks, as a rule. Governments have been firm and in steady demand without much change until Tuesday, when they were better in anticipation of large purchases by the Treasury, but yielded slightly on the result.

Attention is called to the advertisement and also to the notice of the Southern Pacific bonds in another column, which are offered as a first-class investment to the public for two days only; also to the notice of the Stock Exchange, London, containing the protest to the English Committee of the Atlantic, Mississippi and Ohio Railroad Company.

The Stock market began to give way on Wednesday on the late fancies led by Ohio and Mississippi, Pacific Mail, Nashville and Chattanooga, and Louisville and Nashville, followed in a measure by the whole list. On Thursday some of these stocks were still more depressed and broke again severely, with almost a panicky feeling at times closing up at a decline, which will be seen from our closing prices below, compared with the daily closing prices for the week in our table of quotations.

The earnings of 33 railroads for the month of February, compiled by the Commercial Bulletin, show a marked increase in almost every case, while the average is 34 per cent over February, 1879, and 30 per cent for January and February over last year. The Northwestern roads, Illinois Central, Louisville and Nashville and Gould roads show the largest increase.

The annual report of the Union Pacific Railway was read at the annual meeting of its stockholders held in this city on the 10th inst., when the board of directors and officers chosen at the consolidation in January were re-elected without change. The financial results of the year are as follows: gross earnings, $18,201,077 66; the operating expenses and taxes were $5,475,503 44—leaving as surplus earnings $7,725,574 22. Adding $423,014 50, interest collected on investment securities, gives a total of $8,148,588 72. The payments for interest, dividends, sinking funds, and on account of subsidy bonds aggregated $6,952,427 87, leaving a surplus for future use of $1,196,161 55. During the year $1,000,000 collateral trust bonds were issued for the construction of branch roads, $94,000 sinking fund bonds were sold, and the following were redeemed and canceled: $585,000 land grant bonds, $1,000 income bonds, $138,000 sinking fund bonds, and $63,000 Omaha bridge bonds, making a net decrease of $307,000, and placing the funded debt on Dec. 31, 1879, at $50,495,000. The company owns other companies' bonds of a par value of $7,990,500, and stocks of a par value of $8,669,400. The gross earnings as compared with those of 1878 show an increase of $79,805.08, and the operating expenses an increase of $98,917.25, making a decrease of surplus earnings of $19,112.17. The passenger earnings increased $17,540.20, and the freight earnings, $18,882 13. The Government earnings increased $34,433.81. The express earnings were $488,645.92 for 12 months in 1878, and $360,840.90 for 10 months in 1879. The business has been turned over to the Pacific Express Company in exchange for stock. The construction expenses aggregated $128,388.38, but the sale of four locomotives and of some land at Omaha reduced these to $101,456.92.

Mining stocks have suffered another shock in the rumored break in Little Pittsburg and Central Arizona to 9 and 8 respectively, and people are consequently as afraid of those mines admitted to the Stock Exchange list as of those on the Mining Exchange. A meeting of Consolidated Arizona and California stockholders was held today for the purpose of securing Eastern representation in the management of the mines and to appoint a committee to go to the mines and investigate and report on their condition.

The closing quotations on Thursday were, Adams Express, 112@114; American Express, 57½@58; Atlantic and Pacific Telegraph, 45½@46; Canada Southern, 67¼@68; Central of New Jersey, 86@86½; Central Pacific, 80@81; Chesapeake and Ohio, 23@23½; do. 1st pref., 31@32; do. 2d pref., 24@25; Chicago, and Alton, 106½@107; do. pref., 119@@—; Chicago and Northwestern, 93⅜@93½; do. pref., 106½@107; Chicago, St. Paul and Minneapolis, 56@56½; Chicago, Milwaukee and St. Paul, 80⅞@81½; do. pref., 103¾@104; Chicago, Rock Island and Pacific, 152@154; Chicago, St. Louis and New Orleans, 40¼@40⅜; Cleveland, Columbus, Cincinnati and Indianapolis, 77½@78; Col., Chicago and Indiana Central, 18@18¼; Delaware and Hudson Canal, 83@83¼; Delaware, Lackawanna and Western, 91⅞@92; Hannibal and St. Joseph, 38¾@39; do. pref., 72¾@73; Illinois Central, 102⅜@102⅝; Lake Shore and Michigan Southern, 108⅞@109; Louisville and Nashville, 156½@—; Michigan Central, 92@92½; Morris and Essex, 107@107⅝; Manhattan Railway, 49⅞@50; Metropolitan Elevated, 116½@117; New York Elevated, 124½@125; New York Central and Hudson River, 131½@131⅝; New York, Lake Erie and Western, 44⅛@44¼; do. pref., 69½@70.; Northern Pacific, 32¾@33; do. pref., 55½@55¾; Ohio and Miss. 36⅛@36¼; Pacific Mail, 53⅝@53⅞; Philadelphia and Reading, 69¾@70; Quicksilver, 20@21½; do. pref., 70@71; St. Louis, Alton and Terre Haute, 23@24; do. pref., —@64; St. Louis and San Francisco, 43¾@44¼; do. pref., 57½@57⅞; do. 1st pref., 80½@82; St. Louis and Iron Mountain, 60⅞@61⅛; Union Pacific, 91½@91¾; United States Express, 48¼@49; Wells Fargo Express, 106@108; Western Union Telegraph, 111⅞@112; Wabash, St. Louis and Pacific, 44¼@44⅜; do. pref., 69@69½.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Central Railroad of New Jersey.

The following is an abstract of the report of the Central Railroad Company of New Jersey for the year ending December 31, 1879, recently filed in the office of the Controller at Trenton:

Capital stock, $18,563,200; funded debt, $32,766,660; other indebtedness, $3,341,208 90; railroad, main stem, Newark branch and Perth Amboy branch, $13,836 802 97; Jersey City Station, $1,315,865 50; Port Johnson Coal Station, $601,768 66; Elizabethport Station, $450,146 10; station houses, shops, etc., $824,850 42—total, $17,023,373 65; equipment of road, $3,150,000.

Earnings: passengers, $1,542,556 72; merchandise, $1,261,784 72; coal, $1,848,052 84; mail, express, rents, etc., $164,823 93—total, $4,817,218 21. Expenses: running expenses, $1,064,086 97; fuel consumed, $177,228 30; repair of roads, decks, buildings, etc., $827,898 02; repairs of equipment, $336,985 40; ferry expenses, $268,601 51; miscellaneous expenses, $270,888 87—total, $2,945,688 57—balance net earnings, $1,871,579 64.

The Moose Mine Management Overhauled.

A largely attended meeting of the Moose Mine stockholders was held last Monday at the office of H. Tracy Arnold & Co., at which 125,000 shares were represented. The object was to organize an opposition to the present mismanagement, whom the stockholders accuse of treachery to them in misrepresenting the condition of the mine, systematically, in connection with its present Superintendent, for a year past, while the managers have been unloading their stock on thier friends, to whom they had promised dividends from time to time to induce them to hold their stock and keep up the market. The report of the directors was submitted at this meeting in answer to the demands of these dissatisfied stockholders, expressed at a previous meeting, calling for the condition of the company. This report, which will be explained below, was not found satisfactory and the directors were called upon by the meeting for a fuller statement. The proposed mortgage of the mine for $100,000 was also opposed and able counsel was employed to resist its issue, on the grounds that it cannot be legally issued without the stockholders' approval.

By referring to the report of the Directors, above alluded to, it appears that from May 31st, 1879, to January 31st, 1880, 1,092 tons of ore were sold for $93.58 per ton or $102,192.65, of which $19,116.76 was applied to former indebtedness, and about $6,000 to purchase of new property, material supplies and "jacks," and $5,000 to permanent improvements, leaving some $72,000 to be accounted for, as the report strangely omits the operating expenses of the mine altogether. No wonder the stockholders called for a fuller report. One would suppose there had been more than $6,000 invested in "jacks" by a Board of Directors, who had the assurance or stupidity to submit a statement called for by stockholders, which omited the most essential part of a report, namely the expenses. There is "something rotten in Denmark" evidently, when such crookedness as this is resorted to to conceal the "developments in the Rogues Tunnel" on which their superserviceable Superintendent of the mine dilated so fully in his report printed with the report of the Directors last April, with which, a comparison of his present report is sufficient to destroy his reputation for a mining engineer and superintendent and to throw all his statements one side as worthless, which is the most charitable construction that can be put upon his conflicting statements.

Evidently, between the "Jacks" in the mine, and the Rogues in the Tunnel the stockholders have been woefully "frozen out," to quote the hackneyed words of the "managers" to their friends to account for the continual decline in the stock while they were selling out, and they may as well make up their minds to get rid of both "Rogues" and "Jacks," as soon as possible or loose their stock altogether; for whether under foreclosure of the proposed mortgage or by more "freezing out" they may be sure that there is nothing in this mine for them while under the present management. If then they cannot defeat the issue of the proposed mortgage, they can certainly elect a new Board of Directors in May as they hold the majority of the stock and then can put in a Superintendent who can find out what is in the mine in less than two years and put out two reports within one year that will not contradict each other.

New York, Lake Erie and Western R. R.

The earnings, expenses and net earnings of the New York, Lake Erie and Western Railroad for the month of January, 1879 and 1880, were:

	1879.	1880.
Gross earnings....	$1,147,173 46	$1,296,381 46
Working expenses..	962,031 44	946,565 19
Net earnings....	$185,142 02	$349,816 27

—showing an increase in earnings of $149,208, with a decrease in expenses of $15,466 25—making the increase in net earnings $164,674 25.

For the first four months of the fiscal year (October 1 to January 31) the earnings, expenses, etc., were:

	1878-'79.	1879-'80.
Gross earnings....	$5,207,852 17	$5,924,158 52
Working expenses.	3,579,415 72	3,950,654 51
Net earnings....	$1,628,436 45	$1,973,504 01

—showing an increase in earnings of $716,306 35, with an increase in expenses of $371,238 79—making the increase in net earnings $345,067 56.

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings of the Cleveland, Columbus, Cincinnati and Indianapolis Railway, and its leased line, the Cincinnati and Springfield Railway, for the month of February, 1879 and 1880, were:

	1880.	1879.
Main line....	$309,115 81	$250,860 22
Leased lines....	66,503 58	45,525 61
Totals....	$375,619 39	$296,385 83

Increase for the month, $79,233 56.

From January 1 to February 29 the earnings were:

	1880.	1879.
Main line....	$624,651 24	$185,721 97
Leased line....	143,599 83	98,605 91
Totals....	$768,251 07	$584,327 88

Increase since January 1, $183,923 19.

Traffic from the West.

One by one the various fast freight lines operating over the Erie Railway are commencing to send traffic to Boston via the Boston, Hoosac Tunnel and Western Railroad and the Tunnel. The Erie and North Shore Dispatch has been at work for some time, and the Erie and South Shore line, which runs over the Lake Shore and Michigan, while the North Shore runs over the roads north of Lake Erie, has just commenced to send freight to this point, both for domestic consumption and for export, while the other lines working over the Atlantic and Great Western Railroad will soon commence operations.

But while the movement of traffic eastward has vigorously commenced, no business for the West has as yet been received, for the reason that the stationery for this part of the traffic has not been issued to the agents. But as this difficulty is now being met, the westward movement will soon commence.

We understand that the extension of the Boston, Hoosac Tunnel and Western Railroad from Mechanicsville to Schenectady is to be vigorously pushed forward upon the opening of spring. A scheme is also in contemplation, by which the Erie Canal will be utilized, for the purpose of increasing the business of the Tunnel, as soon as the extension referred to is completed. This scheme looks to the employing of the canal for the transportation of grain and other heavy freights between Buffalo and Schenectady, where a transfer to the cars of the new road will be made, for transportation through the Tunnel to Boston, etc. In this manner the canal can be used to supplement the rail connections of the Boston, Hoosac Tunnel and Western Road via Binghamton to Buffalo, during the period of canal navigation, which is some seven months of the year. And in this way also, as will be seen, the Erie Canal can be made a valuable contributor to the traffic of the Tunnel roads, and the increase of our export trade. This connection has hitherto been impossible, owing to the close connections existing between the New York Central, the Boston and Albany and the Troy and Boston Railroads.—[Boston Journal.

Indianapolis and Evansville Railroad.

The organization of the Indianapolis and Evansville Railroad Company, for the purpose of acquiring the Evansville, Washington and Worthington Railway (which is already partially constructed between Evansville and Bloomfield) and finishing the entire line from Indianapolis to Evansville, was completed on the 6th inst., by the election of the Hon. J. C. New, President; R. G. Hervey, Vice-President and General Manager; C. S. Lewis, Secretary and Treasurer, and the following Board of Directors: John C. New, Ingram Fletcher, George H. Wright, T. A. Lewis, A. D. Streight, Charles Viele, M. Henning, J. J. Kleiner and R. G. Hervey.

☞ At the annual meeting of the Northern Central Railway Company held in Baltimore on the 26th ult., all the old directors were re-elected, as follows: Thos. A. Scott, Wistar Morris, Samuel C. Huey, Geo. B. Roberts, Edmund Smith, Geo Small, B. F. Newcomer, S. M. Shoemaker, J. N. Hutchinson, Dell Noblit, M. B. Sellers and Wm. Colder. The number of votes cast was 68,214. The directors afterwards met and re-elected the old officers, as follows: Thomas A. Scott, president; A. J. Cassatt, vice-president; J. S. Leib, treasurer, and Stephen W. White, secretaty.

☞ The Lehigh Valley Railroad Company is improving the gradients and curves on its Beaver Meadow branch, between Penn Haven and Black Creek Junction. As the line runs at present, the grade in some places is as much as ninety-six feet to the mile, and there are six bridges in a distance of about five miles. The new line has been run on the north side of Quakake Creek, and will cut off four of the bridges and reduce the grade and curvatures to about fifty feet a mile. The grading is now in progress, and being pushed forward rapidly.

☞ The Government of Canada has under consideration a proposal emanating from Sir John Glover, Governor of Newfoundland, for making St. Johns a summer port for the whole Dominion. The idea is to connect St. Johns with the mainland by a railway across the island and a line of ferry steamers across the Straits of Belle Isle, whence the line would form a junction with the Intercolonial Railway. By this arrangement two or three days will be saved to vessels and the resources of Newfoundland will be opened up.

☞ The James River and Kanawha Canal Company have closed a contract with the Richmond and Allegheny Railroad Company for the purchase by the latter of all works and franchises of the canal company. The railroad company proposes to construct a railroad along the entire line of the canal from Richmond to Buchanan, about 200 miles, and from thence about 40 miles,

to Clifton Forge, on the Chesapeake and Ohio Railway.

Chesapeake and Ohio Canal.

In the United States Circuit Court at Baltimore, on the 5th inst., Judge Bond rendered a decision in the case of Daniel K. Stewart vs. The Chesapeake & Ohio Canal Company. The answer of defendant to the bill of plaintiff was dismissed, the Court declaring that neither the State of Maryland nor W. W. Corcoran was an indispensible party to the suit. Mr. Corcoran is a mere trustee, having no title, and the State waived its liens on the tolls and revenues of the canal by the act of 1844. A bill was also filed by Stewart on the same day to restrain the Cheasapeake and Ohio Canal Company from contracting with any railroad company to carry coal from the West Virginia mines at a rebate on the tolls.

☞ General J. H. Devereux, has been re-elected President; H. B. Hurlburt, Vice-President; George H. Russell, Secretary and Treasurer, and E. B. Thomas, General Manager of the Cleveland, Columbus, Cincinnati and Indiacapolis Railway Company.

☞ Both houses of the Virginia Legislature have passed the bill authorizing the James River and Kanawha Canal Company to sell its works and franchises to the Richmond and Allegheny Railroad Company, which proposes to build a railroad up the valley of the James river from Richmond to a point on the Chesapeake and Ohio railway.

☞ The Central Pacific Railroad Company has called in the remainder of its outstanding convertible bonds, ($1,483,000,) due in '83, to be paid off Sept. 1 next.

THE FOLLOWING PROTEST has been handed in to the English Committee of the Atlantic, Mississippi and Ohio Railroad Company:

STOCK EXCHANGE, LONDON, March 1st, 1880.

Gentlemen:—We, the undersigned, holders of and representing holders of above $1,500,000 consolidated bonds of the Atlantic, Mississippi and Ohio R. R. Co., at present represented by certificates of your Committee appointed in 1876 by the then bondholders, and presided over by Sir H. W. Tyler, desire to point out that in holding these certificates we do not wish to be understood to acquiesce either in the scheme proposed by your Committee, or to your subsequent proceedings, but that on the contrary we shall hold ourselves at liberty to represent our views before the proper Court, whenever necessary.

Signed, FOSTER & BRAITHWAITE,
HESELTINE, POWELL & CO.,
VIVIAN GRAY & CO.,
B. G. GOLDSMID,
JOHN TAYLOR & CO.,
WALKER, RUSSELL & CO.,
HELBERT, WAGG & CAMPBELL,
TOM NICKALLS & CO.,
BORTHWICK, WARK & CO.,
CREWS & LICHTENSTADT,

HAES & SONS,
L. MESSEL & CO.,
GOWAN & MARX,
T. E. TWYCROSS.

It is understood that these dissentients give a general support to the Dutch Committee.

OFFICE OF THE ONTARIO SILVER MINING CO.,
31 BROAD ST., NEW YORK, March 5, 1880.

DIVIDEND NO. 53.

THE REGULAR MONTHLY DIVIDEND OF FIFTY CENTS per share has been declared for February, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst. Transfer books close on the 10th inst.

H. B. PARSONS, Assistant Secretary.

Issue of $10,000,000 Six Per Cent. First Mortgage Railroad and Land Gold Bonds of the

SOUTHERN PACIFIC RAILROAD CO. OF CALIFORNIA,

In Bonds to bearer of $1,000 and $500 each, with provision for Registration of Bonds in the name of the holder if desired. Issued April 1st, 1875; October 1st, 1875, and October 1st, 1876: and payable thirty years from date.

Interest at SIX PER CENT. per annum, payable half-yearly on the 1st April and 1st October, IN GOLD, at New-York.

Messrs. SPEYER & CO., New York,
Messrs. BREWSTER, BASSET & CO., Boston,
Mr. LAZ. SPEYER ELLISSEN, Frankfort-on-Main,
Messrs. SPEYER BROTHERS, London,
Messrs. TEIXEIRA DE MATTOS BROS., Amsterdam,
Mr. E. J. MEYER, Berlin,

Offer the above bonds for subscriptions.

The subscription list will be opened on Thurrday, March 11, and closed on Friday, March 12.

The issue price is **97 1-2 per cent.**, ex April 1st, 1880, coupon, payable as follows:

5 per cent. on application.
15 per cent. on allotment.
40 per cent. on April 15, 1880.
37½ per cent. on May 15, 1880.

Allottees may antipate installments under discount at the rate of 5 per cent. per annum.

These bonds are secured by a first mortgage on the railroad and telegraph line, rolling stock, fixtures, land, and franchises of the Southern Pacific Railroad of California, under which $46,000,000 bonds can be issued, of which $29,520,000 (of which the above $10,000,000 are a part) have thus far been issued. The total length of projected road is 1,150 miles, made up as follows: From San Francisco to Soledad, 143 miles; Carnadero to Tres Pinos, 18 miles; Soledad to Poso Junction (Lerdo), 160 miles; Huron to Yuma, 529 miles; Los Angeles to Wilmington, 22 miles; Mohave Junction to Colorado River, (estimated,) 278 miles; of which 712 miles are completed and in operation, viz.: From San Francisco to Soledad, 143 miles; Carnadero to Tres Pinos, 18 miles; Huron to Yuma, 529 miles; Los Angeles to Wilmington, 22 miles.

These 712 miles of railroad are divided into the Northern and Southern Divisions.

The Northern Division runs from San Francisco to Soledad, and from Carnadero to Tres Pinos, in all 161 miles.

The Southern Division extends from Huron to Yuma, with a branch road from Los Angeles to Wilmington, in all 551 miles, and is intersected at Goshen by the San Joaquin Branch of the Central Pacific Railroad.

The net earnings over operating expenses for these divisions are stated by the company to have been:

	For the Northern Division.	For the Southern Division through rental from Central Pacific R. R. Company, Lessee.	Total.
1878	$499,344 03	$1,656,360 00	$2,155,704 03
1879	362,761 78	1,635,551 93	1,998,316 71

—or more than sufficient to meet the interest on the amount of outstanding bonds.

The company states that the decrease in the earnings of the Northern Division in 1879 was owing in part to temporary causes, which having been recently removed, a return to the former scale of earnings is promised.

The Northern Division is separated from the Southern Division by a gap of about 100 miles by one route, from Tres Pinos to Huron, and by a gap of about 160 miles by another route, from Soledad to Poso Junction. The San Joaquin Valley Branch of the Central Pacific Railroad furnishes the Southern Division with an outlet both to San Francisco and eastwardly over the main line of the Central Pacific Railroad, and, in view of common interests, the Central Pacific Railroad Company has taken a lease of the Southern Division of the Southern Pacific Railroad of California, for a period of not less than five years from January, 1880, and by the terms of the lease "if a railroad is not completed in five years from that date, so that there is a connection of the Southern Pacific Railroad of California with the Eastern system of railroads on what is known as the 32d parallel line, the lease shall be extended until such connection is made, provided such extension does not exceed five years longer, or 10 years in all," from January, 1880. By the terms of the lease, "the net rental agreed to be paid during the continuance of this lease and any extension thereof shall be $250 a month, or $3,000 a year per mile," (being, at present, on about 551 miles, equals about $1,650,000 annual rental,) "and if, for any cause, it shall be reduced by mutual consent of the parties that the annual amount of such rental as reduced shall, at least be sufficient to pay all the interest that has been, or may be agreed to be, paid in any one year on any bonds of the party of the first part" (Southern Pacific Railroad Company of California.) "herein outstanding during the continuance of the lease."

The number of acres of land embraced in the United States land grant and covered by the mortgage is estimated at upward of 11,000,000 acres, of which, it is stated by the company, over 7,000,000 acres appertain to portions of the road already completed. Of these there have been issued to the company patents for more than one million acres, and lists for selected lands are now pending with the United States Government for a large amount. The net cash avails of the land sales are to be applied to the repurchase or ultimate payment of these bonds; $334,000 are stated by the company to have been redeemed up to Dec. 31, 1879, from the surplus so available.

A sinking fund of $100,000 a year, commencing in 1882, from the earnings of the road, is provided as a further security for the loan.

It is contemplated that the Southern Pacific Railroad of California will form part of a through line to El Paso, where, meeting with other roads projected to that point, an outlet to the Gulf of Mexico and to the Atlantic seaboard may be obtained. At its terminus at Yuma it connects with the Southern Pacific Railroad of Arizona, an independent but closely affiliated company, which during the past year was built and operated to Casa Grande, a distance of about 182½ miles, and is since being rapidly pushed to the vicinity of Tucson, about 65 miles further east.

The allotment of the loan, which will be made at the discretion of the issuing houses, will be made as early as possible after the subscription is closed. If no allotment is made, the deposit will be returned in full, and if only a portion of the amount applied for be allotted, the balance of the deposit will be applied toward the payment of the amount due on allotment.

In default of payment of the sum due on allotment, or any subsequent installments, the allotments and all payments will be subject to forfeiture.

Upon payment of the deposit on allotment, Scrip Certificates to bearer will be issued, which will be exchanged for definite Bonds as soon as the issue price is paid up.

The Mortgage Deed, Copy of Lease, and Official Statements can be inspected, by intending subscribers, at the office of Speyer & Co., No. 52 Exchange-place, New York, or Messrs. Brewster, Basset & Co., No. 35 Congress-st., Boston.

MARCH 8, 1880.

Railroad Company's Liability.

A case presenting the question as to what constitutes a co-servant came up on the 9th inst. for adjudication in a trial in the Supreme Court, New York, before Judge Donohue. The action was brought by Alice McCosker, as administratrix, to recover damages from the Long Island Railroad for the death of her husband. The facts, as admitted at the trial, were that the deceased was employed as a driller at Hunter's Point and was under the immediate supervision and direction of the yardmaster, who employed and discharged the drillers; that a caboose car was brought into the depot one day in the summer of 1877, with a broken bumper, and that the yardmaster, knowing of the broken condition of the car, directed the deceased to take a chain and attach the caboose car and another car standing on the track and that while he was so employed the yardmaster signalled the engine to back, whereby the deceased was killed. The defence was that the negligence, if any, of the yardmaster was that of a co-servant, for which the defendant was not liable, while the plaintiff took the ground that the executive duties of employing and discharging drillers, including the deceased, and of employing and using suitable means and appliances for removing and distributing cars, with which the defendant had vested the yardmaster, placed him in a position representing the corporation for whose negligence they were liable. The Court took this view of the law, denied a motion for a non-suit, and submitted the case to the jury, who returned a verdict of $5,000 for the plaintiff.

☞ Articles of agreement were signed in this city on Friday last by officers of the Pacific Mail Steamship Company and the overland railroads. The agreement is to continue five years, and under its terms the railroad companies guarantee to Pacific Mail a business of $110,000 a month on through traffic. Steamships are to be run every fortnight, and to each ship the railroad companies agree to pay for carrying 600 tons of freight. It is provided also that the contract should be terminated only in the event of the completion of a competing line of railroad, and then only after 90 days' notice.

☞ The English holders of the old repudiated Mississippi bonds which bear date of 1840 have made a proposition to forego the interest for the past forty years, amounting to about $13,000,000. The State to issue new bonds for $7,000,000, the amount of the original issue, the new bonds to bear interest for the first year, beginning on the 1st of January, 1879, (the first payment being in July, 1879,) at the rate of three per cent per annum, increasing annually after the first year at the rate of one per cent per annum until the original rate is reached.

☞ The map of a route for another Coney Island Railroad was filed in Register's office, Brooklyn, N. Y., on the 9th inst. Its name is the Coney Island Transit Company and the route proposed is from a point about 100 feet from the Iron Pier, northward to Surf-ave. thence west of Vanderveer's Hotel to the Prospect Park and Coney Island Railroad depot, along Park st. to Engeman's Hotel, and to and along Sea Breeze ave. to Ocean ave. The directors whose names are attached to the map are S. H. Mildenberg, Henry C. Mangell, W. G. Steinmetz, H. W. Ringway, P. H. Rappenhagen, Joseph J. Ripe, John M. Reid, August J. Warner, Henry Von Deilen, and Frederick De Winge.

Coal Tonnage.

The leading coal carrying companies make the following reports of their tonnage for the year to February 28, compared with their respective amounts carried to the same time last year.

	1880.	1879.	Increase.
Philadelphia and Reading	1,506,517	1,359,702	146,815
Schuylkill Nav....	38,041	15,631	22,410

Clearfield, Pa.....	320,776	214,413	106,363

*Decrease.

Virginia State Debt.

The Governor of Virginia has vetoed the bill recently passed by the Legislature of that State, known as the Riddlebarger bill. The Governor notices the title of the "act to re-establish the public credit" as a misnomer, its object being really to repudiate a large part of the State debt. He holds that the pretext set forth in the preamble of the act are empty, and never heretofore relied on. Indeed, the people, by repeated acts of the Assembly, and by the constitution adopted in 1869, have acknowledged as due the entire principal, more than $13,000,000 of which is now attempted to be repudiated by this bill.

☞ A steam canal boat is now in course of construction, to be put on the Lehigh and Delaware Canal. The craft is to be entirely of iron, except the crossbeams and deck. It will be 88 feet in length, 10 feet 8 inches in breadth, and will be propelled by a ton horse power steam engine with a screw wheel. It is said that, by a new invention to be applied to the screw, there will be little agitation of the waters, and the wearing out of the banks will be consequently avoided.

☞ The United States Supreme Court has decided the suit brought to enforce payment of the defaulted bonds of the town of Racine, Wisconsin. There were $50,000 of bonds which stopped paying interest about 1857. The Supreme Court ordered the payment of the bonds, with interest to date, thus once more enforcing municipal honesty and good faith.

☞ The Dacota and Minnesota Northern Railroad Company has been organized to build a branch from Barnesville, on the St. Paul and Manitoba Railroad, into Moorhead, Fargo and the Northwest.

☞ The Lookout Mountain Railroad Company have contracted for the construction of a railroad between Chattanooga, Tenn., and Rome, Ga., about 60 miles, the work to be completed within one year. The price to be paid is $23,000 per mile, of which $15,000 is to be taken in bonds, and $8,000 in paid up capital stock.

Transportation over Land Grant Railroads.

The Court of Claims at Washington, on the 8th inst., rendered a decision in the case of the Atchison, Topeka and Santa Fe Railroad Company against the United States, in which the claimant seeks to recover compensation for transportation services rendered by it to the United States in 1875 and 1876. These services, at the claimant's ordinary tariff rates charged the public, would be worth $170,843.35. The Court finds, however, that the claimant is entitled to recover for transportation done for the United States over its land grant road, from March 31, 1875, to Dec. 1, 1876, only 50 per cent of the ordinary tariff rates charged the public, that is, $85,421.76, which, less $79,748.44, already paid by the Government on account, leaves still due $5,673.32. The opinion of the court as to the percentage of its claim which the road is entitled to recover is decisive of 12 or 15 other pending cases brought by land grant railroads, involving between $500,000 and $1,000,000.

☞ Judge Woods, of the Circuit Court, New Orleans, on the 6th inst., ordered a decree declaring Edmund D. Morgan and James A. Raynor the lawful trustees of the New Orleans and Mobile Railroad, and ordering the sale of the road and the distribution of the proceeds among the bondholders.

☞ The Boston Journal says there is a prospect that the Midland Railroad may be granted the use of the tracks of the Boston and Lowell Railroad in entering Boston, and thus the necessity for a separate location in the city be obviated.

☞ The regular through passenger trains on the Cincinnati Southern Railroad passed over the entire length of the road, both North and South, on the 8th inst., the Northern bound train arriving promptly on time. This makes the opening of the road to all kinds of business.

☞ The Bradford, Bordell and Kinsua Narrow gauge Railroad Company was organized at Bradford, Penn., on the 6th inst., with a capital of $100,000, and it is proposed to have the road in operation within 90 days from the date of obtaining the right of way.

☞ A bill has been passed by the Legislature of Connecticut, adopting the boundary line between New York and Connecticut, agreed upon by the Joint Commissioners appointed by the two States. Fisher's Island, at the east end of Long Island is conceded by the settlement to New York.

☞ The New York, Woodhaven and Rockaway Beach Railroad is rapidly approaching completion between the beach and Woodhaven. It is expected that a construction train will be run across Jamaica Bay on the 13th inst.

☞ The Ontario Silver Mining Company gives notice that the regular monthly dividend of Fifty Cents Per Share has been declared for February, payable at the office of the transfer agents, Wells-Fargo & Co., No. 65 Broadway, on the 15th inst,

☞ The earnings of the Chicago, Burlington and Quincy Railroad for the year 1879 were $14,778,000, the operating expenses and taxes $7,557,000, and the net earnings $7,221,000. Net surplus for the year $234,444.

Richmond and Allegheny Railroad.

The following is the organization of the new Richmond and Allegheny Railroad Company, which recently purchased the property and franchises of the James River and Kanawha Canal Company; George W. Bartholomew, of Hartford, Conn., President; H. C. Parsons, of Richmond, Va., Vice President; Sheppard Homans, of New York, Secretary and Treasurer; and the following other directors: Francis O. French, Conrad N. Jordan, Samuel Shelton, and Hugh McCulloch, of New York; Cyrus H. McCormick, of Chicago, Ills.; Henry Miller, of Columbus, Ohio; James G. Blaine, of Maine, and Charles E. Wortham, of Richmond Va. Alexander and Green, of New York, are the counsel of the company, and Lawrence Meyers, New York, the financial agent. The depositories are the Farmers Loan and Trust Company and the Third National Bank, of New York. The trustees of the mortgage are Henry M. Alexander, of New York, and Henry K. Ellison, of Richmond. The construction of the road will be pushed forward vigorously, and the company expects to complete it before the expiration of the 20 months fixed by act of the Assembly.

☞ Messrs. Mason, Shanahan and Hoge have taken the contract for the construction of the Richmond and Allegheny Railroad between Buchanan and Clifton Forge. The road is to be completed by the 1st of July next. Peter B. Williams of Lynchburg, is General Superintendent. Mr. H. D. Whitcomb has been appointed consulting and Major R. H. Temple Chief Engineer of the road.

☞ The bill repealing the law requiring the Valley Railroad Company to complete its road within a given time, or forfeit its charter, has passed both branches of the Virginia Legislature.

FISK & HATCH,

BANKERS

AND DEALERS IN GOVERNMENT BONDS,

And other desirable Investment Securities,

No. 5 NASSAU-ST., N. Y.

Buy and sell all issues of Government Bonds in large or small amounts, at current market prices, and will be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We are prepared to give information in regard to first-class Railway Securities and to execute orders for the same.

Buy and sell all marketable Stocks and Bonds on commission, at the Stock Exchange or in the open market.

Receive accounts of Banks, Bankers, Merchants and others, and allow interest on daily balances; and for those keeping accounts with us we collect U. S. coupons and registered interest, and other coupons, dividends, etc., and credit without charge.

We give special attention to orders from Banks, Bankers, Institutions and investors out of the City, by MAIL or TELEGRAPH, to buy or sell GOVERNMENT BONDS, STATE and RAILROAD BONDS, BANK STOCKS, RAILROAD STOCKS, and other securities.

We have issued the Seventh Edition of "Memoranda Concerning Government Bonds," copies of which can be had on application.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending February 28, as reported by the several carrying companies, amounted to 312,404 tons, against 395,534 tons in the corresponding week last year, a decrease of 83,130 tons. The total amount of anthracite mined for the year is 2,993,267 tons, against 2,009,536 tons for the same period last year, a decrease of 16,269 tons. The quantity of bituminous coal sent to market for the week amounted to 45,338 tons, against 54,661 tons in corresponding week last year, a decrease of 9,323 tons. The total amount of bituminous mined for the year is 545,867 tons against 411,652 tons for the corresponding period last year, an increase of 134,225 tons. The total tonnage of all kinds of coal for the week is 357,742 tons, against 450,195 tons in corresponding week last year, a decrease of 92,453 tons, and the total tonnage for the coal year is 3,539,134 tons, against 3,421,171 tons to same date last year, an increase of 117,958 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of February was 141,786 tons, of which 118,271 tons were coal and 23,455 tons coke. The total tonnage for the year thus far has been 1,073,824 tons, of which 823,135 tons were coal and 250,689 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending February 28th were 31,442 tons, and for the year to that date 263,042 tons—126,802 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 25,445 tons, for the year 232,683 tons, an increase of 116,866 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 5,977 tons, and for the year 27,776 tons, an increase of 7,353 tons, as compared with 1879.—[Phil. Ledger, March 8.

☞ The work of narrowing the gauge of the Atlantic and Great Western Railroad will be commenced on the 22d of June. It will require an immense force of hands to do the work, probably from 2,000 to 3,000. Everything will be got in readiness, and even the inside spikes will be partly driven. Then, at a certain hour the work will be begun simultaneously at all parts along the line, and the line, which is over 300 miles long, will be narrowed down to the standard gauge in a wonderfully short space of time. The track will be narrowed from Leavittsburg west, and a third rail put down from Leavittsburg east.

☞ The Indianapolis, Cincinnati and Lafayette Railroad was reorganized at a meeting of the stockholders held at Indianapolis on the 6th inst., under the name of the "Cincinnati, Indianapolis, St. Louis and Chicago Railway." The capital stock was fixed at $4,000,000, and the following directors were elected: Thomas A. Morris, Charles W. Short, George Wilshire, George W. Hoadley, S. J. Broadwell, M. E. Ingalls, John King, Jr., Thomas D. Messler, Thomas H. Perkins, George Bliss, Thomas H. Sharpe and Charles G. Landon.

☞ The project of building the Chicago and South Atlantic Railroad has been revived. The route proposed is by way of Delphi and Frankfort, to Indianapolis; or, if that be impracticable, by way of Reynolds, Rossville, and Frankfort. Southerly, it is contemplated to finish the old Blue Ridge Railroad from Anderson, S. C., to Knoxville, Tenn., and to build as direct connections as possible, the objective point being Port Royal, where a new weekly line of steamers to Liverpool, and other lines to South and Central America, are soon to be in operation.

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

New York, Friday, March 19, 1880.

Our Great Foreign Exchange and Commercial Credit Houses.

Comparatively few people outside of bankers, exporters, importers and shippers of money and merchandise are aware of the magnitude or extent of the interests represented by them, or of the manner in which they are generally conducted. Since the imports of gold have practically ceased, and the balance of trade has turned in favor of Europe, by reason of our increased importations, the past six months, and of the decrease in our exportations for the last four months in consequence of the huge speculations in our export staples, we have had occasion to look over the manifests of incoming vessels to learn what classes of goods were being imported so largely as to turn the balance of trade almost as largely against us as it had been in our favor. In doing this, we were surprised to find that two to every three, at least, of these consignments were in the name of some half dozen of our largest foreign exchange and commercial credit houses, and less than one-third in the names of the importers to whom the goods belonged. From this it might be supposed that these great banking houses were also importers of two-thirds of the merchandise that comes into port. This, however, is not so, as none of them are importers, but simply loaners of their credit to importers to bring goods from all parts of the world without having to advance the money to pay for them from four to six months before they arrive, or having to submit to a heavy discount on their own bills of exchange in countries where their credit, however good, is not so generally or well known as that of these great exchange houses, to whom the importers can pay a commission for their letters of credit, and still have a profit left in the discount on their own bills.

Hence the goods bought on these letters of credit are consigned to their makers, partly for convenience in London on which all these letters are drawn and there accepted by the London houses of these firms, and partly for the security of the issuers of these letters, who turn over the goods on their arrival to the owners who pay the acceptances of the London houses, assume charge of the goods and pay duties and freights without other trouble to the bankers, except in cases of default on the bills drawn under the letters of credit, which were originally issued on the credit of the importer or the deposit of a margin sufficient to cover any fluctuations in the market prices of the goods while being manufactured or in transit.

In this way is the great bulk of our import trade done, and through some half a dozen houses, as a rule. The names of some of these houses are as well known here and in Europe as household words, and a few of them the world over, wherever American or British commerce extends. As a matter of interest we have looked over the list of importations to ascertain to what houses the greater number of consignments come. We found that while some houses had a partial monopoly of certain trades and others of special localities where their bills are best known or their houses best connected, there were practically only two houses whose business was general and large the world over. These two were the Messrs. Brown, Brothers & Co. and the Messrs. Baring Brothers, whose business is about equally divided and distributed over the world, though there are localities and trades which favor one or the other. In this respect the Brown Brothers are no doubt the leading house in the United States as they are more closely identified with our merchants, being more distinctly an American house which has done more to develop our export trade and especially that in cotton than any other, and, for half a century, while as an English house Messrs. Brown, Shipley & Co. are as well known in Europe and the East and West Indies and South America as the Baring Brothers.

These two may be said therefore to rank as the first and universal issuers of letters of credit throughout the world, whose bills sell alike and equally well wherever there is commerce; while their Travelers' Circular Letters of Credit can be cashed in any place in the world. As Americans know the Brown Brothers better they also give their Travelers' Circular Letters the preference when going abroad.

Progress of the Southern Pacific.

The recent issue of bonds upon the completed portion of the Southern Pacific noted in our last issue, has drawn the attention of the investing public to this line and its prospects. We learn from the officers of the road, in addition to what we have already published, that the road will be completed to Tucson this month, whence a branch line to the Northern boundary of Mexico will be built after the completion of the main line to El Paso. This branch will extend 70 miles from Tucson to the Mexican boundary via Tabac. The main line, which is nearly completed to Tucson, will

be finished to the Rio Grande at Fort Thorn in about twenty months a distance of 300 miles; and from there to El Paso, a distance of 350 miles in two years more with the present force of 2,500 men, largely Chinese, whom the company find it most satisfactory to employ.

In two years, therefore, it will have an Eastern outlet via Colorado, and in four years via St. Louis over the Southwestern system from that city. Should the Texas Pacific be then completed it will also have an outlet through Texas and probably to New Orleans via Houston and San Antonio. With the sale of the bonds which was so successfully closed last week, and the capital already invested in the road by its projectors, the completion of this line is therefore an assured fact and not dependent upon the raising of the funds necessary, as in the case of most other Pacific Railroad projects whose securities are now offered to the public.

Is the Texas and Pacific to be Built?

There are rumors on Wall Street that the presenting of the bill in Congress asking to have the time for building the Texas and Pacific extended ten years, is in consequence of an inability to raise the necessary funds to build it now, as contemplated by the "Syndicate" recently formed for that purpose. If this be the case, then we are left to infer that the late "subscriptions" to the bonds of that road were not bona fide, though announced with such a flourish at the time, as having been taken in less than a week's time, and that subscribers were turned away by the Syndicate, so great was the demand. It is also said that Mr. Gould has sold out his interest both in the contract for construction and in the securities of the road. If this is the case then it is very doubtful if the road will be completed soon, for it would take away all the new support brought to the scheme by Mr. Gould's connection therewith and leave the burden of raising the money upon the shoulders of Col. Scott and his followers, where it was for seven years without their being able to raise the required amount.

More Mexican Railroad Charters.

One would suppose that the field for railroad building in the United States is becoming exhausted to judge from the number of Mexican charters and concessions lately obtained by American companies from the Government of the ancient Montezumas. There is, however, a certain mystery about all these grants and the proposed operations under them, that throws doubts over the whole business which are not calculated to inspire the investing public with sufficient confidence in their success to induce the placing of much capital at the disposal of the projectors and promoters of these enterprises. They may all be good and bona fide grants and undertakings, but the public will want a little more light on the subject, if the money is to be raised here for constructing them. We have already noted the Tehauntepec Railroad, of which a good deal of information has been given by the officials; but we do not remember having yet seen anything like a financial exhibit of the concern or its prospects for business based upon admitted facts. The Mexican Telegraph Company lately announced without previous warning of the existence of such a project, and the alleged subscriptions for its stock so suddenly taken, are still more mysterious affairs, of which none but the promoters seem to know anything. We now hear that the Legislature of Massachusetts has chartered three companies in the interest of the Atchison, Topeka and Santa Fe people or more properly of the Atlantic and Pacific's proposed new line to the Pacific.

These charters represent three separate grants for railroads, made under former administrations of the Mexican Government that require to be renewed before valid, which the Atlantic and Pacific people claim to hold. One is for a line from El Paso to the City of Mexico, one from there to the Pacific seaboard and one from Guaymas to the Arizona line. These grants include land, but since they were made so much of the valuable lands have been taken up by settlers that the remainder is said to be of little value. Where the money is coming from to build these roads we do not learn, nor where the traffic is coming from to support them if built, except from the mines which are but partially developed. If, however, the projectors propose to build the road with their own money as did the Southern Pacific, the public will have confidence enough to help them, no doubt by buying their bonds, which we hear are soon to be issued. If not then these latest projects under Mexican grants may be regarded as on paper only, for the present, for the public will scarcely invest in Atlantic and Pacific when they declined, as we are informed, to do so in the Texas and Pacific bonds lately issued.

Warwick Valley Railroad.

The Warwick Advertiser says that the stockholders of the Warwick Valley Railroad Company, of New York, and the Wawayanda Railroad Company of New Jersey, have voted—the former 3,700 to 18, and the latter unanimously—in favor of the consolidation of the two companies, and then adds:

The Articles of Agreement entered into by the two companies provide that the new organization shall be known as the "Warwick Valley Railroad Company," which new company assumes full control of all the franchises and privileges of the two old companies, agreeing to pay all the bonded and other liabilities of the two old companies. The combined bonded indebtedness of the two roads now amounts to $210,000. It is also provided that all the certificates of capital stock of the two companies shall be surrendered, and new certificates issued therefor by the new company. The total capital stock to be issued by the new company is not to exceed $340,000. All stockholders will then be entitled to equal benefits and privileges. The new organization will be represented in a new Board of Directors consisting of Grinnell Burt, John H. Brown, R. Wisner, James Burt, W. C. Sheldon, Homer Ramsdell, John L. Welling, D. S. Halstead, H. B. DeKay, Ezra Sanford, C. H. Demarest, J. C. Houston and S. C. Welling. The officers are: Grinnell Burt, President; James Burt, Vice President; C. H. Demarest, Secretary; Thomas Burt, Treasurer.

The consolidated line from Greycourt to McAfee will be 22 miles long, 14½ miles of which will be in the State of New York, and 7½ miles in the State of New Jersey. Eleven miles of the track of the extension is now laid between McAfee and Warwick, leaving a gap of one-half mile at the village of Warwick, to complete the connection between the old line and the new, which will be laid in a few days, thereby giving an all rail connection between the Hudson and the Delaware Rivers, a consummation of that which has been looked forward to, for the past thirty years. The road will be opened for business the 1st of April, at least so far as the milk traffic may require. Regular schedule trains will probably be placed on the road about the middle of April. The early completion of this line is stimulating an active interest in the iron ore trade, that will avail itself of the privileges of this new outlet to the furnaces of Northern New Jersey, and the Lehigh Valley. The Centennial Mine is now mining ore ready for shipment. The Thomas Iron Company is getting its machinery on the ground preparatory to extensive mining operations early in the spring. Mr. Isaac Taylor has been erecting steam pumps and hoisting works at his mine, and will commence raising ore in the course of a few days. Mr. M. F. Ten Eyck has opened ready for work one or two very fine veins of ore. The Layton Mine is sinking shafts, it is said, with excellent prospects of large deposits. Several other mines are being opened with flattering prospects. The company has contracted for its depots which are very neat and tasteful, (the plan being prepared by a New York architect.) The entire exterior to be covered with California red wood shingles.

Early in April active operations will be resumed, with a view of completing the branch line from Warwick to the Iron Mines. When all these varied iron industries are in full blast, it is safe to say that new life will be infused in every channel of business along the line of the Warwick Valley Railroad.

☞ New steel works are to be erected in Chicago at a cost, including 75 acres of land, of $2,000,000. The new establishment is to be completed within a year, and will consist of four blast furnaces, Bessemer converting works and steel rail mills. It will employ 2000 men, consume 250,000 tons of ore per year, and turn out 90,000 tons of rails.

☞ J. H. Sternbergh, Bolt Manufacturer, Reading, Pa., has recently got a siding into his works, and is having erected one of Riehle Bros., Standard Railroad Track Scales of 80,000 lbs., capacity.

☞ The scheme for uniting by canal the German Ocean and the Baltic Sea has so far matured that Herr Dalstrom, a Hamburg engineer, has been furnished with a concession to commence the preparatory operations.

☞ Gen. Adna Anderson, formerly Receiver of the Chicago, Danville and Vincennes Railroad Company, has been appointed Chief Engineer of the Northern Pacific Railroad Company.

☞ The Delaware Division Canal Company have declared a dividend of $7.50 per share, payable in scrip of the Lehigh Coal and Navigation Company, deliverable on the 20th of March.

☞ The officers of the St. Louis and San Francisco Railroad Company, elected on the 16th inst., are: E. F. Winslow, President; James D. Fish, Vice President; Calvin Littlefield, Secretary and

Treasurer, and C. W. Rogers, General Manager and Superintendent. The directors are: Jas. D. Fish, Jesse Seligman, Fred Butterfield, Calvin Littlefield, E. D. Adams, A. W. Nickerson, Wm. F. Buckley, E. F. Winslow, Alden Speare, Francis B. Hays, Walter L. Frost, James Baker, Ozias Bailey.

Western Union Telegraph Company.

In the report presented by the Executive Committee at the last Quarterly Meeting of the Board, held December 10, 1879, the net profits for the quarter ending December 31 (November being partially and December wholly estimated), were stated at $1,475,841 21.

The official returns for the quarter (ended December 31) showed the profits to be $1,529,169 91, or $53,328 70 more than the estimate.

The following revised statement based upon complete returns, will show the condition of the company at the close of the quarter ended December 31, 1879:

Surplus October 1, 1879, as per last quarterly report		$1,143 873 14
Net profits quarter ended December 31, 1879		1,529,169 91
		$2,673,043 05
From which deducting—		
Dividend of 1¾ per cent, paid January 15,1880.	$717,761 25	
Extra dividend of 1 per cent, paid same date.	410,035 00	
Interest on bonded debt	107,425 89	
Sinking Fund appropriations	20,000 00	
Construction account	256,468 72	
Purchase of Telegraph Stocks, Patents, etc.	53,624 68	
		1,565,115 54
Leaves a surplus, January 1, 1880 of		$1,107,927 51
The net profits for the quarter ending March 31, instant, based upon official returns for January, nearly complete returns for February, and estimating the business for March (reserving amount sufficient to meet the claims of the Atlantic and Pacific Telegraph Company, under existing agreements), will be about		$1,325,071 41
Add surplus, January 1, as above		1,107,927 51
		$2,432,998 92
From which appropriating—		
Interest on bonded debt	$107,200 00	
Construction	150,000 00	
Sinking Fund appropriations	20,000 00	
Patents	275,000 00	
Real estate	45,000 00	
Sundries	10,000 00	
		607,200 00
Leaves a balance of		$1,825,798 92
A dividend of 1¾ per cent requires		717,560 00
Deducting which, leaves surplus, after paying dividend of		$1,108,288 92

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and three quarters per cent from the net earnings of the three months ending March 31, be, and is hereby declared payable on the 15th day of April next, to stockholders of record, at the close of business on the 20th day March, instant.

Resolved, That for the purpose of such dividend the stock books of the company be closed at three o'clock on the afternoon of the 20th of March, instant, and be reopened on the morning of the 16th of April next.

Respectfully submitted,
NORVIN GREEN, President.

New York, March 10, 1880.

Atlanta and Charlotte Air Line Railway.

At the recent annual meeting in this city of the Stockholders of the Atlanta and Charlotte Air Line Railway Company, the following were chosen directors; Eugene Kelly, Richard Irvin, jr., P. P. Dickinson, Belden R. McAlpine, Francis Smith, Abram S. Hewitt, William H. Fogg, William A. Hadden, Hiram W. Sibley and William B. Isham, New York; Hiram Sibley, Rochester, N. Y., and S. Wilmer, Baltimore, Md. The only important change in the board is that of W. A. Hadden in place of F. P. Clark, of Baltimore, who has disposed of his interest in the road. Richard Irvin, jr., another new member, takes the place of his brother, Alexander P. Irvin. From the report which was presented it appears that the gross earnings were $777,398.49, and the operating expenses, including fixed charges, &c., $525,677.64, leaving net $251,620.85, but of this there was paid for construction, $84,714.41; for equipment $12,900.11, and for interest on preferred bonds, $35,000, making the balance to income account $119,003.33. The balance on hand Jan. 1, 1879, was $34,842.60, which added to the other made a balance on Jan. 1, 1880, of $153,845.93. There will be due for interest on July 1, on $1,250 000 of bonds, $175,000, which the company expects to be able to pay. Next month $17,500 additional will fall due on preferred bonds, but this sum the company has already on hand outside of the amount previously noted.

☞ The Virginia Legislature has adopted a joint resolution providing that the Riddleberger debt bill (vetoed) and the bill known as the Ross Hamilton substitute (rejected by the House) shall be submitted to the people in November next for a vote thereon, in order to decide which of the two measures is most acceptable. The Hamilton substitute fixes the rate of interest at 3 per cent, and the principal at about $34,000,000.

☞ The directors of the Strawberry Hill and Nantasket Beach Railroad Company, recently elected, are: Eben D. Jordan, Charles Marsh, Wm. H. Long, W. Dexter Wiswall and Wm. F. Shedd. The officers are: Eben D. Jordan, President; George D. Clark, Treasurer; F. W. Strong, Clerk. The company expects to have the road in operation by June 15.

☞ Chicago dispatches say that the Chicago and Northwestern Railway Company has decided to build branches and extensions during the summer aggregating 265 miles, the greater portion in Dakota Territory. The company has also ordered 800 new cars to be used for transporting iron ore from the Lake Superior mines.

☞ The organization of the East Florida Railroad Company is announced, making the last link in the proposed short road between Jacksonville and Savannah, reducing the time from New York to Jacksonville to 40 hours, against 60 at present.

☞ Articles of incorporation have been filed with the Secretary of State of Ohio of the Dayton and Southwestern Railroad Company, termini Dayton and College Corner, in Preble county; capital, $100,000 by James Applegate and others.

Wharton Switch Co.

The Wharton Railroad Switch Company's works are on Washington avenue, between Twenty-third and Twenty-fourth streets, West Philadelphia. The company has been established twelve years. They manufacture patent railroad switches, frogs and crossings and other railroad supplies, also building of architectural and engineering iron work. The ful complement of 150 hands is now employed, they receiving an advance of ten per cent over the wages paid them a year ago. Upwards of 2,000 tons of iron and steel were used in the works last year, but in consequence of the great activity in their business they are using at the rate of 4,000 tons the present year.

At the south-east corner of twenty-fifth street and Washington avenue William Wharton, Jr., carries on the business of manufacturing patented passenger railroad switches and crossings, rolled Bessemer steel grooved rails for street railways, etc., where he has been established for ten years past. He is the patentee of the above mentioned street rails and curves, which are sent to all parts of the world, consignments having been made to Bombay, India, and goods are constantly being shipped to all parts of South America. Business is very good at present; 36 hands, the full number are employed at satisfactory wages.

☞ The Bodie Standard says that the New York parties who own and built the Battle Mountain and Austin road own valuable mining property at Silver Peak, and surveyed a route for the road to Columbus during the winter. These parties are Samuel J. Tilden & Co., but Tilden's name is kept in the background.

☞ Articles of association have been filed in the Secretary of State's office at Trenton, N. J., for a railroad from Sea Girt to Point Pleasant. The directors are Francis S. Lathrop, Anthony Reckless, Benjamin Williamson, Henry S. Little, William T. Tillinghast, Robert W. Forest and James Moore.

☞ The Little Chief Mining Company has declared its second monthly dividend of one per cent, or fifty cents per share, out of the second month's net earnings, amounting to one hundred thousand dollars on a capital stock of ten million dollars, payable on the 25th inst. at the Central Trust Company's.

☞ The Homestake Mining Company has declared its regular monthly dividend (No. 15) of 80 cents per share for February, payable on the 25th inst. at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway.

☞ The proposals for the building of the Cambria and Somerset Railroad published elsewhere, will close on Thursday next. A large number of bids from capitalists are said to be already in the hands of President Donnelly.

☞ The veto message of Gov. Holliday has been sustained in the Senate of Virginia, the attempt to pass the Riddleberger readjustment bil over the veto failing by a vote of 12 to 16. The matter can hardly come up again in any shape in the Legislature before December, 1881

Oregon Railroads.

Articles of incorporation were filed at Portland, Oregon, on the 28th ult. of the Albany and London Railroad Company. Capital stock, $200,000. The incorporators are J. N. Dolph, J. Brandt, Jr., and Paul Schulge. Object, to construct and operate a railroad from Albany to Lebanon, in Linc county. Articles of incorporation were also filed by the same parties of the Salem and Silverton Railroad Company. Object, to construct and operate a railroad from Salem to Silverton. Capital stock, $200,000. The incorporators of these two companies are prominent railroad men and officers in the Oregon and California and Oregon Central Railroad Companies, and there is every reason to believe that the projects contemplated will be carried forward to an early completion.

Statement of the Public Debt of the United States, March 1, 1880.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The stockholders of the Columbus, Jeffersonville and Cincinnati Railway Company have voted to incorporate a branch line from Mt. Sterling to Hillsboro, and to increase the capital stock from $400,000 to $1,500,000; also, to authorize a committee to close a contract with a construction company in Columbus for the completion of the proposed line.

☞ The Montreal, Portland and Boston Railroad will be extended from Strasbridge, Quebec, to East Franklin, Vt., to connect with the St. Johnsbury and Lake Champlain Railroad to be extended from Sheldon, Vt., to East Franklin as soon as spring opens. A large force of men will soon be put on, and the work will be pushed rapidly forward.

☞ Work on the Baltimore and Delta Narrow Gauge Railroad is rapidly progressing under the contract of Messrs. Thorn & Dunn, and other contractors. There remains not quite twelve miles to be graded from Delta to Baltimore.

☞ The disbursements at the Michigan State Treasury during February were $48,663.42, the receipts $560,749.45, and the balance on hand at close of the month $1,270,022.86.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 18, 1880.

The close of our last issue was characterized by a very weak and unsettled feeling in the Stock and Merchandize Markets, all of which were getting tired and very weak under the continued strain upon the whole country to hold prices where they had been put last fall, chiefly by speculation. The stock market, since a panicky feeling was noted by us at the close of last week, precipitated by the break in Ohio and Mississippi, Pacific Mail, and Nashville, Chattanooga and St. Louis, which had been kited up high beyond all foundation for higher prices, to a point that would have been regarded as extremely dangerous, even in the highest of the bull fever last fall. Yet so accustomed has the public become to these prices that they bought on this advance and some brokers did the same who were in position to know the market, and one firm was finally carried down by the fall in the stocks, above named, and was obliged to suspend early in the week. What was true of the stocks that caused their failure was also true, though in less degree, of the balance of the list as repeated time and again by us, and again in our last review in which we advised our readers to let alone the whole market, and warned them especially against the Vanderbilt favorites, which had been laboriously hoisted beyond all reason for the purpose of unloading on the public. If any one now doubts our theory of the late rise that it was to sell on, he may now be convinced by the course of the market that since the great rise last fall the stock market has, with few exceptions, been a selling and not a buying market, and there are decided indications that the unloading process is not yet completed and it is a good market for the public to let alone, although there will no doubt be plenty of chances to make a "turn" both on the ups and downs of the market for some time to come, but it is exceedingly dangerous "turning" for outsiders, for so soon as the great operators do get unloaded and are relieved from preventing a panic in stocks, as now compelled to do for their own protection, their interests will be on the other side of the market, to break down prices and buy back their lines of stocks at cheaper and safer prices.

The special features of the market, in addition to those noted above, have been as follows: Pacific Mail broke again to 44, omitting the fractions, Ohio and Mississippi to 35, Nashville and Chattanooga to 83, followed by Erie to 42, Iron Mountain to 56, the lowest point in months, while Central of New Jersey led down the coal.

shares; Western Union and Lake Shore depressed the whole Vanderbilt list on a severe break in both as indicated in our last. Houston and Texas broke also, with the other fancies that have advanced out of proportion to the balance of the list. The express and bank stocks and Government bonds are about all that stood up against the general downward tendency, all speculative bonds and state securities of doubtful character sympathizing with the stock market.

On the other hand Manhattan Elevated advanced, on the defeat of the five cent fare bill at Albany, and the consequent covering of a large short interest made in anticipation of its passage in that body as in the House. Yet this was followed by a break equal to the advance of this week. Kansas and Texas also fell with Wabash late in this week, and the Pacific roads also yielded, though the Gould stocks were the most steady as a rule.

That there has been a short interest created on the drop there is no doubt, as the public have been sellers as well as the street, but the market has not been raided by large operators who have tried to hold prices while selling their long stocks which has caused the decline. Hannibal and St. Joseph was also lower. Money has ruled quite active at full rates, and occasionally a commission has been paid, as the flow of currency to the interior is not returning as expected, where it will no doubt permanently remain for the increased wants of trade.

Foreign Exchange has been irregular, as, early in the week speculators sold their bills borrowed on stocks, to get time money at 1 cent decline from quoted rates. The supply of bankers bills will also increase soon on the sale abroad of some $6,000,000 to $7,000,000 of the Southern Pacific bonds made a week ago.

The supply of commercial bills has also been fair and will probably increase on the freer movement in breadstuffs and cotton into export on declining prices, as there have been free shipments the past week and large freight engagements for grain for the balance of this month's loading. The purchase of $2,000,000 bonds by the Treasury helped the money market but slightly, as it had been anticipated. Foreign Exchange grew very firm at the close of the week. The bank statement was more favorable than expected also, and this helped to rally stocks from the extreme depression of Saturday. The surplus reserve is now about $2,000,000.

Imports for the week have been under the late average, or $10,000,000, against $14,000,000 the week before, and $8,000,000 same time last year. The following are the total imports and exports from January 1 to the dates named:

	1878.	1879.	1880.
Imports to March 13.	$56,523,249	$57,814,289	$93,409,768
Exports to March 9..	60,594,691	53,749,206	55,521,068
Exports over imports ..	4,062,442	.....	.....
Imports over exports...	.....	4,065,083	37,888,695

Assuming that the imports and exports at New York this year bear the same ratio to the total foreign commerce of the whole country as they did in 1879, the totals for the United States thus far this year will be about as follows: Imports, $140,115,000; exports, $120,700,000. The exports of domestic produce from this port for the week are about $7,000,000, a slight increase, against $5,900,575 corresponding week last year and $8,154,874 in 1878.

Mining stocks have been fairly active but depressed, except on some of the lighter fancies, as the market has not recovered from the shock given by the Little Pittsburg and Moose crookedness, in which both Directions are believed to have unloaded on their friends. The closing prices were better, however, as a rule.

The anti-discrimination bill before the Assembly, is meeting with general protest from both merchants, manufacturers and commercial exchanges, and it is doubtful if this part of the new railroad bills will become law.

The merchandise markets are getting heavier and weaker daily and there has been a gradual shrinkage in values throughout with few exceptions. Iron and all its manufactures are getting very shaky here and abroad and realizing sales both by dealers and speculators as well as railroad companies themselves have lowered the prices of nearly all, and some classes very materially. Other metals are following if indeed the decline in them has not preceded that in iron, especially tin and copper, the position of both of which we explained about a month ago in this review and indicated the decline that has since followed.

The closing quotations on Thursday were, Adams Express, 113½@114; American Express, 59½@60; Atlantic and Pacific Telegraph, 43½@44; Canada Southern, 66@68; Central of New Jersey, 85@85¼; Central Pacific, 79½@80; Chesapeake and Ohio, 23¾@24; do. 1st pref., 31@31½; do. 2d pref., 25¼@26; Chicago, and Alton, 106½@107½; do. pref., 119@—; Chicago and Northwestern, 94¾@94⅞; do. pref., 106½@106¾; Chicago, St. Paul and Minneapolis, 55¾@56; Chicago, Milwaukee and St. Paul, 81¾@82; do. pref., 104½@105; Chicago, Rock Island and Pacific, 156@157; Chicago, St. Louis and New Orleans, 38@39; Cleveland, Columbus, Cincinnati and Indianapolis, 78¾@79¼; Col., Chicago and Indiana Central, 17½@18; Delaware and Hudson Canal, 84@84⅛; Delaware, Lackawanna and Western, 92⅛@92⅝; Hannibal and St. Joseph, 36¾@36⅞; do. pref., 70@70¼; Illinois Central, 101¾@102¼; Lake Shore and Michigan Southern, 108¼@108⅜; Louisville and Nashville, 157@157; Michigan Central, 91⅛@91¾; Morris and Essex, 107½@108; Manhattan Railway, 47⅞@47¼; Metropolitan Elevated, 113@115; New York Elevated, 120@122½; New York, Lake Erie and Western, 44⅝@44¾; do. pref., 69@69½; Northern Pacific, 32¾@33⅛; do. pref., 55¾@55⅝; Ohio and Miss. 39⅜@39½; do. pref., 77½@79; Pacific Mail, 47⅝@47¾; Philadelphia and Reading, 69@69⅛; Quicksilver, 17⅜@18; do. pref., 76@77; St. Louis, Alton and Terre Haute, 20¾@21; do. pref., —@63; St. Louis and San Francisco, 43@43¼; do. pref., 56½@56¾; do. 1st pref., 79½@80; St. Louis and Iron Mountain, 59⅝@59¾; Union Pacific, 91@91¼; United States Express, 49¼@50; Wells Fargo Express, 107@108; Western Union Telegraph, 108⅛@108⅜; Wabash, St. Louis and Pacific, 43⅝@44; do. pref., 68⅞@69⅛.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Lake Erie and Shenango Valley Railroad.

The survey for a line for the Lake Erie and Shenango Valley Railroad from Conneaut Harbor, Ohio, to Vernon Centre, in Trumbull county, Ohio, was completed on March 3d. The Lake Erie and Shenango Valley line connects at Vernon Centre with the line of the Sharpsville and Lake Shore Railroad, and the two roads will form a continuous line from Sharpsville to Conneaut Harbor. The length of the entire line is 56¾ miles. The heaviest gradient going toward the lake is 30 feet per mile, and coming from the lake 40 feet per mile. Of the line from Conneaut Harbor to Vernon (45 miles) 90 per cent is straight ; while the curves are very light. Of the line from Vernon to Sharpsville (11¾ miles,) over 70 per cent is straight line. While there will be some quite heavy work in the vicinity of the crossing of Ashtabula creek, in Sheffield township, the average amount of grading per mile for the whole line will be small. The engineers are now busy in preparing maps and estimates in preparation for putting the road under contract. The U. S. Engineer in charge has recommended an appropriation of $26,000 for repairs at Conneaut Harbor, and advises an expenditure of $12,000 of that amount during the coming summer.

Selma, Rome and Dalton Railroad.

A circular has been prepared for transmission to the stock and bondholders of the Selma, Rome and Dalton Railroad, submitting for their approval a plan of reorganization, of which the following is the substance :

First mortgage bonds to be exchanged for new first mortgage bonds, at 50 per cent of principal and unpaid coupons ; second mortgage bonds to be exchanged for new second mortgage bonds on similar terms ; holders of income bonds to receive 25 per cent each of new common and preferred stock, without interest ; common stock to be relinquished for 75 per cent of new common stock ; all liens judicially decided as prior to the first mortgage bonds, and not payable in cash, to be on an equality with first mortgage bonds ; all obligations to be assessed pro rata for necessary expenses. The road runs from Selma, Ala., to Dalton, Ga., 237 miles. It is the successor of the Alabama and Tennessee River Railroad Company, chartered in 1848. It has been in the hands of Receivers for over seven years. Its authorized capital is $5,000,000, of which $3,750,000 was paid in at the last report. The first mortgage bonds then amounted to $5 000,000, the second mortgage bonds to $4,000,000, and the income bonds to $230,000.

☞ It is announced from Atchison, Kansas, that the Central Branch Railroad has been consolidated with the Union Pacific, and after the 1st of April will cease to be a division of the Missouri Pacific Railroad. It will resume its old name of "Central Branch Union Pacific," and its main line will be extended to connect with the Union Pacific road.

☞ The citizens of Augusta Ga., have voted to subscribe $50,000 to the Augusta and Knoxville Railroad to build a bridge across the Savannah River. The road is graded from Augusta to Greenwood, S. C., and will soon be ready for the iron.

☞ The Berks Run and Pittsburgh and Lake Erie Railroad Companies have been consolidated by an unanimous vote of both companies. The capital of the Berks Run (the right of way of which was leased to the Pittsburgh and Lake Erie) was $200,000.

☞ Twenty per cent of the capital stock of the Strawberry Hill and Nantasket Beach Railroad has been paid in and deposited in the International Trust Company of Boston. The work of building is to be commenced at once and it is expected the road will be running early in June.

☞ A contract has been let for the construction of the Wisconsin and Minnesota Railway from Colby to Chippewa Falls, a distance of 64 miles. The road is to be in running order by October 1st.

☞ The Indiana Southern Railroad was sold at Vernon, Ind., on the 11th inst. under a decree of foreclosure granted Samuel J. Tilden and W. H. Swift for $50,000, John S. Stolsenberg, an attorney of New Albany, being the purchaser.

☞ The Southern Pacific Railroad was completed to Tucson, Arizona, on the 17th inst., and the track was laid through the town.

Union Pacific Railroad.

To the Stockholders of the Union Pacific Railway Co.

The following is respectfully submitted as the Report of the operations of the Railroad Company for the year ending December 31, 1879:

The number of miles of road in operation during the year was as follows:

Council Bluffs to Ogden (including Omaha Bridge and approaches)	1,037.4 miles.
Ogden to Junction of Central Pacific Railroad	5 "
Total	1,042.4 miles.

This is the same as it was one year ago.

The earnings and expenses for the year 1879 are as follows:

Gross earnings, including Omaha Bridge	$13,201,077 66
Deduct operating expenses (including taxes)	5,475,503 44
Surplus earnings	$7,725,574 22
The operating expenses were 41.47 per cent of the gross earnings.	
Add interest collected on Investment securities	423,014 50
	$8,148,588 72

The Disbursements for Interest on Bonds, Dividends, and bonds purchased for Sinking Funds, were as follows:

Interest on bonds	$3,390,595 36
Dividends, 6 per cent	2,204,700 00
Sinking funds	207,444 00
Government earnings retained on account of Subsidy bonds	1,149,688 01
Total deductions from earnings	$6,952,427 37
Surplus for future use	1,196,161 35

The funded debt of the company has been changed during the past year as follows:

Collateral trust bonds issued*	$1,000,000 00
Sinking fund bonds sold	94,000 00
Redeemed and cancelled, viz:	
Land grant bonds	$585,000 00
Income bonds	1,000 00
Sinking fund bonds	138 000 00
Omaha Bridge bonds	63,000 00
Amount decrease	$787 000 00
Net increase	$307,000 00

The funded debt of the company, December 31, 1879, as per table hereto appended, was $50,495,000.

The bonds and stocks of other companies owned by this company are as follows:

Bonds, par value	$7,900,500
Stocks, par value	8,669,400
Total	$16,569,900

For details, reference may be had to the statement hereto appended.

The earnings and expenses for the years 1878 and 1879, including Omaha Bridge, compare as follows:

	1878.	1879.
Gross earnings	$13,121,272 58	$13,201,077 66
Operating exp	5,376,586 19	5,475,503 44
Surplus earnings	$7,744,686 39	$7,725,574 22
Percentage of expenses to earnings	40.98	41.48.

* These bonds are the first of a series issued, and to be issued to a moderate amount, the proceeds to be applied to aiding the construction of branch roads. They are secured by a deposit of bonds of such branch roads, at eighty per cent of their par value, with the Union Trust Company of New York, Trustee, the interest from which is sufficient to pay the interest on the Collateral Trust Bonds and provide a Sinking Fund for the gradual redemption of the latter.

The differences are as follows:

Gross earnings, increase	$79,805 08
Operating expenses, increase	98,917 25
Surplus earnings, decrease	$19,112 17
Percentage of expenses, increase	0.50

The passenger earnings for 1878 and 1879 compare as follows:

1878	$3,190,369 72
1879	3,207,909 92
Increase	$17 540 20

The freight earnings for 1878 and 1879 compare as follows:

1878	$7,405,634 39
1879	7,424,516 52
Increase	$18,882 13

The shipments of live stock for 1878 and 1879 compare as follows:

	Cattle and horses.	Hogs and Sheep.
1878	4,780 cars	883 cars
1879	6,179 "	1 356 "
Increase	1,399 "	473 "

This favorable showing will undoubtedly be very much increased the present year.

The erection of transfer stock yards has greatly facilitated the handling of live stock.

The government earnings for 1878 and 1879 (included in the gross earnings,) compare as follows:

1878	$1,115,054 20
1879	1,149,488 01
Increase	$34,433 81

The express earnings for 1878 and 1879 were as follows:

1878 (12 months)	$488 645 92
1879 (10 months)	360,840 90
Difference	$127,895 02

This business, formerly managed by the company, is now under the control of the Pacific Express Company, this company holding stock in the Express Company equal to its proportion of miles of road represented in the Express Company. The earnings of the express business will now come to this company in the form of dividends upon the stock it holds.

The car service for 1878 and 1879 compares as follows:

1878	$20,624 52
1879	20 74
Decrease	$20,603 78

This decrease is caused by large increase of local freight, requiring the use of more cars, and the use of stock cars of other companies, for the increased cattle business.

The mileage of freight cars for 1878 and 1879 was as follows:

1878	59,920,896 miles.
1879	68,441,149 "
Increase	8,520,253 "

The following renewals of track have been made during the year:

17,652 tons Steel rails; 1,152 tons Iron rails re-rolled; 72,870 Oak ties; 252,429 Pine ties; 50,021 Cedar ties.

The present length of road laid with steel rails is 485 miles.

The Western division (185 miles), which is largely made up of heavy grades and curves, is now all laid with steel rails, as well as all the grades and curves on the Laramie and Mountain divisions.

On the Eastern division the track has been raised and the banks widened at many points where ground was flat and subject to overflow of water.

The track on all the divisions is in excellent condition, very much improved from that of a year ago.

Quite an increase of side track has been made at Grand Island to accommodate the business of the St. Joseph and Western Railroad, now opened to that place.

On the Mountain division twenty-four trestle bridges, aggregating 948 feet in length, have been filled with earth after having iron culvert pipe placed through some of them, and channels made alongside of track between others, giving in all cases ample water way.

A few bridges on the Western division need renewing, which has been arranged to be done the coming season. Aside from this, all the bridges are in good condition, and will need only ordinary repairs.

For a more detailed statement of the operating expenses, and a comparison thereof with the year 1878, attention is called to the table hereto appended.

The construction expenditures for 1879 were as follows:

Depot at Council Bluffs		$651 32
Tenements at Council Bluffs		35 00
Rail mill at Grand Island		12,532 03
Tools and machinery		1,535 00
Water works		23,056 82
Ten locomotives	$83,244 41	
Less four sold	24,000 00	
		59,244 41
Four box cars	2,600 00	
Royalty on plough and scraper	3,000 00	
		5,600 00
Right of way and land		1,733 80
		$104,388 38
Less land at Omaha sold		2,931 46
		$101,456 92

A new passenger and freight depot has been erected at Kearney, and a new freight depot at Grand Island, to accommodate the increased freight business at these points. Small station buildings were also erected at Richland and Alda.

A mill for cutting off the worn ends of rails and punching and slotting the same has been erected at Grand Island. This will enable the company to use old iron rails taken out of track (when steel rails are laid) to much better advantage and more economy than heretofore.

A set of rolls and other necessary machinery is being placed in the Laramie Rolling mill, for the manufacture of merchant bar iron, fish plates, bolts and nuts. This will be a great saving in the material thus manufactured, as it will enable the company to work up scrap iron which heretofore has been sold at low prices.

The motive power of the company has been increased by the purchase of ten new engines, and decreased by the sale of four to connecting roads.

Four box cars were added to the rolling stock during the past year.

The equipment of the road is now as follows:

171 locomotives; 165 passenger, baggage and sleeping cars; 3,220 freight cars.

The production and cost of coal mined during 1878 and 1879 compares as follows:

	Tons.	Cost.	Average cost per ton.
1878	275,795	$287 216 85	$1 04⅛
1879	340,152	363 249 16	1 06¾
Increase	64,357	$76,032 31	2⅝

The sales of coal for private use during 1878 and 1879 was as follows:

	Tons.	Amount.	Average per ton.
1878	102,240¾	$627,247 76	6 13½
1879	125,662¼	710,013 00	5 65
Increase	23,422½	$82,765 24	.....
Decrease	.....	.....	48½

This decrease in average is caused by a reduc-

tion in price at points on the east end of the road for the benefit and encouragement of settlers, as fuel is scarce.

The demand for coal has been very large, and the company have been unable to furnish all that was wanted. It will be necessary to open other mines in order to meet this increased demand. This will be done this season.

Oil has been discovered the last year about ninety miles from the road, due north from Point of Rocks Station. Thorough tests have been made of it and it is found to be as good as any that can be bought in the market, and it is being used largely on the road. There is said to be an inexhaustible supply of it. It is already being offered for transportation, and it will probably soon become quite a prominent article of transportation, and add another to the local resources of the road.

The sales of land for 1878 and 1879 compare as follows:

	Acres.	Amount.	Average price per acre.
1878	318,903 47	$1,557,082 32	$4 88.25
1879	213,337 31	1,007,855 63	4 14.10
Dec	75,566 16	$549,226 69	74.15

This decrease of sales was caused by the decision of Secretary Schurz, regarding the right of pre-emption to settlers at $1 25 per acre, which very much retarded the sales of the company's lands.

This question was decided in favor of the company in 1878, and last year was affirmed by the Supreme Court, thus fully establishing the company's title.

The total sales of land to December 31, 1879, was 1,568,438.62 acres.

Average price per acre, $4 41, amounting to	$6,923,706 89
Sales of town lots	288,177 85
Interest received on contracts, &c.	741,311 85
Payments forfeited on canceled contracts	199 185 62
From other sources	21,464 62
Total proceeds	$8,173,846 83

DEDUCT EXPENSES.

Exp. land department	$835.050 01	
Taxes on land	835,023 75	
Expenses and taxes on town lots	36,737 47	
Discount, commissions, and railroad fares	183,066 45	
Total expenses		$1,889,877 68
Net proceeds		$6,283,969 15

LAND GRANT FUND.

Whole issue of Land Grant bonds		$10,400,000 00
Canceled to December 31, 1879		4,101,009 00
Outstanding December 31, 1879		$6,299,000 00
Land contracts outstanding	$3,698,742 93	
Town lot contracts outstanding	63,070 32	
Cash on hand	214,707 83	
Amount applicable to payment of bonds		3,976,520 78
Leaving amount of bonds to be provided for by future sales		$2,322,479 22

The Omaha and Republican Valley Railroad has been extended to Stromsburg, in Polk County, making the length of this road, from Valley Station, on the Union Pacific, ninety miles. It is also being extended to Lincoln, the capital of the State, and is progressing very rapidly to completion. The business of the road is very satisfactory. It earns more than the interest on its bonded debt, besides contributing a large business to this road.

The business of Colorado is very prosperous, particularly that of mining. The Leadville mines are highly productive and widely known, and the product of these mines comes to our line over the Colorado Central road. This road is also doing a large business.

The Utah and Northern road was extended ninety-four miles last year, and its entire length is now 274 miles, extending from Ogden, Utah, to Beaver Canon, Idaho. It will be extended thirty miles further north in the early spring, and in all about one hundred miles during this year. The road is doing a large and paying business, which continues to increase as it is extended.

The Summit County Railroad is a short narrow gauge road, running south from Echo to Coalville, where there are large coal mines owned by the company. It is the intention to extend this road to Park City this year, where there are large mining interests which will pay for its construction.

The Utah Southern road has been extended south 130 miles, and will be completed to Frisco early in April, which is 235 miles from Salt Lake. There are extensive mines in this vicintiy, and the road has a good business, which will be increased by the extension.

All these branch roads give to the Union Pacific a large and growing business. They are all self supporting.

A branch road has been built northerly from the Union Pacific from Jackson to Norfolk, 48 miles.

Several lines have been surveyed for a road to Oregon, but as yet the route has not been decided upon. The Oregon R. R. & Navigation Company are extending their road eastwardly, and will connect with a road from the east at the eastern boundary of that State.

On the 24th of January, agreeably to Acts of Congress, the Union Pacific Railroad Company was consolidated with the Kansas Pacific Railway Company and the Denver Pacific Railway and Telegraph Company, under the name of the Union Pacific Railway Company.

The roads consolidated are as follows:

	Miles.
Union Pacific Railroad—	
Council Bluffs to Ogden	1,042.4
Kansas Pacific Railway—	Miles.
Kansas City to Denver	639
Wyandotte Branch	2
Leavenworth Branch	34
Enterprise Branch	2
	677.0
Denver Pacific Railway—	
Denver to Cheyenne	106.0
Total	1,825.4

This consolidation has been made upon a basis of the existing volume of stock in each of the companies, as follows:

Union Pacific Railroad Company	$36,762,300 00
Kansas Pacific Railway Company	10,000,000 00
Denver Pacific Railway and Telegraph Company	4,000,000 00
Total	$50,762,300 00

This course was decided upon after mature consideration, as being for the best interests of the Union Pacific and Kansas Pacific Roads, not only promising a diminished ratio of operating expenditure, but disposing of many questions of a vexatious and disturbing nature between the companies.

Not only this, however, but the improved condition of business in Kansas and Colorado, as shown in their increased production of Metals and Cereals, as well as largely increased immigration, warrants the belief that the Kansas Pacific road will hereafer maintain itself as a sound dividend paying property, and thus not only be no burden to its new partner, but an effectual aid to the resumption of a higher rate of dividends at no distant day.

The stock of the Denver Pacific Railway and Telegraph Co., under the laws of Kansas, was an asset of the Kansas Pacific Railway Co., and had been applied by that Company to the purchase of branch lines, to the ownership of which the consolidated company has succeeded.

Branch roads are owned in part, or controlled by the new corporation as follows:

Through the Union Pacific R. R.—	Miles.
Omaha & Republican Valley R. R.	90
Colorado Central R. R.	176½
Summit County R. R.	7½
Utah Southern R. R.	235
Utah and Northern Railway Co	274
Through the Kansas Pacific Railway—	
Branch to Carbondale	82
Junction City & Fort Kearney R. R.	70
Solomon R. R.	57
Salina and Southwestern R. R.	86
St. Joseph & Western R. R., including St. Joseph R. R. Bridge	252
Central Branch U. P. R. R. Co. and leased roads	334
Through the Denver Pacific Railway—	
Denver and Boulder Valley R. R.	27
Golden, Boulder, and Caribou R. R.	6
Total miles	1,597

There has been no change in our relations with the Government since our last report.

The Company have not yet paid any money to the Government under the Sinking Fund Act. The amount due the Company from the Government on half transportation account in the past years has been sufficient to meet any such requirement.

By the provisions of the Sinking Fund the Secretary of the Treasury is required to invest the Sinking Fund in the bonds of the Government. It is proposed to have the First Mortgage Bonds of the Company also included in that provision.

The management of the road during the past year was in the same hands as heretofore. I regret to say that our General Manager, Mr. S. H. H. Clark, is now out of health, and for the present not attending to his duties. During his absence the Road is managed as follows: Union Division and Branches, Mr. J. T. Clark, General Superintendent; Kansas Division and Branches, Mr. S. T. Smith, General Superintendent.

By order of the Board,

SIDNEY DILLON,
President.

☞ The grading of the Quebec Central Railway has been completed from Sherbrooke to Sacre Cœur, County of Beauce. Rails have been laid to within twenty miles of St. Joseph, and it is anticipated that the line will be completed in three months.

THE FOLLOWING PROTEST has been handed in to the English Committee of the Atlantic, Mississippi and Ohio Railroad Company:

STOCK EXCHANGE, LONDON, March 1st, 1880.

Gentlemen:—We, the undersigned, holders of and representing holders of above $1,500,000 consolidated bonds of the Atlantic, Mississippi and Ohio R. R. Co., at present represented by certificates of your Committee appointed in 1876 by the then bondholders, and presided over by Sir H. W. Tyler, desire to point out that in holding these certificates we do not wish to be understood to acquiesce either in the scheme proposed by your Committee, or to your subsequent proceedings, but that on the contrary we shall hold ourselves at liberty to represent our views before the proper Court, whenever necessary.

Signed, FOSTER & BRAITHWAITE,
HESELTINE, POWELL & CO.,
VIVIAN GRAY & CO.,
B. G. GOLDSMID,
JOHN TAYLOR & CO.,
WALKER, RUSSELL & CO,
HELBERT, WAGG & CAMPBELL,
TOM NICKALLS & CO.,
BORTHWICK, WARK & CO.,
CREWS & LICHTENSTADT,
F. L. SLOUS,
HAES & SONS,
L. MESSEL & CO.,
GOWAN & MARX,
T. E. TWYCROSS.

It is understood that these dissentients give a general support to the Dutch Committee.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of February, were:

ENTERED FOR CONSUMPTION.

☞ The Richmond and Danville Railroad Company give notice that they will pay on presentation at par and accrued interest the Consolidated mortgage bonds of the company maturing May 1, 1880, or which may have matured prior thereto, together with other mortgage bonds that are now past due, and that all interest thereon will cease on that date. The offer heretofore published to exchange the Consolidated mortgage bonds for the company's General mortgage bonds is hereby withdrawn.

Commerce of New York.

The foreign imports at New York for the month of February, 1880, are officially stated as follows:

	1879.	1880.
Entered for consump'n.	$12,961,683	$20,585,964
Do. for warehousing	5,275,533	7,622 450
Free goods	7 348,090	10,984,896
Specie and bullion	1,883,681	972 574
Total entered at port.	$26,968,987	$40,165 384
Withdrawn fr. wareh'use	4,491,656	6,808,808

The foreign imports at New York for two months from January 1, were:

	1879.	1880.
Entered for consump'n	$24,287 496	$40,680,829
Do. for warehousing	10,143,704	14,905,826
Free goods	15,836,145	23,628,271
Specie and bullion	2,359,188	1,847,612
Total entered at port	$52,626,533	$81,062,538
Withdrawn fr. wareh'se	9,703,463	13,896,134

The foreign imports at New York for eight months of the fiscal year, were:

	1879.	1880.
Six months ending January 1	$148,784,274	$266,228,601
January	25,657,546	40,897,154
February	26,968,987	40,165,384
Total 8 months	$201,410,807	$347,291,139

The duties received at New York for eight months ending with February, were:

	1879.	1880.
July	$8,103,513 74	$9,329,895 17
August	10,149,191 69	10,562,138 82
September	9,080,936 88	11,790,902 26
October	8,349,904 94	10,952 554 48
November	6,713,339 94	8,460,050 08
December	6,175,359 43	8,175,540 13
January	7,655,552 67	11,960,677 78
February	8,229,362 06	12,254,602 24
Total	$64,457,161 35	$83,486,360 96

The exports from New York to foreign ports in the month of February, were:

	1879.	1880.
Domestic produce	$26,421,198	$23,849,543
Foreign free goods	299,433	235,877
Do. dutiable	411,712	305,728
Specie and bullion	1,909,750	605,022
Total exports	$29,042,093	$24,496,170
Do. exclusive of specie	27,132,343	28,891,148

The exports from New York to foreign ports for two months from January 1, were:

	1879.	1880.
Domestic produce	$48,503,322	$48,018,234
Foreign free goods	565,919	606,234
Do. dutiable	622,658	683,246
Specie and bullion	3,043,617	1,424,941
Total exports	$52,735,516	$50,732,655
Do. exclusive of specie	49,691,899	49,307,714

The exports (exclusive of specie) from New York to foreign ports for eight months ending with February, were:

	1879.	1880.
Six months ending January 1	$177,556,058	$197,760,586
January	22,559,556	25,416,566
February	27,132,343	23,891,148
Total produce	$227,247,957	$247,068,300
Add specie	6,854,212	4,758,007
Total exports	$734,102,169	$251,826,807

The imports and exports at New York for two months from January 1, were:

	Exports.	Imports.
1877	$47,804,636	$54,265,605
1878	58,667,736	50,353,403
1879	52,735,516	52,626,533
1880	50,732,655	81,062,538

A Steel Corvette.

The Berlin correspondent of the London Standard says that the German Admiralty are now building a corvette at Dantzic, the body of which is to be exclusively of steel, and then adds:

Vessels so constructed will be of much greater speed than those plated with iron, which, moreover, has been proved useless against the newest heavy projectiles. The keel-tiers were a day or two ago completed and connected. The frames and steel plates for the ship's bottom are also ready, the material having been supplied by the "Gute Hoffnungs" foundry in Oberhausen, in a condition ready for working. The steel plates were bent while cold, rolled under the hydraulic press, and, as a test, exposed to the blow of a heavy ball dropped from a height of 15 metres. The metal is of the finest quality. Each plate is made larger than requisite, that the surplus portions may be well proved before delivery. Lightness being the chief desideratum, no heavy wood will be used. The stem and stern, each in a single piece, are of wrought iron, from the establishment of Messrs. Krupp. The dimensions are restricted to a length of 71 metres, a breadth of 12.50 metres; the displacement in the front, 5.33; metres, behind 60.70 metres, and in the middle, 6.01 metres. These figures may be thought to promise no great speed, particularly considering the relation of the length to breadth. A glance, however, at the lines of the submerged portion as shown on the model justify the expectation of unusual mobility. There will be a double bottom, and the vessel will be divided into nine water-tight compartments. She will be mounted with ten guns, namely, six on board, two in the bow, and two in the stern. The rigging will be that of a full ship, the lower masts of iron, and the topmasts of Hungarian pine wood. Should the new corvette answer expectations it may be anticipated that the future ships will be constructed of the same material, iron plating being abolished.

☞ The Little Rock, Mississippi River and Texas Railway Company has contracted for 4,000 tons of rails, from Wales, which are now being shipped. Six hundred tons of fastenings have been ordered from the Tredegar Works of Richmond, Va.; 90 flat cars and a large number of box-cars have been ordered from Litchfield, Ill.; and two locomotives have been purchased, and are now on the way from the Mason Locomotive Works, Taunton, Mass. The company is receiving bids for six other locomotives and for 10 passenger coaches. President Redfield hopes to have the road in operation by the 1st of July.

☞ Articles of incorporation were filed with the Secretary of State at Springfield, Ills., on the 20th ult. of the Venice and Carondelet Railway Co., with a capital of $50,000. The proposition is to construct a railway from Venice, in Madison county, to East Carondelet, in St. Clair county, and to connect with all railroad lines that terminate at or pass through East St. Louis; also, with the bridge of the St. Louis Bridge Company.

☞ The Mobile and Alabama Grand Trunk Railroad Co. was reorganized on the 24th ult. by the election of the following Board of Directors: Gen. Levi W. Lawler and Major W. H. Gardner, of Mobile; Col. John C. Burch, Uniontown; James P. Wallace, President of the Security Loan and

Indemnity company, and Mr, Dreyer, of the firm of Naylor & Co., of New York. It is probable that two other directors will be chosen from Birmingham. Gen. Lawler has been elected president, and F. B. Clark, vice president.

Iron Furnaces and Rolling Mills in Alabama.

The announcement that a number of new iron furnaces and rolling mills are about being started in Alabama has attracted considerable attention in the iron trade here, and it is predicted that if the enterprise is successful it will have important results. The development of this new iron industry is principally along the line of the North Alabama Railroad, which is a branch of the Louisville and Nashville. It is stated that a new rolling mill at Birmingham, Ala., is now nearly ready for operations and will be opened about July 1st There are two other furnaces at the same place rapidly approaching completion. It is also intended to open several coal mines in Alabama in connection with the iron works. It is claimed that the iron can be produced much cheaper there than in other places, on account of the facilities, and it is said that the cost for manufacturing No 1 iron will not exceed from $9 to $11 per ton, which would leave a large margin for profit at present figures.—[Phila. Ledger.

☞ During the month of February the traffic on the lines operated by the Illinois Central Railroad was: In Illinois, $462,673; in Iowa, (leased lines), $120,138; total, $582,811. The traffic for the same month in 1879 on the same mileage was: In Illinois, $368,567 57; in Iowa (leased lines), $98,353 57; total, $466,921 14. During February, 1880, the land sales were 3,824. 96 acres for $22,192 59, and the cash collected on land contracts was $14,717 26.

☞ A French engineer claims that he has invented a means of transporting large vessels over isthmuses, however steep, and experiments are soon to be made with it. The experiments will include the lifting of a ship of 2,000 tons from the river Seine and taking it on rails to another portion of the river.

☞ At a recent meeting of the directors of the Baltimore and Ohio Railroad Company, President Garrett said that the Valley Railroad was no longer embarrassed by the Legislative antagonism which had so much injured its prospects and progress, that plans were under consideration looking to an early completion of the road.

☞ The Johnstown (Penn.) Tribune of Saturday last says that the employes of the Cambria Works on the previous Monday, day and night turn, in what is known as the "new mill" turned out sixteen hundred and thirteen steel rails, being at the rate of one rail for every fifty-three and a half seconds.

☞ Letters from Newfoundland state that it is proposed to build a railway from St. Johns to Harbor Grace, at a cost of £300,000. Newfoundland's portion of the fishery award will probably be spent on this work.

☞ Ex-Gov. James D. Porter, of Tennessee, has been tendered and accepted the Presidency of the Nashville, Chattanooga and St. Louis Railway, vice Col. Cole resigned.

☞ The Virginia Legislature has passed a bill incorporating the Baltimore, Cincinnati and Western Railroad Company.

NEW YORK.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending March 6, as reported by the several carrying companies, amounted to 360,869 tons, against 429,084 tons in the corresponding week last year, a decrease of 68,215 tons. The total amount of anthracite mined for the year is 3,354,136 tons, against 3,448,620 tons for the same period last year, a decrease of 94,484 tons. The quantity of bituminous coal sent to market for the week amounted to 38,598 tons, against 59,214 tons in corresponding week last year, a decrease of 20,616 tons. The total amount of bituminous mined for the year is 689,561 tons against 452,064 tons for the corresponding period last year, an increase of 237,497 tons. The total tonnage of all kinds of coal for the week is 399,467 tons, against 488,298 tons in corresponding week last year, a decrease of 88,831 tons, and the total tonnage for the coal year is 4,043,697 tons, against 3,900,684 tons to same date last year, an increase of 143,013 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of February was 141,736 tons, of which 118,271 tons were coal and 23,455 tons coke. The total tonnage for the year thus far has been 1,073,821 tons, of which 823,135 tons were coal and 250,689 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the week ending March 6th were 41,764 tons, and for the year to that date 304,806 tons—145,700 tons more than in the corresponding period of 1879. The shipments to the Baltimore and Ohio Railroad for the week were 37,737 tons, for the year 270,420 tons, an increase of 136,431 tons as compared with 1879. The shipments to the Pennsylvania Railroad for the week were 4,027 tons, and for the year 31,803 tons, an increase of 6,686 tons, as compared with 1879.—[Phil. Ledger, March 15.

☞ The formal reorganization of the Atlantic and Great Western Railroad took place at Cleveland, Ohio, on the 15th inst. The incorporators were H. B. Payne, J. H. Wade, R. P. Ranney, J. H. Devereaux, and J. M. Adams. The name of the new company is the "New York, Pennsylvania and Ohio Railroad Company." It is stated that no incorporation will be necessary in New York, but an auxiliary company will be incorporated in Philadelphia, and the certificate of incorporation filed with the Secretary of State at Harrisburg.

☞ J. J. R. Crees, civil engineer, has a corps of surveyors engaged in making a survey of a route for a rapid transit railway to run from the village of Mt. Vernon, Westchester County, N. Y., to a point in Fordham, a short distance below St. John's College grounds, to connect there with the Second Avenue line from this city. The road will be 3½ miles in length,

☞ The surveys for the new railroad to Long Branch will be completed this week. The route has been changed so that the road will not cross the inlet, but run directly from Pearsall's through East Rockaway to the beach.

☞ A large quantity of iron for the Brooklyn Elevated Railroad is being delivered in Park-ave. It is stated that all the iron work will be placed in position from Fulton Ferry to Grand and Park-aves. by May 1.

☞ The Vulcan Steel Works at South St. Louis have resumed operations, after a suspension of several years, and are now in full blast throughout, with a force of between 800 and 1000 men.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables,

Of all kinds made to order, for Ocean, River, Aerial and Subterranean Lines.

The Kerite covering of these Conductors unlike any other, resists effectually the destructive action of Heat and Moisture, and the corrosive agents either in Earth, Air or Water.

☞ Special orders should state whether the Cable is to be exposed to Earth, Air or Water.

FACTORY—SEYMOUR, CONN. **Office, 120 Broadway, New York.**

NEW YORK, LAKE ERIE & WESTERN RAILWAY.

TO THE TRAVELING PUBLIC.

During the Centennial Season—six months, closing November 10, 1876—the Erie Railway carried almost 3,000,000 passengers, without a single accident to life or limb, or the loss of a piece of baggage.

And for a whole year, the official records of the United States Post-Office Department show the arrivals of Erie Railway trains in New York, on time, to be from 15 to 27 per cent. ahead of competing lines.

Facts well worthy the consideration of travelers.

The Anti-Discrimination Bill at the Produce Exchange.

The action of the Produce Exchange upon the Anti-Discrimination Bill now before the Legislative Railroad Committee, was taken so late as to preclude notice thereof in our last issue, excepting a brief mention in our money article. This action was such a surprise to everyone that it needs explanation of the influences which control that body and its members, together with the methods used, by which a small minority are able to silence or outflank the opposition to their measures, of a very large majority of the members as was the case in its action on the bill in question. Let us state the facts first and then show how they were perverted for the purpose of defeating the bill, in the interest of an inconsiderable minority of the members of the Exchange, while it was opposed by the great majority in whose interest the bill was drawn to remedy abuses of which the latter complained most bitterly, because they enabled said small minority to monopolize the breadstuffs and proaisions, business to the loss of the great majority, by reason of the special rate system to the former.

There are probably not over half a dozen firms in each of the trades named—grain and provisions—which get the benefit of the lowest rates. There are a few more, perhaps half a dozen in each trade, which get occasional cuts and reductions or rebates from the schedule rates which the great mass of receivers have to pay. The shipping transportation and elevating interests of the Exchange are not directly affected by these discriminations, but their interests are to favor the few great houses who get the cut rates, as their business is largely dependent upon favors in the gift of these few houses, and hence the latter command the support of these interests in a contest of the kind in question. There are also another class of members who in one way or another depend on these large houses for accommodations, and are obliged to support such measures against their own interests in order to retain those accommodations. These therefore support the minority. Then come the clerks and retainers of all these houses and interests, who are brought out as voters are on election days when occasion requires. Beyond and greater than all these influences, however, is one not understood off the Exchange—the money influence.

It may surprise the public to know that a half dozen members or less practically control the banking accommodations of all the other members of the Produce Exchange. These few are directors or stockholders in nearly all the banks which do business there, and when a member of that body applies to a bank for an accommodation it is naturally referred to the Produce Exchange director who fixes the line of discount for each member, while these self-same directors will take whatever they can use of these same bank's balances at call loan rates and reloan them to these same members at higher rates than charged by the banks. Hence all members who are obliged to borrow money are under the influence and control to a greater or less extent of these few houses. It will be seen therefore that in an open meeting upon a viva voce vote these men will not dare to vote against these houses even if they refuse to vote for their measures, while on a vote by ballot these firms are nearly always defeated and cannot even elect one of their members to an office in the Exchange, as repeatedly shown, although they do manage to capture nearly every Board of Management after they have been elected on an opposition ticket, either through the methods above explained, or by turning business and brokerages into their hands which is a very common custom while opposition members hold office.

Thus much for the methods used by the "special raters" of the Produce Exchange to control that body and pervert it for their own ends against the majority as was done in the vote on the Anti-Discrimination Bill last week, and hence the Railroad Committee and the Legislature should not be deceived into accepting this action as the sentiment of that body as its very largely signed protest to the Board of Managers has since shown, and as this Board of Managers admit, by their unusual and unwarrantable refusal to call a meeting to vote upon this bill by ballot.

There is, however, another side to this action of the Produce Exchange in which the railroad companies played a part similar to that of the "special raters" with the members of the Produce Exchange, by threats of withdrawal of partial rebates now enjoyed by some, and of the usual terminal accommodations extended to all by custom or courtesy, which the railroads are not compelled by law to grant, as well as by seductive promises of

special rates in the *future* if they will help kill the anti-discrimination bill *now*. That these arguments and inducements were used with all their power on the day of the vote, and that preceding it, may be inferred from the fact that the railroads' freight officials were at the Produce Exchange buttonholing its members. By this we do not mean their regular freight agents on 'Change who are able men in the service of the roads and are intimately acquainted with the business of all the members, but, we mean that officials visited the Exchange on those days who are not seen there except when the railroads have measures to pass. In this connection an official of the New York Central was on the floors of the Exchange, and was so unusually active in his interviewing of members that strangers were heard to inquire his business. In this connection also we hear that receivers were inquired of on that day if their arrangements with the New York Central were not satisfactory, and if so, what they wanted to make them so.

With these facts in view, we leave the public and the railroad committee to judge of the action of the Produce Exchange, and also as to the necessity of checking the power of railroad companies who can thus subordinate, by threats of the abuse of their power against, or promises of i s abuse in their favor, a whole mercantile community to their wishes that they may kill out all competition in trade and the majority of dealers in order to build up a monopoly of the few. It may truly be said that if the manhood of the members of the Produce Exchange were once asserted the roads could not and dare not do these things. Yet they have done them, and do do them, and the members do not assert their rights and will not, except as a last resort when they have no trade to protect by this temporizing policy. Human nature is such that it will save the dollar of to-day and sacrifice the two of to-morrow, in the hope of Micawber that something will turn up; or in the childlike belief of the emancipated negroes of the South, that if they vote the railroad ticket the railroads "will give them 40 acres of land and a Government mule." in the shape of rebates and special rates. What is true of the Produce Exchange is true of all the other commercial bodies of the country as well as private individuals whose business is at the mercy of the railroads.

Chaffee, the Little Pittsburg Philanthropist.

According to an interview afforded President Chaffee, of the Little Pittsburg mine, to exonerate himself from the alleged crookedness of its management, the responsibility for the crash in its stock rests wholly with his directors, who sold out on his information to them that the bonanza was exhausted; meanwhile he was buying their stock as high as 25 "to sustain the market that the public might not suffer," although he "could have made $2,000,000" by taking advantage of his official knowedge and selling out. It will therefore be seen that President and Senator Chaffee is a philanthropist of the first water, and that he owns and manages mines as he does politics for the good of the public instead of to make money for himself. This is Mr. Chaffee's story; and the paper which published it showed its great sagacity and knowledge of human nature in going to the man accused, for the evidence of his guilt, instead of to interests that are hostile to him. This is the way evidence of crookedness is always obtained. Hence this published exoneration, for such it must be regarded, settles it that "Senator Chaffee" is a philanthropist; though it will be news at which the people of Colorado who have known him for years as the shrewd, sharp banker and speculator, will smile. Chaffee on Chaffee is good if the Little Pittsburg is not, and after his solemn asservations of innocence of deception, practiced on the public to induce it to buy his stock, although he admits he stood by in silence and consented, knowing the true condition of the mine, while his directors sold out *their* stock, it is really refreshing to learn that *he* never sold his *own* stock, though by taking advantage of his knowledge he "could have made $2,000,000."

Great and good man, thy name, like that of the Martyr Saint, is Jerome; and verily thou hast been made a martyr to thy principles by thy faithless brethern of the Little Pittsburg directory—a lamb among wolves who have borrowed thy sheep's clothing, with which to prey upon the unsuspecting sheep—the investing public.

We are therefore now thoroughly informed whom to hold responsible for the Little Pittsburg disaster, namely, Mr. Chaffee's derelict and selfseeking directors, and not the President of the company in whom neither Senator Chaffee nor the *Tribune* found guile. Yet, in order to answer and silence the cynical, we may be permitted to ask some apparently skeptical question, suggested, not by the facts in the case, of course, but by what may appear to be contradictory statements in Mr. Chaffee's interview. How, for instance, does he reconcile his solicitude for the public who held his stock at high prices, which it was "his sole desire to maintain" in order that the public should not "lose any money through his action," with "I don't care what the public say about it?" Again, why did he say he had not sold his stock, but that all the directors except himself and one or two others had sold out their stock and in the next sentence say, "I telegraphed Moffat to sell out mine and let it go?" Shortly after, why did he again say, "I don't know how much (of his stock) has been sold and I care very little?" The reader will here discover the "true vein" ("pocket") of the Philanthropist, as well as of the Little Pittsburg mine and management. These are a few specimens of what abound throughout a column and half interview which the public should read to appreciate; for it shows how careless great and good men often are of little details of business as well as of facts which in other people might be regarded as indications of crookedness which he was unable to conceal. It was very kind of the reporter, however, to remind Mr. Chaffee that his arch of apparent (?) inconsistencies was incomplete, by suggesting to him that he "seemed hardly up to the tricks of the 'Street' in New York," to which the Great Philanthropist replied, "I could easily have sold out my stock for $25 per share and made at least $2,000,000 by the operation, but as I have said before I don't want to have anyone lose any money through any action of mine." From this it will be evident that "any" who lost did so in spite of all Mr. Chaffee's warnings to let Little Pittsburg alone as the bonanza was about exhausted.

In view of the foregoing we feel safe in advising "any" new companies coming to New York "to place their stock," to make Mr. Chaffee President. We feel equally confident in advising "any" one to buy only Chaffee stocks, since he has assured them that he does not want to make any money out of them, but that his "sole desire is to sustain the market price of his stocks and keep people who buy them from losing their money." We need not tell the public how he succeeded; they already know.

Keely's New Engine.

It is now given out by those interested in the Keely motor that the experiments and discoveries of Mr. Keely have reached such a point that he will be ready in a short time to ask the Government for a patent to cover his invention, and will be able to state in his petition the exact grounds upon which he claims his invention. For the past two years Mr. Keely has had but little to say, but has been hard at work with his experimental engine. The claim now is that he has succeeded in perfecting a vibratory engine which is entirely distinct in appearance and method of working from any other engine in the world.

When Mr. Keely first began his experiments his design was to furnish power to drive the ordinary piston and cylinder engines, but he found that this could not be done very handily, so he set to work and devised an engine after his own ideas, where the vibratory power could be controlled. He has experimented with this day and night, and at last has arrived at such a degree of perfection in his experiments that he is satisfied the great motor is an assured thing, and before many days roll around the fact will be demonstrated to the public.

The great difficulty to be overcome was found to be speed. An eighteen-inch pulley was attached to the engine, and at first it made but one revolution in five minutes. The power confined here though was so great that it snapped a wire of 1,500 pounds tensile strength in twain. Having the power, the next thing was to secure speed. Further experiments resulted in securing about twenty-five revolutions per minute. This was deemed satisfactory, and on the 20th inst. two large delegations of stockholders from New York city and Boston visited the city and witnessed the latest experiments. The most of the gentlemen were stockholders who had never seen the engine and were curious to know how the thing was getting along. One of the experiments was to fill a tube about the thickness of

a gas burner and eighteen feet in length with the vapor, then cut it off from the generator and run the engine for an hour at a speed of twenty-five revolutions per minute from the small amount of vapor contained in this tube.

Mr. Keely is having another engine constructed, containing all the latest improvements, and this will be completed in about one month from date. He expects it in two weeks, but thirty days may be required. With this he proposes to show the power and speed he has obtained, and will cause a three-foot circular saw to revolve 2,500 times in a minute, and cut hard woods, such as ash, cherry and oak. How this is to be done with the pulley from the engine revolving only twenty-five times per minute Mr. Keely does not undertake to explain. He holds that, having ascertained how to increase the speed from one revolution in five minutes, he now has the secret of causing as many revolutions per minute as the machinery can stand, and sufficient to do all the work required. The new engine will have about the same power as an ordinary ten-horse piston engine.

In addition to this drafts of plans have been made for another engine, which is to be a monster Keely motor, and is to be equal in power to a 1,200-horse engine. One portion of this has already been completed, and was received from the Eureka Iron Works, at Chester, on the 20th inst. The bed of this will occupy a space of seven feet square. Negotiations are pending for a plot of ground adjoining the present workshop, on Twentieth street, near Master, where the new engine will be set up. This is constructed upon the same plan as the smaller engine.

There has recently been a small boom in the stock of the Keely Motor Company, caused by the examinations of a New York engineer into the affair. He has let out just enough of what he thinks about it to create a yearning among moneyed men to be in the thing. Recently the old stock has been called in and the number of shares doubled, two being issued in the place of one held heretofore. The officers of the company say that they will soon be in a position to laugh at those wiseacres who have poked fun at them for so many years.—[Philadelphia Record.

Maine Central Railroad.

The annual reports of the officers of the Maine Central Railroad Co. to the meeting of the stockholders held at Augusta, Me., on the 24th inst., show that the total transportation earnings for the year 1879 were $1,508,377 02, of which $660,424 79 was received from passengers and $793,699 38 from freight. The total earnings were $1,518,586 62. The operating expenses for the year were $869,979 39, leaving $648,557 23 as the net earnings. Of these net earnings, $626,905 23 was paid out for interest on bonds, debt and for rentals, leaving a net surplus for the year of $21,652. The gross traffic earnings during the year 1879 were $73,689 29 in excess of those of 1878, and the net traffic earnings $44,414 62 more than during 1878.

The total bonded debt of the road is $8,704,218 96, against $8,708,942 04 at the close of the preceding year. The other liabilities of the company, including $3,620,100 of capital stock, make the total liabilities of the corporation at the close of the year 1879 $12,336,810 96—a decrease during the year of $24,004 58.

The expenditures for the permanent improvement of the road were unusually large during the year, as the following figures will show: steel rails laid, 2,112 tons, equal to 23 miles of track; iron rails repaired and relaid, 4,050 tons, equal to 14½ miles of track; new sleepers laid, 28,511; 43,000 cubic yards of gravel laid under 30 miles of road; ballast 20 miles; 1503 feet of bridges were built, of which 474 feet were of iron; masonry, 2,954 cubic yards. The buildings at several stations have been rebuilt and new ones constructed. The rolling stock of the company is as follows: locomotives, 58; snow plows, 21; passenger cars, 58; mail and baggage cars, 22; freight cars, 645; platform freight cars, 474; with a full complement of workmen's and like cars. Two first class engines were built during the year.

The Railroad Commissioners in their late report say of the Maine Central:

The road has been operated this year very satisfactorily to the public and successfully by the management. Trains have been run with great regularity and promptness, and thus far no accident has occurred to mar or interfere with the general prosperity of the road. The business of the road is constantly increasing and must continue to do so if the improvement in the industries of the country is maintained and enlarged, and the same liberal and enlighted policy now characterizing and controlling the interests of this road is adopted and perpetuated in the future.

Geo. E. B. Jackson of Portland is the President, and Payson Tucker of Portland is the Superintendent of the Company.

Pittsburg, Cincinnati and St. Louis Railway.

The annual meeting of the Pittsburg, Cincinnati and St. Louis Railway Company was held in Columbus, Ohio, on the 16th inst., at which the annual report of the directors was read, showing gross earnings, $3,603,123.76; expenses, $2,003,561.01; net earnings, $1,599,562.75, out of which was paid interest on bonds, including second-mortgage, $333,625; other items of interest and rents, $160,457.20, leaving a profit of $605,480 55. The net revenue from leased lines was $1,467,765.71, and the rentals $1,661,245.75; a loss of $193,480.04; which, deducted from the profit on the Pittsburg, Cincinnati and St. Louis line proper, gives a profit on all the lines of $412,000.51, being a net gain over 1878 of $551,757.72.

The lease of a portion of the Cincinnati and Muskingum Valley Railroad to the Columbus and Sunday Creek Valley, now the Ohio Central Railroad Company, was ratified.

The old Board of Directors was re-elected, consisting of the following gentlemen: Thos. A. Scott, George B. Roberts, Wistar Morris, Strickland Kneass, H. H. Houston, J. N. Du Barry, John Price Wetherill, all of Philadelphia; William Shaw, J .N. McCullough, Thos. D. Messler, W. H. Barnes, Pittsburg; Robert Sherrard, Jr., Steubenville, and D. S. Gray, Columbus.

The wages of employes will be advanced after April 1 to the old standard before reduction. Plans and specifications for a new depot at Cincinnati were reported, and the building will be erected when full authority is obtained.

☞ The Washington City, Virginia Midland and Great Southern Railroad will be sold at auction in Alexandria, Va., under a decree of the Circuit Court, on the 13th May next. After the sale the company will be reorganized upon the plan lately adopted by committees of the bondholders.

Quicksilver Mining Co.

The referee appointed to determine the claim of the preferred stockholders of the Quicksilver Mining Company to a guaranteed dividend, according to the conditions under which, it is alleged, the stock was issued, filed his report on the 20th inst. He awards to each share of the preferred stock $62 52.8, as its proportion of the earnings from May 1, 1870, to May 1, 1879. The referee decides the gross earnings to be all the yield of the property, and the net receipts to be the remainder after the actual expenses necessary to produce the gross earnings have been taken from them. The obligation to pay interest on its mortgage debt did not relieve the company from its obligations to the preferred stock, according to the agreement under which it was issued. The referee accordingly finds that for the nine years the net earnings of the company were nearly $3,000,000, of which the preferred stock was entitled to $1,988,263.74. The added interest makes the total amount due the preferred stock $2,688,284.81, or to each share $62 52.8.

Pennsylvania Railroad.

The following statement of the business of all lines of the Pennsylvania Railroad Company east of Pittsburg and Erie for February, 1880, as compared with the same month in 1879, shows:

An increase in gross earnings of.....	$406,537
An increase in expenses of.....	347,341
An increase in net earnings of.....	$59,196

The two months of 1880, as compared with the same period in 1879, shows:

An increase in gross earnings of.....	$946,664
An increase in expenses of.....	540,702
An increase in net earnings of.....	$405,962

All lines west of Pittsburg and Erie for the two months of 1880 show a surplus over liabilities of $422,014, being a gain over the same period in 1879 of $296,117.

☞ The Chicago, Milwaukee and St. Paul Railway Company has declared a dividend of $3 50 per share on both the common and preferred shares of the company, out of the net earnings of the year 1879, payable at the office of the company, 68 William St., on the 15th of April. The transfer books will close on the 29th inst., and open on the 19th of April.

☞ The Chrysolite Silver Mining Company has declared its regular monthly dividend (No. 5) of Two per cent on its $10,000,000 capital stock, amounting to $200,000, or $1 per share, out of its fifth month's net earnings, payable at the Central Trust Company, No. 15 Nassau street, on the 27th inst.

☞ The Metropolitan Railway Company has declared its second quarterly dividend of 2½ per cent, payable to the stockholders of record on and after April 1, at the Central Trust Company, No. 15 Nassau street.

☞ The La Plata Mining and Smelting Company will pay their usual dividend of seven and a half cents a share, aggregating $15,000, on the 2d of April—when the sum total paid to the stockholders in seven months will be $115,000.

Distinctive Paper for Bonds, Etc.

Secretary Sherman has issued, under date of March 17, the following circular relative to distinctive paper:

Notice is hereby given, that the distinctive paper adopted June 10, 1879, by the Secretary of the Treasury for all obligations of the United States will be used from date for printing United States notes, bonds, national bank currency, silver certificates and all checks and drafts, until otherwise ordered. The reserve supply of bonds and other obligations printed on the distinctive paper heretofore used will be issued until exhausted. The distinctive feature of the new paper is the introduction of colored silk threads into the body of the paper while in the process of manufacture, in combination with a distributed silk fibre of different colors, and the law makes it a penal offense for any person to have or retain in his custody any paper thus adopted for the purposes above specified.

Statement of the Public Debt of the United States, March 1, 1880.

Totals.....	$64,623,512 00	$646,235 12

Interest paid by United States, $45,651,155 94; interest repaid by transportation of mails, &c., $13,656,910 27; balance of interest paid by United States, $31,994,245 67.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1880.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The following gentlemen were elected directors of the Pennsylvania Railroad Company on the 23d inst. by a vote ranging from 404,275 to 382,652 shares: Thomas A. Scott, Josiah Bacon, Wistar Morris, Samuel M. Felton, Alexander Biddle, Henry M. Phillips, N. Parker Shortridge, D. B. Cummins, Henry D. Welsh, John Price Wetherill, Alexander M. Fox, William L. Elkins, and James McManus.

☞ The Greenville and Columbia Railroad, of South Carolina, is to be sold at auction in Columbia, S. C., on the 15th April next, under a decree of foreclosure, issued by the Court of Common Pleas for Richland county. The sale will include all the corporate right, title and interest of the Greenville and Columbia Company in the Blue Ridge Railroad, together with all claims and demands against the Blue Ridge Railroad Company.

☞ The first passenger train on the Chicago and Strawn, the Chicago connection of the Wabash railroad, ran over the road to Chicago on the 22d inst.

☞ Proposals for the redemption of $300,000 Southern Pacific Railroad bonds will be received up to the 12th of April.

Philadelphia Stock Exchange.

Closing Prices for the week ending Mar. 23.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, March 25, 1880.

At the close of last week's Review the Stock Market exhibited a temporary strength, led by the late fancies which had been sold so heavily short on the previous break, as to enable a few operators to twist them up 2@4 per cent, on Ohio and Mississippi, Iron Mountain, Houston and Texas, Louisville and Nashville, Nashville and Chattanooga, Western Union and Pacific Mail, to which list Rock Island was added, on a rumored scrip dividend, and Quicksilver preferred, which afterwards broke badly late in the week, on the failure of expected back dividends, on a favorable decision of the courts that the stockholders are entitled to 56 per cent since 1870.

On Friday this advance was barely maintained for these favorites, though opening stronger, while the coal shares were the strongest on the list, followed by the Granger shares, with the Gould shares comparatively quiet, and the Vanderbilts much less active, and both barely steady.

On Saturday an unfavorable bank statement caused no renewal of Thursday's stringency in the money market; but rather, an easier market followed than for two weeks, in consequence of large operators lending freely to sustain the stock market, it was said, in order to enable them to dispose of a larger line of stocks. The surplus reserve was reduced to $900,000 from over $2,000,000 the previous week.

Since early on Monday, of the present week, however, the general market has been lower, under continued realizing sales no doubt though

the bears are accused of raiding some stock, notably, Pacific Mail and Manhattan Elevated, both of which have led the decline, under sales of the managers no doubt, and in the case of the latter, by the Construction Company, to whom the Manhattan stock was issued as a bonus. Indeed they are said to have unloaded the whole $13,000,000 on the Street, at the high prices of last week, on the defeat of the Five Cent Fare Bill, since when it has rapidly fallen from 57 to 34, and Pacific Mail to 36¾, with but temporary and slight sellers in either.

The Money Market and Stock Market, however, were at times respectively eased and steadied up, by talk early in the week, of more than $2,000,000 bonds purchase of the Treasury on Wednesday, which was not true, and of its anticipation of the April interest disbursements amounting to over $7,000,000, yet in spite of this, money grew very close on Monday afternoon and so continued on Tuesday, when all the stocks above named, in the advance of the fore part of the week fell back more or less heavily according to their advance, excepting Pacific Mail and Manhattan Elevated, while all others followed their downward wake. On Wednesday the market was again low as a rule, under continued selling of long as well as short stock, in which Erie became more prominent than of late. Quicksilver preferred dropped 10 per cent, it is supposed on some hitch or unfavorable turn in the company's suit.

Exports for the week are much larger embracing 1,293,000 bushels of wheat, 73,000 barrels of flour, and 11,591 bales of cotton, in value about $3,250,000, and other produce shipments of the value of $4,896,000, making $8,146,000, while clearances are making in grain and cotton and provisions for the next export return. Imports are also increasing still more rapidly, as shown by the following table, since January 1st.

	1873.	1879.	1880.
Imports to Mar. 20.	$105,734,845	$64,890,100	$105,133,944
Exports to Mar. 16.	53,766,526	60,093,817	62,464,047
Imports in excess of exports.	51,968,284	4,795,283	42,678,867

The excess of imports over exports in 1873 was only $9,289,387 greater than it is this year. These figures are attracting attention of bankers and exchange dealers who express the opinion that as soon as the money market here becomes easy the rates for sterling will advance to the gold exporting point, and that we shall ship gold before May, because any possible supply of produce bills will not be sufficient to prevent gold exports to meet the enormous demands to pay for heavy importations.

Foreign Exchange opened stronger at $4 89 for short date, but ruled dull on the tight money market, while longer dates were barely steady.

Domestic Exchanges have not materially changed, New England and the Middle States only drawing currency from New York freely.

Government bonds have been strong and in fair request. State bonds were dull at old quotations. Railroad bonds were less active on the whole list as speculations were lower with stocks and investments are not freely offered.

Receipts of domestic produce especially of cotton and breadstuffs as well as provisions have steadily increased and nearly all these markets have gone off while the speculators who have held the markets are generally getting tired or have concluded they were wrong and are getting out as fast as possible and not break prices on themselves. Ocean freights have, in consequence of larger exports, gone up and the movement from the interior has been stimulated by lower rail freights. The non-speculative markets are drooping like all others, holders for a rise getting discouraged and unloading one after another.

The gross earnings of the Chicago, Milwaukee and St. Paul Railway for the third week in March, 1880, were $204,000, against $142,862 for the third week of March, 1879, an increase of $61,138; from January 1 to March 21, 1880, the earnings were $2,090,000, against $1,495,174 for the corresponding period of the previous year—an increase of $594,826.

The closing quotations on Thursday were: Adams Express, 111@112; American Express, 58@59; Atlantic and Pacific Telegraph, 42⅜@42¾; Canada Southern, 66⅛@66⅛; Central of New Jersey, 85¼@85½; Central Pacific, 76⅛@76¼; Chesapeake and Ohio, 23½@23¾; do. 1st pref., 30@31; do. 2d pref., 25@26½; Chicago, and Alton, 112@—; do. pref., 125@—; Chicago and Northwestern, 95⅞@96; do. pref., 109⅞@110; Chicago, St. Paul and Minneapolis, 55@—; Chicago, Milwaukee and St. Paul, 85@85⅛; do. pref., 106¾@107; Chicago, Rock Island and Pacific, 185¼@187¼; Chicago, St. Louis and New Orleans, 41¼@42; Cleveland, Columbus, Cincinnati and Indianapolis, 78¾@79½; Col., Chicago and Indiana Central, 17@17⅞; Delaware and Hudson Canal, 85@85⅜; Delaware, Lackawanna and Western, 93⅞@94; Hannibal and St. Joseph, 37@37¼; do. pref., 72⅛@72½; Illinois Central, 108½@109; Lake Shore and Michigan Southern, 108¼@108½; Louisville and Nashville, 162@163; Michigan Central, 92½@92¾; Morris and Essex, 108½@109; Manhattan Railway, 37⅝@37¾; Metropolitan Elevated, 110@110½; New York Elevated, 118@120; New York, Lake Erie and Western, 44⅞@45; do. pref., 69½@70; Northern Pacific, 31⅝@31¾; do. pref., 54@54⅝; Ohio and Miss. 38@38⅛; do. pref., 75¼@75½; Pacific Mail, 41⅞@42; Philadelphia and Reading, 70@70⅛; Quicksilver, —@16½; do. pref., 67@71; St. Louis, Alton and Terre Haute, 24⅞@25; do. pref., 68@69; St. Louis and San Francisco. 40@42½; do. pref., 55⅝@56; do. 1st pref., 79@82; St. Louis and Iron Mountain, 58¾@58⅞; Union Pacific, 88@88¾; United States Express, 48@49½; Wells Fargo Express, 105@106¼; Western Union Telegraph, 107⅝@107¾; Wabash, St. Louis and Pacific, 43⅝@44; do. pref., 68⅞@69.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Philadelphia.—West Jersey R. R., 35; do. 1st mort. 6s, 112; Philadelphia and Reading Gen'l mort. 6s, 85; do. scrip, 87½; Pennsylvania Canal 6s, 79½; Pennsylvania Co. 6s, 106¼; Schuylkill Nav. 7s, B. ☞ The Chicago, Rock Island and Pacific Railroad Company will pay on the 1st of May the usual quarterly dividend of $2 per share on the capital stock of the company; also 50c. per share on the stock of the Iowa Southern and Missouri Northern Railroad Co., held in trust.

☞ The United States Circuit Court at San Francisco, Cal., has decided, that the law of California forbidding the employment of Chinese by corporations is unconstitutional. The matter will probably be appealed to the Supreme Court of the United States.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of February, 1880 and 1879:

	1880.	
Gross receipts:	Month.	Year to date.
Railroad traffic.....	$1,016 377 71	$3,581,335 11
Canal traffic.....	L 617 46	28 609 56
Steam colliers.....	45,273 37	189,972 26
Richmond coal barges	2,275 95	22,068 63
Total Railroad Co..	$1,063,309 57	$3,821,985 56
Reading Coal & Iron Company.....	530,472 35	1,926,806 36
Total of all.....	$1,593,781 92	$5,748,791 92
Tonnage and passengers:		
Tons of coal on railroad.	369,211 06	1,506,517 09
Tons of merchandise...	449,805 17	1,376,312 05
Passengers carried....	617,611	2,107,527
Coal transported by steam colliers.....	37,807 00	127,399 00
Tons of coal mined:		
By Coal and Iron Co...	169,502 11	721,922 17
By tenants.....	53,667 04	234,394 11
Total mined from lands owned and controlled by Co. & from lease-hold estates.....	223,169 15	956,317 08

	1879.	
Gross receipts:	Month.	Year to date.
Railroad traffic.....	$825,154 23	$2,536,527 37
Canal traffic.....	1,223 46	9,000 30
Steam colliers.....	51,487 76	156,849 53
Richmond coal barges	.....	14,359 14
Total Railroad Co..	$877,865 45	$2,716,736 34
Reading Coal and Iron Co.....	551,396 06	1,558,092 05
Total of all....	$1,429,261 51	$4,274,828 39
Tonnage and passengers:		
Tons of coal on railroad.	519,001 06	1,343,868 11
Tons of merchandise...	221,869 07	722,378 04
Passengers carried....	418,656	1,427,118
Coal transported by steam colliers.....	44,086 00	122,350 00
Tons of coal mined:		
By Coal and Iron Co..	260,001 01	682,236 05
By tenants.....	86,681 10	228,754 02
Total mined from lands owned and controlled by Co. and from lease-hold estates.....	346,682 11	910,990 07

☞ Since the decision in the case of the Missouri Pacific Railroad Company, it is stated that orders have been given for the immediate construction of what is known as the Lexington and Southern Railway, a branch of the Missouri Pacific. The road will be about 150 miles in length, and the first section of sixty miles will be completed this Summer.

☞ The United Companies of New Jersey and the Philadelphia and Trenton Railroad Company have declared quarterly dividends of 2½ per cent payable April 10.

☞ The second instalment of ten per cent upon the subscription to the extension bonds of the Texas and Pacific Railway Company will become due and payable on the 2d of April.

Pacific Railroad of Missouri.

In the United States Supreme Court at Washington, on the 22d inst., in the case of the Pacific Railroad Company of Missouri, appellant, vs George E. Ketchum et al., (appeal from the Circuit Court of the United States for the Eastern District of Missouri,) the decree of the lower court was affirmed. This is an appeal from a decree of foreclosure and sale entered on the 6th of January, 1876. The main points of the case, as stated by the appellants are, as follows:

Early in 1872 certain stockholders of the Atlantic and Pacific Railroad Company obtained a controlling interest in the stock of the Pacific Railroad Company of Missouri. They thereupon elected a Board of Directors for the latter Company in their own interest. These Directors leased the Pacific Railroad of Missouri to the Atlantic and Pacific Company practically in perpetuity. Subsequently, they (the directors aforesaid) issued bonds to the amount of $4,000,000 in the name of the Pacific Railroad Company of Missouri, secured by a third-mortgage upon its property. This is the mortgage the foreclosure of which in the court below gave rise to the present litigation.

It is alleged by a large proportion of the stockholders of the Pacific Railroad Company of Missouri, who are the real appellants in this case, that the Board of Directors elected by the Atlantic and Pacific people while the latter had temporary control of the road, corruptly and fraudulently permitted a default in the payment of the interest on the aforesaid third-mortgage bonds, in order to lay a foundation for foreclosure proceedings; that then, instead of resisting the suit for foreclosure, they admitted the truth of the really false allegations made by the complainant Ketchum as to the insolvency of the road, and consented to a sale thereof in order that the parties with whom they were in collusion, and who wished to buy the road, might be able to "freeze out" the stockholders and obtain the property for a tithe of its value.

The stockholders further maintain that the Pacific Railroad Company of Missouri never was insolvent; that at the time of the sale it was earning $3,600,000 per annum, which was much more than enough to pay its operating expenses and interest on all its debts, and that the equity of redemption which remained to the stockholders after payment of all the liabilities of the road was worth at least $6,000,000. Of this large sum the stockholders were deprived by foreclosure and sale, to which the directors who did not represent them, but whom they were unable for a time to remove, corruptly consented. They further set forth that, pending this confirmation of the sale, they petitioned the Circuit Court for leave to plead, answer, or demur, but the Circuit Court refused all relief. Finally, in 1877, this court allowed the stockholders to take the present appeal in the name of the corporation. They here maintain that the action of the Solicitor of the Pacific Railroad Company, in consenting to the decree of foreclosure and sale in the court below, was not the action of the company and could not bind it; that the Circuit Court had no lawful jurisdiction, and that the decree is void by reason of fraud.
